MASSACHUSETTS GENERAL COURT TO WILLIAM SHIRLEY

In Council January 1, 1746.

Voted that the following message be sent to His Excellency the Captain General by Jacob Wendell, Samuel Watts Joseph Dwight and Andrew Oliver Esqrs with such as the Hon<sup>ble</sup> House of Representatives shall join Viz<sup>t</sup>

May it please your Excellency

In your Speech from the Chair of the 30<sup>th</sup> of Decem<sup>r</sup> you have been pleased to give the two houses a particular account of the several Steps taken preparatory to the Expedition which your Excellency had determined against the French Enemy at Crown point, and to lay before them several Letters & papers referred to in your Speech all which have been duly Considered by them, Your Excellency likewise has been pleased to desire the advice of the two houses in the present Emergency They beg leave in answer to Represent to your Excellency that they have always look'd upon the Recovery of Crown point to be of vast Importance to his majestys Interest and altho it would have been impossible for this province under all their former pressures to have gone thro the Charges of such an Expedition, yet when your Excellency proposed the employing in this Service, part of the New raised Forces in his majestys pay, the two houses agreed upon the Charge of Subsisting Fifteen hundred of them, and they have made all provision for that purpose that could be expected, and they depended upon your Excellency to Concert such measures with the other Governments as were proper for executing this design, but as there seems to be some danger of a failure on the part of some of the said Governm<sup>ts</sup> the two houses think themselves Obliged from a just Care and concern for those Forces who are a part of

the people of this province further to Represent to your Excellency that they cannot think it adviseable for the 1500 men rais'd in & proposd to be subsisted by this Governmt to engage alone in this undertaking but on the other hand they are humbly of opinion that if the New Hampshire Forces be employed to give the Ene[my] a Diversion in another part of their settlements, The Troops from th[is] province with the Connecticutt Troops & a Strong party of Indians [of] the Six Nations would make a greater Force than the Enemy would be able to Repel, especially if such of the Southern Forces as [are] free from the Distempers that have prevailed amongst them sh[ould] join in the undertaking.

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON January 9. 1746

*Sir,*

This goes by Coll<sup>o</sup> Williams to let your Honour know how much this Government has at heart the Prosecution of the Expedition against Crown Point & what Dependance we have upon being assisted by your Forces; you will find by the inclosed Copies in some of w<sup>ch</sup> is contain'd an acct of our Provisions sent to Albany In my Letter of the 22<sup>d</sup> of December last (which is herewith inclosed) I have endeavoured to answer all your Objections as mentioned in your last Letter, That of your not having sent your Provisions to Albany River is I think obviated by the Vote of the General Court here to supply you in part, And Coll<sup>o</sup> Williams and Coll<sup>o</sup> Pitkin are of Opinion that there can be no Difficulty in providing the rest, by driving fat Cattle & Swine with the Army, which may be exchanged for our Salt Provisions. It appears to me that the Execution of this Design against Crown Point will entirely depend upon the Resolution of your Government thereon, at least this Government is determined that if no Attempt be made

for it this Winter, & thereupon the Six Nations should go over to the French Interest (the fatal Effects which will probably ensue thereupon being such as are not to be expressed) the Blame of such Neglect shall not lay at our Door. And therefore I must earnestly desire your Honour without Loss of Time to call your Assembly, & to use your Influence to bring them into such a Determination as may promote his Majesty's Service and the Benefit of these Colonies in relation to this important Affair. Our Time will be much streightened if there be any long Delay; Therefore I should judge it necessary, that you should not only forthwith apprise me by Express, of your Determination but send Advice thereof to Governour Clinton w<sup>ch</sup> I have wrote Gov<sup>r</sup> Clinton you will do. It seems to me by what I can learn that the Small Pox is near wholly gone from Hudson's River. Having had a large Conference with Coll<sup>o</sup> Williams & Coll<sup>o</sup> Pitkin, & some of the principal Gentlemen of this Government on this Great Affair, the Resolution of which they will declare to you, I need not trouble your Honour further.

I am Sir your Honour's most

Obedient Humble Servant

BOSTON 13. Jan<sup>y</sup> 1746.

By all the Charters of the English Colonies in North America the British Crown is not Seised of any lands near the River of St Lawrence. Therefore the French have openly taken possession of the South East Side of it from the mouth of the river to Crown point, and have a right to hold it in peace. But as they are troublesom neighbours & daily growing in power; they may finally subdue the English, & Command the whole; unless they are Speedily Confined only to the North west Side; that y<sup>e</sup> River may be a Natural

boundary between us, & barrier ag<sup>st</sup> them. For the Securing of his Majesties Dominions here I would have that matter as Soon as possible fully represented to his Maj<sup>sty</sup> And I would have it done by Connecti[cut] first for the honour of my Native Countrey, then because, if they know they depend upon no changeable ministers of State, nextly they will be readily & Chearfully Joined by all new-England, And will finally reap great Profit & advantage by it. By the Stat. 13. George 2d Intitled an Act to Encourage the American Trade, Scooners to enter into his maj<sup>ties</sup> Service. It is enacted that the King during any war May grant any Charter Commission or Grant to Enable any particuler persons or Societies to Join in any Expedition by Sea or land in America, to take or destroy any ships goods Settlements harbours lands or fortifications of the Enemy, And assure to them the property of what they take & all the profits thereof under such regulations as the King shall think fit: & afterwards confirm it to them

Upon this Stat. I advise that y<sup>r</sup> honour with the advice of y<sup>r</sup> Assistants in behalf of Connecticut, with the Concurrence of such other New England Colonies as will Join with you Immediately prefer A Petition to his Majesty to Grant you such Charter Commission or Grant as shall Enable you to take all the forts settlements & lands of y<sup>e</sup> French on the East & South Sides of S<sup>t</sup> Lawrence's River from the Lake of Onontario to the Main Ocean, not included in any former Letters Patents from the British Crown; to be Shired & Divided between those Colonies in proportion to the men they shall Severally furnish & send upon the Expedition; to be settled & improved by their respective Inhabitants, as those Governments shall severally for their respective shares Order & Grant.

If you send by the first ships to England, you may have returns early enough to do every thing next year, & what will be done before? If you keep a good lookout you may know whether your friends at home have alarm<sup>d</sup> the French against you or not. And you will have it in your

power to Choose your own opportunity & surprize them at last. Sr I am

propos'd Attempt against Crown point, and being Inform'd that your Court will not meet till Tuesday next, I thought it necessary to Send to you immediately by Express an Extract of Governour Clintons Letter, and of the Advice of his Council to him upon this Affair; hoping that if there be opportunity of laying these things before your Court, they might have some Influence on their Determinations: If you shall Conclude to Join the whole of your Forces raised for the Expedition against Canada in this Attempt, I must earnestly desire that not a Moments time may be lost, but that you would immediately let me know your resolution, and that you would without delay inform Governour Clinton thereof by Express and desire him to appoint the Time for the Assembling of the Indians, and forthwith send for them in, the Season being already far advanced, I need not be more particular in this Matter, what is wanting will be fully supplied in the inclosed Copy, and am Sir,

#### CONNECTICUT'S ADDRESS TO THE KING.

To his Most Excellent Majesty George the second, King of Great Britain, &c.

The humble Address of the Governor and Company of the English Colony of Connecticut in New England in America.

Most Gracious Sovereign: We, your Majesties loyal and most dutiful subjects in your remote Colony of Connecticut, beg leave humbly to assure your Majesty of our strongest attachment to your person, family and government, and to acknowledge the favours this Colony has enjoyed under your Majesties auspicious reign, and to express our utmost abhorrence of that most unnatural rebellion raised in Great Britain in favour of a popish

pretender, against the best of kings, the best constitution and government; which vile design by Divine Providence being happily suppressed, we beg leave on this occasion humbly to congratulate your Majesty on the happy success of your arms under the excellent conduct of his Royal Highness the Duke, who God has crowned with a glorious victory over those wicked rebels and traitors, to the honour of your Majesty, and confusion and shame of them and their abettors.

As your Majesties whole reign has been an uniform evidence that you have nothing more at heart than the protection and security of your subjects in the enjoyment of their religion, liberty and property, so it appears the more surprising that it should ever enter into the heart of any of your subjects to rebel against your government, with design to dethrone your royal person and to subvert the laws and liberties of your kingdom. Though these sons of violence have been permitted to be a scourge to the British nations, yet, blessed be God, he has not suffered them to prevail in their attempts to introduce popery and slavery, nor to endanger the protestant interest, but has confounded their devices, and by his all-wise providence overruled that wicked design for the more firm establishment of your throne and government.

May that merciful Providence which placed your Majesty on the British throne, and has given you so long and so illustrious a reign, still protect your sacred person, subdue your enemies, make your reign prosperous, and continue the crown in your royal and illustrious family to the latest posterity.

WILLIAM SHIRLEY TO JONATHAN LAW.

Boston Feby. 7. 1746

Sir,

Your Honour will not think it strange that after so great & unexpected a Disappointment as I rec<sup>d</sup> in the Resolutions of your Gen<sup>l</sup> Assembly, concerning the Attempt against Crown Point, I should use any further Importunity with you on that head, when I inform you of the present

---

\*The Assembly resolved that because of the difficulties of a winter campaign, the danger of small pox being brought into the army from the southern colonies where it was reported to exist, the lack of sufficient provisions at Albany for the Connecticut troops and the want of some general agreement or of authority from the king for such an expedition, its success was doubtful and they "could not see it practicable and advisable at this time." The desirability of the reduction of Crown Point was, however, recognized and the governor and committee of war were empowered to act in the matter "in case the troops raised in this Colony for the expedition against Canada by any proper orders be called or ordered forth into his Majesties service against the French, before the sessions of this Assembly in May next."

situation & Circumstances of that Affair. Yesterday Mr Lydius came to Town with Advices from the Army on Hudson's River that there were twenty nine Companies of the Southern Colonies, which he judg'd would make out 2400 Men, all in health & good Spirits, & generally well disposed to the Service, & expecting forthwith to march against the Enemy; And he has shew'd me a Letter w<sup>ch</sup> he has rec<sup>d</sup> from Lt Col<sup>o</sup> Johnson just before he left Albany; w<sup>ch</sup> shews the Proceedings of Gov<sup>r</sup> Clinton since the date of his last Letter to me, a Copy of which I sent your Honour, & the Expectations & good Disposition of the six Nations, & the forwardness of some of the Tribes, & that the rest were sent for by Gov<sup>r</sup> Clinton to attend this Service; a Copy of this Letter I have herewith inclosed. These Advices I communicated to the two Houses, & yesterday Evening rec<sup>d</sup> the inclos'd Message from them, w<sup>ch</sup> pass'd in both Houses almost unanimously: For this we esteem to be so critical a Conjuncture (more especially in respect to the disposition of the six Nations & the Danger of losing them for ever if this Opportunity is neglected) that we are now determin'd to run all hazard in a Matter of this Importance, upon w<sup>ch</sup> the future Prosperity of the Northern Colonies does under God depend more than on any other Scheme or Project whatsoever: And as I am fully satisfied that this Enterprize has a favourable Aspect greatly to promote his Majesty's Service & that it is perfectly agreeable to his Majesty's Instructions; In Conforming to which Mr Warren & I, pursuant to the Power therein given, have determined it to be for his Majesty's Service & for promoting the general design of the Reduction of the whole Country of Canada; and that the Troops ought to be so employed at this Juncture & that they should do something to answer the great Expence his Majesty is at in supporting them: And as your Assembly seem in their Resolve you sent me to have left open a Liberty for your Council of War to join your Forces with ours in so extraordinary an Emergency as this, & in w<sup>ch</sup> Providence seems to smile upon us in the long Continuance of the cold and frosty weather I must once more strongly urge your Honour to have the Troops of

your Colony forthwith assembled & employed in this Service; Not that I shall wait for them one Moment, being determined to proceed with or without them as Providence shall order: In the mean time you and the Gentlemen of your Governmt will do well to consider how his Majesty may resent it if this design should miscarry for want of a thousand brave men in his Pay, who are at home following their own private business, whilst the rest of the Troops are acting vigorously against his Enemies. It is design'd that our Forces should build Forts above the Carrying Places & as near Crown Point as may be, that in Case the Enemy should be stronger than we apprehend, our Forces may still maintain their Post till his Majesty's Pleasure be further known. And upon any Emergency that may happen we shall make further demand of your Assistance: I depend upon your Honour's laying this Matter as soon as possible before your Council of War, with whom I have not the Pleasure to be acquainted, nor know where to send to 'em.

I hope your Honour & the Gentlemen of your Council of War will have a due Consideration of this important Matter, & if we unite in our Sentiments, & Proceedings in it, I doubt not but that the same Success will attend it, as has done the joint Proceedings of the two Governmts which have hitherto been most happily united in the Interest of the common Cause.

This Waits upon your Honour In favour of my Eldest Son and Capt Peter Harrison & others of our friends and Neighbours, of this and the Neighbouring Governments Who are Prisoners In Quebec in Canada of which we are well assured by the Inclosed Copy: of the Declaration of Jeshur Crowel & Capt Truman: Which with other Circumstances makes the fact to me Certain that they are there under Disconsolate Circumstances about what wey shall be found out for their Deliverance from Captivity.

I thought it my Duty: as well as Intrist to acquaint your Honour, with this peace of News; and the Piteyous Circumstancys of those prisoners; and would Humbly propose it to your Honour & Councels Wise Consideration Whether there may Not be some way Devised to Send a flag of Truce by the Way of Crown Point or Some other Way to Canada Early this Spring: Whereby Some at Least of the

Prisoners may be Released before the Somer Season Comes on; Which might of Necessity make it very Distressing for Such a Number to be Confined in Close Prison in one House as I understand they are.

This Declarant Informed me of many Circumstancys ommitted in S<sup>d</sup> Declaration too many to trouble your Honour with; to mention a few: (viz) that our people Who have been taken from the frontears this War; were there; that those who Were taken from fort massechusets y<sup>e</sup> Last summer & With them the Reve<sup>d</sup> m<sup>r</sup> Norton the minister: that some of the Prisoners had been Confined in Prison fifteen Months before he Lef them: that where they was Carreyd into Chebucto Harbor: they found there a Nother french man of Warr of 50 Guns and Several English prizes taken by him That when he was In Prison he was Informed that y<sup>e</sup> French Governour Declared that he had Sent Several Letters to the Governour of Boston: to have the Cartela Settled that the Prisoners Might be Released; but that he had no Return; Knew Not Whether his Letters had Ever reached him.

BOSTON March 4<sup>th</sup> 1746*Sir,*

Not long since I represented to your Honour the State of Affairs in Nova Scotia, & the great Importance of preserving that Province from falling into the hands of the Enemy, and earnestly requested you to send some of the Kings Troops in your Colony to act in Conjunction with those I sent from hence for that Service; And I am now to inform you of the Disaster, which has befallen the Forces sent from this Province for driving the Enemy out of Nova Scotia, we<sup>ch</sup>, thô I would attribute in part to some Neglect of Duty in the Officers in not keeping a good Watch to prevent a Surprize, yet I must be of Opinion that the principal Cause of this Misfortune is, that the neighbouring Governm<sup>ts</sup> have not afforded us due Assistance against the Enemy in this important Enterprize. The particular Circumstances of this Misfortune you will understand by the inclosed Papers & Print, which contain authentick Accounts that I

shall not take up time in repeating here; Our Business being now to look forward, & do every thing in our Power to strengthen our Forces in Nova Scotia, by making them an Overmatch for the Enemy; And as Mr Mascarene apprehends it necessary to make up the Number twelve or fifteen hundred, I am fully of Opinion with him, that less than twelve hundred will not be sufficient, but that it will be more convenient to make up the Number to fifteen hundred; which, with the arm'd Vessels belonging to the several Colonies in New England, would I hope (by the Blessing of God) make the Conquest easy and expeditious, & discourage the Enemy from any future Attempts: The absolute Necessity of making such a vigorous Attempt for driving the Enemy out of that Province, & the vast Interest w<sup>ch</sup> all the Colonies in New England, as well as the Crown of Great Britain have in this Event must, I think, be obvious to every thinking Man, that has the least Affection and Zeal for the common Cause of his Country; And it is no less evident that the present Season is the very critical Conjunction for the effectual Execution of this design; which if once lost may never be retrieved, & so the Neglect of improving it be attended with such Calamities and Disasters as will not be fully understood 'till they are felt. This being the Case, I must press your Honour in the strongest manner to make up as large a Body of Troops as you can, & send them well appointed with all possible Expedition, with your Colony Vessel of War, for this Service. There are now three hundred Men remaining at Annapolis fit for this Service, allowing for a hundred & fifty Men of the Garrison who can be spared while our Men, who are restrained by Capitulation from acting against the Enemy up the Bay, may keep Garrison in their room: Besides which three hundred men I have three hundred more ready to send, provided the several Governments in New England will do their parts to make up a Body of twelve hundred Men, or if they will make it up fifteen hundred Troops, I shall much more chearfully bear my Part of that Number: I am aware that some may object against this Proceeding, that the Troops may be

called for on the Expedition against Canada, before they can return from Nova Scotia; But as it is not probable that that will be the Case, especially if we be expeditious in this Business, so they will be in as great or greater Readiness to proceed from Annapolis Royal than from their respective Colonies, be better secur'd from Desertions, & be more inured to the Hardships and Discipline of War, and consequently the more fit for Service than they will be if they stay at home. I hope the Expence of Provisions & Transports will be no Obstacle to your sending a Reinforcement to Nova Scotia upon this extraordinary Emergency; If your Assembly should refuse to bear that, which I hope they will not, I am perswaded your Honour may in such Case safely take up Provisions and Transports at the Charge of the Crown upon this particular Occasion, and that your Honour's Bills of Exchange upon the Lords of the Treasury in favour of such Persons as shall advance a Sum in Bills of Credit for this Service, will be duly paid. And as an Inducem<sup>t</sup> to the Men to go more chearfully upon this Duty, I am determin'd to advance sixteen Pounds old Tenour to every Man whom I shall send upon it, and to draw Bills of Exchange upon the Lords of Treasury; And as for the Officers who shall proceed in it, I doubt not but they will greatly recommend themselves to his Majesty thereby.

Your Honour will be pleas'd to consider upon this Occasion that your Government is the only one in New England, which has refus'd hitherto to give any Assistance for the Protection of Nova Scotia; and will therefore, I doubt not, think it fit and advisable that it should now be the most ready to join in retrieving a Misfortune, which has happen'd very much for want of it's Assistance before.

You must be sensible, Sir, what immediate Dispatch this Business requires, & that not an hour's time should be lost for effecting it: I purpose to have the Reinforcem<sup>t</sup> which I shall send from this Province at Annapolis by the End of this Month at farthest (if possible) to be ready there to proceed to Minas or Schiegnecto, as the Case shall require,

before Mr de Ramsey's Vessels can get away from thence;  
and I must desire the favour of your Answer by the Bearer.

I am Sir,

Your Honour's most Obedient

Humble Servant

W. SHIRLEY.

#### JEAN PAUL MASCARENE TO WILLIAM SHIRLEY.

Extract from Lieutenant Governour Mascarene's Letter  
to Mr Shirley, Dated Annapolis Royal February 8<sup>th</sup> 1746-7.

Major Philipps left Manis on fryday 30<sup>th</sup> Jan<sup>ry</sup> last, and  
the Same night the Canadians who were at Chignicto and  
had gathered about 50 Indians with Some of the St John's  
Island Inhabitants, and other runegates or disaffected  
Inhabitants after a march of three weeks in the most bitter  
Season, and almost Impassable ways, arriv'd at Manis, and  
fell on Our people in the night, the Inclos'd will give your  
Ex<sup>cy</sup> an Accot of the Issue, which in the main tho' unfortu-  
nate has been of no dishonour to Our Troops, Since tho'  
they were Surprized and in that Confusion which such a  
Surprize naturally causes the Enemy had the greatest  
advantage, and kill'd most of the men we lost, yet when  
day came, and our Officers and men had joined, they acted  
their parts So bravely as to make the Enemy desirous to  
part with them, and afford them honourable terms. The  
first Detachment of them arriv'd last night, at the head of  
our River, the rest are to be there to night.

The too great Security, and the not even Securing their  
houses well, was the Occasion of their Misfortune as well as  
what we are & Shall be always lyable to amongst these  
Inhabitants, their not having Intelligence of the motions of  
the Enemy 'till they had them upon them. for they all  
agree that if they had had but a Quarter of an hour's  
warning they would have been able not only to have Cop'd  
w<sup>th</sup> but to have worsted the Enemy their numbers being

rather greater as all acco<sup>ts</sup> I have had Seem to agree, tho' the Inclos'd from Capt Goldthwait makes the Canadian's exceed our's, but even if So that excess would have been over ballanced by the Courage & resolution our Troops expressed. I had warn'd the Officers to Secure their Quarters and watch against any Surprize, The Block house indeed they Say could not be Sett up, the frost Setting hard So Soon But Some pallisadoe fence or such like might have Stop'd the first Surprize. However Sr this is not to be recall'd.

There must be means us'd however to take or destroy five or Six Vessells the Enemy have now up the Bay. Capt Rous promises to fit his Ship as Soon as the Season will permit. Giddings must be sent immediately back, and any other force y<sup>r</sup> Ex<sup>cy</sup> thinks fit to add Should go up by Sea, for the Landward will be impracticable for our men, as Soon as the thaw Setts in.

I do not think it an Easy thing to ridd our Selves of all this people, and cannot think it could be in Justice answer'd without further proofs of their delinquency in general, or positive Orders from home, but however on the fair pretence of pursuing our Enemys much might be done to humble them, and punish those who might be found to have favour'd the Enemy. There must be a great force to bring this to pass. Colo Gorham who came away with Major Philipps with Capt Cobb and three or four Subalterns and about 120 men many of them Sick are all exempted from the Capitulation the others may fight here, and help to defend the place, and I could in that case Spare 150 men out of the Garrison, to go up the Bay on such an Expedition there must be at least twelve or fifteen hundred men for Landing.

Extract from Lieutenant Colo Gorhams Letter to Mr Shirley, dated Annapolis Royal February 8<sup>th</sup> 1746.

It must be allowed by all hands that this Attack and Advantage Gained upon us by our Enemys was most wholly Owing to the certain advices and Intelligences, that was given by the Traiterous disaffected, among the Inhabitants,

towards the English, and by their Keeping all true Intelligence from us which is no Small part in Warr.

#### ACTION OF MASSACHUSETTS COUNCIL.

At a Council held at the Council Chamber in Boston upon Fryday February 27<sup>th</sup> 1746.

His Excellency having communicated to this Board Advices he has receiv'd from Nova Scotia, by which it appears that the Enemy has obtain'd considerable Advantage over his Majesty's Troops rais'd in this Province, & sent thither for the defence of that Province; And the Board being of Opinion that the Preservation of that Country is of the utmost Importance as well for the Interest of the Crown as the Safety of his Majesty's Northern Colonies.

Advised that his Exc<sup>y</sup> send to the Governors of this neighbouring Colonies, to inform them of the State of Affairs in Nova Scotia, & in the most pressing manner to desire that they would without delay prepare a Number of Troops, & transport them to Nova Scotia, & send their respective arm'd vessels thither to join with the King's Troops raised in this Province & such vessels as may be sent from hence, that so there may be a sufficient force for the driving the Enemy out of that Country.

Yours of y<sup>e</sup> 4<sup>th</sup> Instant I rec<sup>d</sup> on y<sup>e</sup> 9<sup>th</sup> and observe that either Your Excellencies Memory or mine is very treacherous when you say you earnestly requested my sending some of the Kings Troops in this Colony to act in Conjunction with yours in nova Scotia but I remember you signifyd to me That the Gov<sup>ts</sup> had nothing to do with the Kings forces save only to provide for them, and you undertook to direct all the forces here on an Expedition against Crown point, and those of Rhoad island, New Hampshire and some of your own to Annapolis, so that we have not comitted any fault in this matter which needs to be expiated as Princes were wont to do theirs by going into the holy land. however I condole with you for your Misfortunes, and hope we shall all remember, there is no trust to be putt in them, who say no faith is to be kept with Hereticks

I advised with my Council on your Motion who for sundry Reasons they gave me shewed their Indisposition to the calling an Assembly for that purpose and as for my procuring money and drawing on y<sup>e</sup> L<sup>ds</sup> of the Treasury I dare not presume upon it think it more safe for your Excellency who may have also power to comānd the men specially since I am informed that M<sup>r</sup> Prince has wrote to his brother here That the Parliament have disallowd a Reimbursement to us

*Sir,*

I herewith inclose the Copy of a Letter from One of our Officers upon Connecticutt River, who has the Command of a Fort at the Place called Number Four, the highest Settlement upon that River. Your Honour willl understand by this Account as well as by others which from Time to Time you may have lately had, how much our Western Frontiers are continually harrassed by the Enemy. Our Inhabitants in those parts as well as in the Eastern Frontiers are continually removing from the Settlements. In this State of our Affairs we are making all the preparations we can for our Defence & for driving off the Enemy, who are very Numerous & in every part of our Frontier.

Therefore at the Instance & Request of our General Assembly, I must earnestly desire your Honour immediately to send Five hundred Men into the County of Hampshire to be employed there against the Enemy, & to be under the Direction of Colo John Stoddard. I must request you to give this Affair all the Dispatch that is possible

JOHN STODDARD TO WILLIAM SHIRLEY.

Extract of a Letter from John Stoddard Esqr to Governour Shirley, dated the 13<sup>h</sup> of May 1747. from Northampton.—

“I Send you the Letters I lately rec<sup>d</sup> from Albany by which your Excellency will perceive that the Six Nations are thoroughly Engaged, & that most of them together with some others of their Allies are likely to Join in our Service; I think with your Excellency and the Council that the Encouraging these Indians is a thing of great Importance.

The Several Governments have been Endeavouring for near three years past to perswade these Tribes into a War wherein they had not any Concern but to Serve their Friends, and they seem generally got into it and have left their Hunting and other means of living, & Expos'd themselves and families for our Sakes, and can we Expect they should fight for us, and devote themselves to that Service, and we Suffer them to Starve, or can we Expect that they go a Warfare for us at their own Charge, or can we Expect that Col<sup>o</sup> Johnson & Mr Lydius should pay the Reckoning. they have taken a great deal of Pains to get the Indians into the War, & have Effectuated more than the Governments could in a Course of years, and can it be thought that they should Spend all their Substance in rewarding the Indians for their service. it will cost them about 6 or 700 pounds to fit out 100 men for War in York Money as may be seen by Lydius Letter of March 26<sup>th</sup> and how many hundred will soon be out, and how many times they will go out this Summer, others can guess as well as I.

To let the design drop now we have a hopeful Prospect of distressing our Enemy would be fatal, for the Indians may well say as they often suspected beforehand, that our design was to get them into the War, & then leave them in the Lurch. and then we should fail of their Assistance, and no wonder if they should Reconcile themselves to the French, which they would be glad of, and then take part with the French against us, for the Indians are of Such a Humour, that if we deal Justly and kindly by them, they will put their Lives in our hands, but if we deal deceitfully with them, that will soon raise an Abhorrence of us. Col<sup>o</sup> Johnson and Mr Lydius are now under a necessity of going forward and fitting out the Indians, so long as they have any

Substance remaining and when that is gone the Affair will be at an End.

Therefore I see no way but for the several Governments to send Supplis of Money or Goods to Enable those Gentlemen to carry on the War. I think it altogether just that the several Governments do Contribute toward the Charge, and doubt not but Several of them would chearfully agree to it, upon a proper Application being made to them, and tis probable that the Money so Expended would do us twenty times as much Service, as what we have heretofore Expended in the War. were it in my Power I would send a Thousand Pounds in our new Bills or in suitable Goods to those Gentlemen for their present Necessity, this would revive their drooping Spirits (whilst they are full of Expectations of being undone) and would greatly animate the Indians. Such Causes ought not to be Starved, for want of a little Oyl to keep the Wheels in Motion.

JOHN STODDARD TO ROGER WOLCOTT.

N<sup>TH</sup> HAMPTON May 14 - 1747S<sup>r</sup>,

You are knowing to the Endeavours of Several Governments to bring the six Nations into the War with the Canadeans, which seems to be pretty well Effectuated, I perceive there has Eleven Parties gone out to War this Spring, and I heard of the Return of one only, who killed six french men and one Indian. near Crown Point, thirteen of them attacked 27 french, and 3 Indians, our Maquas had two men Wounded, one of them (I hear) is since dead. that Party are gone out again. som of the Parties are small, some large; Hendrick is gone with upwards of 60 men and one Isaac with 46. there are some white men in Several of the Parties, they Consisted Chiefly of Maquas, till of late there has some Onidoes, Kieugas, Annondagas, and some Tuskaroras, gone out, the six Nations seem generally Spirited to go and are making preparation, as are some other Tribes that I am not acquainted with.

This Government has Ordered me to Pay a Bounty for Every Scalp and Prisoner that should be brought in by any Parties that should go out by my direction, and likewise five Pounds to each man to Equip them that should take their departure frô hence. and I have been Endeavouring to draw some Parties hither, but it has hitherto been fruitles, those People seem to be in good earnest, and are unwilling to loose so much time as it would take them to come hither, and when here they are further from their business than when at Home, Co<sup>ll</sup> Johnson, and Maj<sup>r</sup> Lidius have been Chiefly Active in bringing the Indians to Action, and have been at great Charges in Belts, in treating, and Equipping those that go out, and in making some Provision for their families whilst absent. I am Satisfied that the fitting out every Hundred men Costs them 6 or 700<sup>l</sup> York Money, and its looks probable that many Hundreds will go out this Summer, and that many of the Parties will go out divers times in one Summer.

I can't Imagine that when the Governments endeavoured to Engage these Indians in a War wherein they really had no Concern, that they should leave their Hunting (as they have done) and their other means for a livelyhood, and Hazard their lives, and families to free us from our Distresses, in Expectation of freeing themselves from the Charge of the War, and laying that Burthen on the Indians, who seem to devote themselves to the War, which will render them incapable of providing for themselves and families, neither can we expect that Col<sup>l</sup> Johnson and Mr Lydius should be at the Charge of the War, I know not what Assurance those Gent<sup>mn</sup> have that they shall be Reimbursed what they have, or shall advance for the Publick Service, & it cannot be Imagined that their Estates will hold much longer to Defray such a constant and great Expence as they are at, so that we must expect that in a Short time the fair Prospect we now have of Distressing our Enemies will utterly fail unless the Governments do assist these Gent<sup>mn</sup> by speedily Supplying them with Goods or Money, and those Indians will be Obliged (to our Shame, and ruin) to make the best terms for themselves, with the french, if we don't Enable them to Continue the War. There has lately one French man and 7 Cagnawagas been at Onnon-taugee, under pretence of Condoleing the Death of some of that Nation, but Chiefly to Enquire who it was that Bruised their Brethrens Head (as they termed it) with y<sup>e</sup> Ax last fall, and to make up that break, and they laid down a Belt 6 Inches wide and Seven feet long. the Sachems, and Chief Capt<sup>ns</sup> of War told them, that they could not be Ignorant that the six Nations had (last Summer) taken the Gov<sup>nrs</sup> Ax, and that what they had done last fall was but a Whet to the Ax. upon this the french man Hung his head, said nothing, and Marched off.

I have written Pressingly to Boston that there may be at least a thousand Pounds of our New Currency remitted to these Gent<sup>mn</sup> with all Speed, and untill the Governments shall agree on some Method how to defray that Charge, and I presume that will be worth twenty times so much

Expended in the Methods heretofore taken, I hope your Assembly will by no means Starve a good Cause but will generously Contribute to the Promoting a design from which we have the best Prospect.

I am S<sup>r</sup> with greatest Regard your very  
Humble Servant.

JOHN STODDARD.

the Hon<sup>ble</sup> ROGER WOOLCOTT Esq<sup>r</sup>

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON May 15<sup>th</sup> 1747

*Sir,*

This goes to inform your Honour, that by Dispatches I have received from Albany & Northampton, I find that the Indians of the Six Nations are generally spirited to go to War against the French of Canada, that divers Parties are now out & others daily offering themselves, which is a Point the Governments of New England (especially those of the Massachusetts & Connecticut) have been labouring to carry ever since the first of the War, and if this Spirit be duly cherished & properly managed & directed, it may, by the Blessing of God, prove of unspeakable Benefit for the Safety of these Colonies. I refer your Honour to Colo Stoddard for a more particular Account of this Affair, only I would observe, that Colo Johnson & Mr Lidius, whose Influence on the Indians has brought about this great Event, are under such Engagements as they are not able to fulfil without proper Supplies from these Governments, & if for want of that the Indians should suffer any Disappointment, it is more than probable that they will be disgusted at their being left in the Lurch by us, & will fall entirely into the Interests of the French, which will be more fatal to these Colonies, than any that has yet befallen us. Now as there is no General Court in being in this Province, we can do Nothing at present for the furnishing these Gentlemen, thô Our General Court have intrusted Mr Lidius with this Affair, & have undertaken to supply him with a Consider-

able Sum for this Service, & he has made his Draught for the Payment, which will be done, but the Parties of Indians came so fast upon him & Mr Johnson to be fitted out for this Service, that what they will receive at present from this Governmt will be a very inconsiderable part of what they are under Engagements for, & the Gentlemen seem to apprehend that there is great Danger of their being ruined & the common Cause suffer the greatest Damage that we can conceive of, unless they be releived from these Governmts. And as your Government have all along distinguished themselves in the Service against the Enemy, & have actually joined with us in several of our late Treaties with the Six Nations; I can have no Doubt but your General Court will, in this critical Conjunction, readily make such Supplies for the Encouragement of the Indians of the six Nations for prosecuting this War, & for keeping these Gentlemen in heart till an Agreem<sup>t</sup> may be made between the Governments to apportion the Charge that has arisen or may arise in this important Affair among themselves. And I shall lay this Matter before our General Court at their first Meeting, & doubt not but that they will chearfully fall into all the Measures necessary for promoting this important Interest, & think it adviseable that your Governmt should send to all the other neighbouring Government to join in this Business, which I shall do likewise. You will please to lay these Matters before your Assembly as soon as possible & let Col<sup>o</sup> Stoddard know their Resolutions on this Affair.

Yours of the 2<sup>nd</sup> Instant, In compliance with what I wrote you, was laid before our Assembly, the last Week but there hath been no Resolve made upon it. The Gent<sup>n</sup> think it not safe to make any Order concerning the Levies of this Colony Intended for the Expedition against Canada; not knowing how soon we may have Orders from his Majesty concerning them; and the raising of Others for that particular Service, seems very difficult, Especially Considering the Dependence had upon us In the Massachusetts, to help on any Emergency In the County of Hampshire.

I am likewise to Inform your Excellency, that by an Express from Gov<sup>r</sup> Shirley, a Motion is made to Our General Court, for Making Some Supplies for the Encouragem<sup>t</sup> of the Indians of the Six Nations for prosecuting this Warr; Representing the Indians of the Six Nations generally Spirited to go to Warr against the French of Canada, & that diverse parties are now Out, and Others daily Offering themselves, and that Col<sup>o</sup> Johnson & M<sup>r</sup> Lidius have been very Serviceable In bringing about this Event, and that the Province of the Massachusetts have Intrusted M<sup>r</sup> Lidius in the Affair, & have Undertaken to Supply him with a Considerable Sum<sup>̄</sup>, to Encourage & fitt out the Indians for this Service; but the Parties of Indians Came so fast upon him & Col<sup>o</sup> Johnson, to be fitt<sup>d</sup> out, that What they will receive at present from that Government will be but a very Inconsiderable part of What they are under Engagem<sup>ts</sup> for; and that Some Speedy Supply is Necessary, and therefore Moved for to this Government, that these Gentle<sup>n</sup> may be Enabled to fulfill their Engagem<sup>ts</sup> to the Indians, and so the Com<sup>o</sup>n Cause Secured. S<sup>r</sup>

It gives me the greatest pleasure that you & the Neighbouring Colonies are now sensible of the good effects of my Treaty with the six United & other Indian Nations last Summer & of the constant endeavours I have since that used to make the best use of the good disposition they were at that time brought into. This has been attended with a very grate expence to the Crown, not only at that Treaty but likewise Since in fitting out the Several Partys w<sup>ch</sup> have been sent out & in rewarding them on several occasions for their loss of Hunting & for particular Services, as well as

for the Pay of the Officers w<sup>ch</sup> I have since that time continually employed among them, this charge has since I left Albany amounted to at least five Thousand pounds this Currency. It must therefore be very agreeable to His Majesty that your Colony give a suitable assistance in this Service w<sup>ch</sup> contributes so much to the safety of all the Brittish Colonies in North America & no doubt His Majesty expects it of you; You may send such persons as you shall think proper to see any money or goods distributed by Colo<sup>d</sup> Johnson who has my Commission to manage the Affairs of the Indians so far as relates to the War, & in what manner that money shall be destined by you to encourage the Indians in Prosecution of the War You seem sensible of that Gentlemans services in this most fatigueing as well as dangerous employment & w<sup>ch</sup> requires great courage as well as fidelity & address & therefore I hope among other things you will consider his services & place that confidence in him w<sup>ch</sup> he deserves.

But after all our Indeavours for encourageing the Indians in this manner I am apprehensive that unless we join with them at least in some notable enterprise against the Enemy their Spirit & Zeal will flag & they may intertain a Jealousy that we design to make them the Cats paw & it will be much easier to guard against this Jealousy than to remove it after it has risen. However as in my Opinion no particular Scheme can be entered into till His Majestys pleasure be known with respect to the use he intends to put the Forces which were levied for the Expedition against Canada.

I shall keep the Assembly of this Province by short adjournments in readiness to meet on any Emergency, & in the mean time you may have your thoughts to make proposals according to what ever Orders may come from His Majesty & you may be assured that I will heartily concur in every thing that tends to His Majestys Service.

I am in great hast

Sir Your very humble Servant

S<sup>r</sup> I have the Honour of Acquainting you that Since the foregoing Copy of my last the Lords Commiss<sup>rs</sup> of Trade & Secretary at War have in Pursuance of an order from his Majesty in Councill Examind the Acc<sup>ts</sup> of the Colonys Disbursem<sup>ts</sup> in the Expedition against Cape Breton & have reported thereupon that for want of Suffieient Vouchers, they have not been able to Liquidate the same, which report being by no Means Satisfactory to his Majesty, he has thought proper to refer the said Acc<sup>ts</sup> to the Lords of Treasury, who we hope will think the Sanction of the Legislature of Connecticut an Authentick proof of the Equitableness of our Demand & that we shall be able to get it included in the Estimate of the Expences of the Gov<sup>t</sup> for the next Year & have no reason to Expect any thing better will be done for us after a years unwearied Application. However these Expectations need not prevent the Colonys transmitting any Vouchers they can without to much Difficuly & Expence be able to procure, altho I hope there is reason to believe there may be no Occasion for them

I have not been wanting in my Pressing Application to the Ministry in behalf of the Forces rais'd by the Colony for the Expedition against Canada & am sorry to Acquaint your Honour there is as little hopes of their being paid any money from hence this Year, & as I understand those troops are, or are to be Discharg'd, all that can be done at Present is to have Strongly Attested Acc<sup>ts</sup> particularly specifying

the time of their Service settled to the time of their Discharge under the Sanction of the Gener<sup>l</sup> Court setting forth their being rais'd by their order in pursuance of a Letter from his Grace the Duke of New Castle signifying his Majestys Pleasure that they should be put upon his pay & those Acco<sup>ts</sup> sent over in order to an Application for the Money next Sessions the Demands on the Governm<sup>t</sup> this Year prior to ours being already Greater than the Supplys voted by Parliam<sup>t</sup> are Sufficient to Discharge

#### DUKE OF NEWCASTLE TO WILLIAM SHIRLEY.

Extracts of a Letter from His Grace the Duke of Newcastle to Governour Shirley. Dat Whitehall May 30<sup>th</sup> 1747.

His Majesty has been pleas'd to direct me to Signify to You His Pleasure that you shou'd Immediately appoint a Meeting with Commodore Knowles at such place as shall be agreed upon and Consider with him the present State of Nova Scotia and Louisbourg, and take the proper Measures for the defence of those Places.

It is His Majestys Pleasure You should endeavour to Compleat, from out of the Americans which are now rais'd for His Majestys Service, Sir William Pepperells Regim<sup>t</sup> and Your own.

Lieut<sup>t</sup> General Phillipps Regim<sup>t</sup> is I am afraid very Weak I will however send him His Majestys Orders to send what Recruits can be got from hence, And You will also endeavour to have His Regim<sup>t</sup> Compleated out of the Americans.

As it is His Majestys Intention that the Americans shou'd be Immediately discharg'd except only such few as

are Mention'd above the manner of discharging them the Satisfaction for their Time &c<sup>a</sup> must be left to Commodore Knowles and Yourself The King however is persuaded You will do it as cheap as possible.

And as these American Troops have done little or no Service hitherto It is to be hoped they will not expect to be paid in the Manner they would have been had they Actually been employ'd on Service: And as it seems highly reasonable that such of these Troops as have remain'd in the Provinces when they were Inlisted shou'd be Contented with less Pay than such of them as may have March'd into other Provinces.

When You and Mr Knowles shall have met and fully Considered the Service to be undertaken in the manner above directed and shall have agreed what Number of Americans it will be Necessary to keep in Pay for that Purpose it is His Majestys Pleasure that You shou'd procure an Account of the whole Expence Incurred on Account of the American Troops from the Time of their being Levied to the time of their Discharge and when the same shall be fully Adjusted and Liquidated You will Transmit it to me with the proper Vouchers from the several Governours that it may be laid before Parliamt to the end that Provision may be made for the Payment And in the mean time in order to prevent any Complaint amongst the Men that have been Inlisted (as well those that shall be discharg'd as those that shall Continue in Service) for want of Immediate Pay You will recommend it to the Governours of the Provinces where these Levies have been made to procure Credit from the Respective Assemblies for that Purpose which His Majesty hopes may be done without Difficulty

It is also His Majestys Pleasure that Mr Knowles and You shou'd Consider what Number of Americans will be really wanted for the Service above mention'd and the King wou'd have You retain so many as may be absolutely Necessary for that Service and no more and the King hopes that a small Number of the Americans with His Majestys Forces which You have may be Sufficient for that Purpose as the

Expençe of those Americans is very great and as to the Americans in General except only such as may be wanted for the Service above mention'd It is His Majestys Pleasure that You in Conjunction with Commodore Knowles shoud thank them in such Manner as You think proper and Immediately discharge them upon the best and Cheapest Foot You Can and in Order thereto You will Consult with the respective Gov<sup>ts</sup> upon the manner of doing it and You will Transmit to His Majesty an Immediate Account of what You shall do therein

*Sir,*

I wrote to your Honour the 15<sup>th</sup> of May last to inform you of the State of Affairs in relation to the Six Nations & the general Inclination among them to prosecute the War against our common Enemy, & thereupon to desire that your Government would encourage this Spirit in those Indians by making such Supplies for fitting them out & rewarding their Services as may be necessary for that End. Since the Date of my Letter Our General Court are met, & having taken the same Matter under Consideration, have Voted One Thousand Pounds New Tenor to be put into the Hands of Col<sup>o</sup> Stoddard to be employed in this Service, which together with £750 before remitted to him in Goods by Order of the Govern<sup>t</sup> being added to the many Presents which this Govern<sup>t</sup> have made to those Indians, since the beginning of the War, may justly be esteemed so large a Proportion of the Charge necessary in the most effectual manner to encourage the six Nations, to prosecute this War, that if the other Governments in North America, would grant proportionable Sums for the same Service, It is highly probable that the Success of these Attempts would more than Answer our Expence, it being the most likely way to weaken & distress the French at present, & to make Way for the Reduction of Canada, when ever it may be attempted.

This I write to your Honour at the Request of our General Assembly (who are much concerned to have this Affair Succeed) as well as from my own earnest Desire to promote an Affair which I think His Majesty's Interests &

the Safety of his good Subjects in these Colonies is so deeply concerned; And therefore I must pray y<sup>r</sup> Honour to lay this Matter before your Assembly & use your Influence for bringing them in to join with us in promoting this Service

At the Desire of Our General Assembly, I send your Honour by Express the Advices, I have just now received, of a great Body of French and Indians assembled at Crown Point, & from thence on their March towards Our Frontiers, or the Frontiers of the Province of New York, or both; (as we must necessary conclude) and as We have the utmost reason to expect an Attack from the Enemy every Moment, I must desire your Honour, forthwith to send a good Body of Forces out of your Government, for the Protection of Our Western Frontiers, with orders to your Commanding Officer to act with the Utmost Care & Diligence in this Affair, & to follow such Directions as he shall receive from Col<sup>o</sup> John Stoddard, or in his Absence from Brigadier Dwight for his proceedings herein. It is thought adviseable that a great Part of your Soldiers be sent to Stockbridge & the Places in that neighbourhood which will be much exposed to the Enemy. If your men can carry a good Quantity of Provisions without much Delay, it will expedite their March, & there will be danger of your not finding sufficient Provisions there, & they may depend upon this Government's

paying them for it.

According to Orders I sent a party of 14 Indians against the Enemy. One of the said Party meeting with a Mischance got lame, with whom four others returned, so that but nine proceeded & came as far as Crown Point where they lay in wait two days for an Opportunity to try to make an attack. They espied in the Lake a large body of Canoes & Battoes of about or near three hundred 8, 10 & 12 men in each. Seeing them in a Body appeared as an Island in the Lake when they came near Crown Point Fort, they were Saluted with 12 great Guns which was returned by their small Arms. Those Indians thinking this a matter of great importance found good speedily to return, in order to give us intelligence of that large Body coming as they think against some of the Frontiers. S<sup>r</sup> taking this to be a matter of such Importance incumbent on me to give your Honour information I have as speedily as possible forwarded this by Express, this is the sixth day since they have seen the aforesaid Army arrive at Crown Point. I have also this day jointly with Col<sup>o</sup> Roberts sent Six of the same Indians and one white man in order to make a further discovery of their motions & if to your parts shall if possible give advice. WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON June 29<sup>th</sup> 1747

*Sir,*

This will inform your Honour that this Government taking into Consideration the great Danger which all his Majesty's Colonies in North America are in (as well as their own particular Danger) of being in Time destroyed by the French & Indians under their Influence, without a firm Union between themselves for their mutual Defence, & for weakening & destroying the Power of the Enemy, and more especially for driving the French from the Borders of the Province of New York & this Province have appointed Commissioners to meet in a Congress to be held at New York on the second day of September next, with such Commissioners as may be appointed by all his Majesty's Governments from New Hampshire to Virginia inclusively, then & there to treat & agree upon Measures for encouraging the Indians of the six Nations vigorously to prosecute their Incursions on the Enemy, as also to agree upon the Method & Proportion of raising Men & Money for carrying on the War both offensively, & defensively, and to project &

settle such Enterprizes & Plans of Operation as the Common Interest shall require

Your Honour will I doubt not duly consider the great Importance of this Matter & represent it in the strongest Light to your Assembly that they may see not only how deeply his Majesty's Interest in General is concerned, but that their own particular Safety will be soon much affected by the growing Power of the French, & more especially the Hazard there is, that they will bring the Six Nations into their Interest, in Case they are not forthwith most vigorously supported by the English; without which it will be but a very little while before the Southern as well as Northern Colonies, will be exposed to their Fury; And therefore I would earnestly recommend it to the several Governments separately to make Provision without Delay for the Encouragement of the Six Nations, 'till the Congress can be held; This Government having already advanced many large Sums of Money & still continuing to do more for this Service. Yours by Capt<sup>t</sup> Hall of the 27<sup>th</sup> Last I received Sent for my Com<sup>te</sup> that I might give Orders to the Commissaries and I rec<sup>d</sup> a Letter from Gov<sup>r</sup> Shirley a Copy whereof I Inclose to you and on Consideration thereof thôt it adviseable to deferr giving out those Orders 'till the coming of the Post from N<sup>w</sup> York when I might possibly be further advised of the present State of Affairs to the Northward, and Considering the Provision already made for encouraging the Indians, and the Care and Authority for protecting the Frontiers Lodg'd with the Com<sup>te</sup> being the speediest Remedy on any sudden Emergency and there having been provision made (with good caution) for a general Congress at N<sup>w</sup> York. We thôt it not likely to be of any real Service to be at the Charge and fatigue of an Assembly in so busy a Season, yet I would ask the Sentiments of you Gentlemen above whether the Provision above mention'd may not answer the Ends proposed as well & as fully as any thing which might further be done by an Assembly?

Not knowing how soon you may have special Occasion for Com<sup>missions</sup> I have added my Seal & sent them not thinking it safe to delay it for an Accidental Opportunity. I also Inclose to you an Extract of a Letter out of one of the N<sup>w</sup> York News Papers of this Week

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON July 6<sup>th</sup> 1747*Sir,*

Upon the Advices I have received this Day, by Express from Our Western Frontiers, of the great Appearance of the Enemy upon Hudson's River, & the Attack they are making upon the Fort at Sarahtogo, and the Danger I apprehend the Indians of the Six Nations are in, as well as all the English Colonies, in Case of the Enemy's Success, I have thought it necessary to give Brigadier Dwight Orders, that if the Forces on Hudson's River should want any Succours to drive the Enemy out of those Parts, & to defend the Six Nations, that he should go with such a Detachment, out of his Regiment, as might be spared without endangering our own Frontier; And I must earnestly recommend it to your Honour, to send such a Force out of your Government, as being joined with those of New York, & such as might be spared from Our Frontier, may, by the Blessing of God, give some notable Repulse to the Enemy, & hearten Our Friend Indians; for it is better encountering the Enemy at some Distance than in the Heart of Our own Country; This Affair must be proceeded upon without Delay; For if we should succeed herein, nothing will more effectually secure the Six Nations in Our Interests, But if the Enemy should succeed, there is the utmost Danger of our losing the Six Nations, w<sup>ch</sup> would be of the most fatal Consequence to Us.

I rec<sup>d</sup> yours of y<sup>e</sup> 6<sup>th</sup> Instant on y<sup>e</sup> 10<sup>th</sup> as also that of y<sup>e</sup> 29<sup>th</sup> of June on y<sup>e</sup> 3<sup>d</sup> Instant and remembering that the Assembly here had appointed Com<sup>rs</sup> for a Congress at the same place on y<sup>e</sup> same Acct and that y<sup>e</sup> Assembly had

ordered money for y<sup>e</sup> encouragement of y<sup>e</sup> Indians (as I hinted to you before) and appointed a Comtee of Warr at Hartford for y<sup>e</sup> Defence of our frontiers and your western ones I doubted of any adventagious addition to be made by an Assembly, however sent by an Express to the D. I rec<sup>d</sup> an Answer on y<sup>e</sup> 9<sup>th</sup> dated on y<sup>e</sup> 8<sup>th</sup> That nothing could be added by an Assembly in the Articles proposed and that provisions were sent and directed that what should not be used by our forces should be left with Mr Sheldon according as Coll<sup>l</sup> Stoddard had desired for the use of your Govt and that an Express was sent yesterday to call off our forces, done by Coll Stoddards Advice.

when you was here I Informed you that I had laid out the Six Hundred Pounds you wrote to me of, according to the best of my Power, and that the Goods were purchased with other Goods bought with Money Granted by our Government, which your Hou<sup>nr</sup> thought not worth while to distinguish by Parcels.

I have Inclosed a Copy of the Invoice Sent to Mr Lydius, with a Copy of my last Letter to him, wherein you will observe that I propose that the Goods be Employed agreeable to my Letter of June 1: wherein I directed those Gent<sup>mn</sup> to use the Goods in fitting out the Indians, and rewarding them for Scalps & Prisoners according as had been accustomed by the Government of New York. always taking an accompt of the Numbers of each Party sent on our account, with the Names of their Commanders, and transmitting these things to me w<sup>h</sup> first oppertunity, taking Care not to Exceed the Sum Granted.

This I thought a safe way, and would not lay the Government under a necessity of more Expence than they Pleased hereafter to be at.

I have given my Note for the Goods bought for Connecticut Government, and if you Please to send the Bills w<sup>h</sup> Mr Benj<sup>n</sup> Alvard his receipt shall Discharge you.

There will doubtless be the Charge of freight &c which I can't at Present particularly Inform you of.

you are Sencible that the usual Commissions are five w<sup>h</sup> cent.

my Express returned from Albany on Saturday last by whom Mr Lydius wrote largely. I perceive that 5 Senecas and one Dutch man left Hendrick (two or three days before their misfortune) and Went to Isle Pero near Montreal, and killed or took three Persons and burnt Several buildings, Hendrick landed on the same Island, but was obliged to lye Concealed two or 3 days then 26 determined to return and 12 designed to make tryal for an oppertunity near Montreal, and before they had been long parted, the 26 attempting to land on the Southern Shore the French and Caguawagas Called who is there, they answered Maquas and Albanians, then the Enemy fired on our People who lost Seven Blacks and 3 whites. Hendrick was within hearing, and they pretend to know and call by name several french Maquas, that were present and that such a man Said he had taken two another one &c they say a french man had taken two, who happened to kill their Master & Escaped.

Hendrick Complains greatly to Gov<sup>r</sup> Clinton of the negligence of the Several Governments in loosing divers opportunities to take Crown Point &c.

but I must break of, think the easiest way is to send my Letters that you may Peruse them before I send to Boston, and

BOSTON July 20. 1747

*Sir,*

It being represented to me, that there is great Necessity that a strong Scout should constantly pass between Sarah-toga & Hoosuck, which may prevent the French & Indians from making Incursions upon upon the exposed Places on the West Side of Connecticut River, especially those that ly most to the Southward, which are a Barrier to the Colony of Connecticut, I do at the desire of his Majesty's Council of this Province desire that your Honour would order a Party of one hundred Men to be sent from your Government, to be paid & subsisted at their Charge, to scout between the Fort at Sarah-toga and Massachusetts Fort & back, for a few Months in the Summer Season, or untill some Agreement be made at the proposed Congress upon these Matters, and that they may have Provisions & other things needful for their Refreshment lodged at those Forts; and the S<sup>d</sup> Scout may sometimes pass between Stockbridge & Hoosuck, which may also be of good Service. I have wrote pressingly to Governour Clinton recommending it also to him to order a Scout from his Province of the same Number of Men to do the same Duty by scouting between the two Forts abovemention'd. These two Parties of Men faithfully employed in this Service may be a sufficient Security for the Fronteer Towns between Connecticut River & Hudsons River; And as this Province is so grievously burthened & almost destroyed with the Expence of the War, & your Colony will hereafter feel all the ill Consequences of the Enemy's Acquisitions upon us especially on that Quarter, I doubt not but your Honour will see the Justice & good Policy of your Government's undertaking this Service, and use your Influence that the thing be effected & that without delay.

As I can see no reasonable Prospect of Security to the Western Frontier from the continual Inroachm<sup>ts</sup> and Devastations of the Enemy, without effecting the Reduction of the french Fort at Crown Point, I shall press it upon the

Assembly of this Province at their next Meeting the 12<sup>th</sup> of August in the strongest Terms to join forthwith in the most vigorous measures for making an effectual Attempt against it. This ought, nay it must be done at all Events, cost what it will, in order to drive the Enemy out of our Borders, to cover the Country against their present & future Incursions, and (which is a point that most nearly concerns the Honour, Justice, & more especially the Interests of the Colonies) to protect & support the Indians of the six Nations against the Hostilities & Resentment of the French, w<sup>ch</sup> they have provok'd by their faithfull Alliance to us, & taking Part in the War with us, depending in a particular manner upon our Promises to 'em to dispossess the Enemy of Crown Point. In the mean while I shall have it at heart to make all the Preparations for this necessary Enterprize that it is in my power to do before the Meeting of the Assembly, that this Province may be in as much readiness as may be, not only to join in it, but to promote & set it forward, & doubt not but your Honour will act the same Part in your Government, and concur with me in all prudent Measures to bring forward this Attempt in the most speedy & effectual manner.

*Sir,*

As it appears to me by the latest Advices, I have received from Albany as well as, from what is contained in the New York Prints that there is the utmost Danger of a total Defection of all the six Nations from us to the French Interest, unless we do speedily & vigoursly join with them

in prosecuting an Expedition against the French for dislodging them from Crown Point, as well as from the Fort they have built much nearer to the English settlements, I have issued a Proclamation for summoning every member of the General Court of this Province to Attend the consultation, that will be had on that affair upon the 12<sup>th</sup> of August next; and as the least loss of time will greatly hazard the success of this Enterprize, if we should engage in it, I must intreat your Honour to have the Assembly of your Province sitting at or before that time, & lay before them the Danger there is of all his majesty's Northern Colonies being soon depopulated & Swallowed up by the Enemy; unless we now join with the Six Nation without Delay in pursuing the War against the Enemy. and I must pray your Honour to give me early advices of the measures your Government shall take in this Affair.

I acknowledge the favour of yours of the 24<sup>th</sup> Instant on Lords day 2 of the Clock P M. I forthwith advisd upon it with the Council near me when it was observd that altho your Excellency sais it appears to you by Advices from Albany and N York papers that there is the uttmmost danger of a total Defection of the six Nations unless we speedily Joyn them to dislodge the ffrrench out of their forts &c, That you do not say what those Advices were nor from whom and the N Y paper only sais We have advice That some Dep: of the six Nations &c of which the other N Y papers are silent, and that without doubt had ye Circum-

stances required it Gov<sup>r</sup> Clinton would not have been silent, but would have apprized me of it as he did of the Mutinies and asked for help. That nothing was offered me to press the Assembly with, and it was feared That Dutch Men here were of the same Disposition with those in Europe who have appeared to regard nothing but their own private Interest till that was threatend and when they shall be sensible of it here we shall hear from them and could not therefore think it advisable for me to call an Assembly without further Information.

I remember the Council at N York were not for an Expedition against Crown Point on y<sup>e</sup> like Reasons with our Assembly (as Gov<sup>r</sup> Clinton signified to me) and till I understand they are disposed that way, our people will be afraid least they should be exposed by ill minded persons as the British forces &c were at Sluys and Hulst some people there shewing their Resentments (as 'tis reported) at what has been about and above Albany.

At your Motion our Northern Com<sup>tee</sup> have lately sent up 400 men into your Frontiers where y<sup>e</sup> people were more afraid of a famine than the Sword and by y<sup>e</sup> Advice of your Gentlemen were suddenly recalled

I should cheerfully fall into any Measures with your Excellency for the Defence of our Countrey or the Annoyance of our Enemies on any fair prospect, yet I am not disposed to act purely on an implicit faith and shall therefore always expect to be informed of y<sup>e</sup> grounds of every proceeding wherein I have Assent and Dissent that I may Act on a solid foundation and then (according to my Ability) I would ever keep pace with your Excellency and remain

*Sir,*

I send now to Inform your Honour that on the sixteenth Instant arrived here a Flag of Truce from Quebec with 171 English Prisoners belonging to this Province and divers other of His Majestys Colonies in North America, By which Ship I received a Letter from the Marquiss of Beauharnois Governour of Canada a Copy whereof I now inclose by perusing of which you will understand that I wrote to him a Letter dated the 18<sup>th</sup> of march last therein proposing a General Exchange of Prisoners without having a Regard to the inequality of Numbers on either side and that each Governour should bear the Charge of the Transportation of their own Prisoners, This I undertook (absolutely) only for my Self yet presuming that it would be acceptable to all the rest of the English Governours; and in Consequence of which the said Governour of Canada has now released all the English Prisoners with him except a few that were not in such Health as to allow them to be Transported without Danger & that the said Governour does fully Agree to my proposal, expecting that the other

Governours will also come into this Agreement desiring that I would let him know their Resolutions by the Return of this Flag of Truce which is limited to the term of fifteen days for his stay here which will Expire the last of this month; Therefore I must intreat your Honour to send me your answer upon these Points by this Express that I may forward it to the Governour of Canada agreable to his desire expressed to me in his Letter, and as there are now and may be hereafter English Prisoners belonging to Great Britain and others Places at a Distance from these Provinces brought in by the Flags of Truce, it will be expected that your Government will bear their part of this Charge so it may not be wholly thrown upon this, and I must further desire that you would appoint some agent here who may from time to time answer for the Charge of the English Prisoners of your Province that may be Released from Captivity in Pursuance of this agreement and brought in hither. and as there are now brought in this Flag of Truce Three Prisoners that you wou'd pleas'd to take such measures that in proportion to the Number aforesaid your Province may bear their part of the Charge of this Flag of Truce You will also send me your answer respecting the Governour of Canada's proposal as to the Purchasing Prisoners out of the Indians hands, I have likewise Enclos'd a Copy of the Agreement made for the Hire of this Flag of Truce which you will find to be 10,000 Livres

MARQUIS DE BEAUHARNOIS TO WILLIAM SHIRLEY.

QUEBEC July 26. 1747.

*Sir*

I receiv'd the Letter you did me the Honour to send me of May 18<sup>th</sup> & which was delivered me by the Sieur La Groix formerly a Prisoner of War at Boston but releas'd by you.

I must freely confess S<sup>r</sup> I expected to have receiv'd at least in the Spring of the last year an answer from you to the proposals made by me for the Exchange of the English Prisoners which I then had at Quebec for as many french Prisoners as I presum'd you had at Boston, I concluded afterwards that the Delay this met with from you could proceed from nothing but the circumstances of the times, this you are pleas'd to explain to me, and I am sensible S<sup>r</sup> as I ought to be, of all the obliging things you say on this Occasion, & which regard me personally

The Sieur la Groix by his services & good Qualities merited some Distinction from me, but I cannot but disapprove his having broke his Parole, as you assure me he had done, He can blame no body but himself that he was put under a more close confinement, I am not the less obliged to you for your goodness to him on my account, this particular he has not failed to inform me of. It is from you only S<sup>r</sup> that I have learnt most of the Facts relating to the French Prisoners carried into Boston since the War, and the Returns you made of them either to France or to Louisbourg before the taking of that Place. I must believe that upon the Advices you sent of it, our French men have serv'd to Exchange so many of the English, and that there is a just compensation made between the two Nations; you are not at all the less generous for this, and if I had an opportunity to let you know my sentiments I assure you you should not have Surpass'd me.

Before the Receipt of your last Letter I had propos'd to send to France the Prisoners belonging as well to Old as New England and which are here at my Disposal, as I saw no means nor could imagine any other way for their

Return to their own Country & Families, In the mean time I must observe to you that in the Autumn of the year 1745 I sent to France at their own Request about ten or twelve, and I had then hopes that the Spring following you would send to Quebec the Prisoners belonging to Canada, In consequence whereof I wrote to France, that those Prisoners might be sent to England without Ranson, I sent likewise the last year about the same number to Martineco to go from thence to the English Colonies & from thence to their own homes I understood this Spring that several of them had in Fact returned to their Families. You will easily judge from this Detail that it was not owing to me that the poor unhappy People whom I now send away were Released no sooner. Particular reasons relating to the Service of the King my master have not permitted me to allow them during their Abode here the Liberty of going abroad in the Country But in Lieu of this I caus'd particular care to be taken of them, The House they were put into contained a great Number of Rooms serving formerly for Soldiers Lodgings enclosed in a large Yard, where they might give themselves as much Exercise as they thought proper, This Building was Consumed by Fire the 7<sup>th</sup> of last may not without some suspicion of being set on Fire on purpose by some of the Prisoners. It is certain the circumstances of that accident gave Reason to conclude that all were not innocent of the Crime laid to their Charge, the thing was carried no farther But to avoid for the future the like inconveniences, & being also invited by the fineness of the season, I caus'd a convenient camp to be laid out for them of a sufficient extent where they have abode since that time I have to add that the Epidemical sickness which has prevailed among them, & which they brought among us from Louisbourg & which has likewise made some progress in the Colony would have made a greater Devastation without the Succours of all kinds which were abundantly furnished the Prisoners in the Hospital that I caus'd to be provided on Purpose, as soon as I was inform'd the sickness began to spread, nothing was spared that was necessary for the

health of all of them, happily the sickness appears to have intirely ceas'd.

You will permit not to discuss the motives you laid down for the foundation of a cartel to be settled between us for a general Exchange of Prisoners belonging to your Government and this I Subscribe to it & come into it with Pleasure, I speak only of the Prisoners belonging to your Government not knowing yet whether the Governours of the other Provinces, to whom you should write forthwith, will be of the same sentiments with you. In the mean time as you are pleas'd to observe to me that you do not doubt but they are so, I design to send you by the same Flag of Truce the greatest part of the Prisoners belonging to New York, Pensilvania & others that are here at my Disposal, & will hereafter take the most convenient measures with the Governours of those Provinces for the mutual benefit of both the Nations, I shall send with this Letter a List of the Prisoners which are to embark as soon as may be on board the Ship la Vierge de Grace fitted out by my order as a Flag of Truce, you will have also annexed a Copy of the agreement made with the Captain for their Passage to Boston, & they will be delivered to your order, I see <sup>Sr</sup> you consent to pay the Expence of this Transport for those only which belong to your Government, This is just, I likewise on my part will in the same manner pay for transporting the French Prisoners from Boston to this place and I suppose you will send me them by the same Flag of Truce if you have any.

The Governours of other Colonies will not fail of answering the Letters which you shall write them, I depend upon it you will be so good as to Favour me with their answers by the Return of the same Flag of Truce. These Gentlemen must be the better able to Judge of my good Intentions as I begin by sending back the Prisoners belonging to their respective Governments, In Confidence however that upon what you shall have wrote to them they will have sent you the Canada Prisoners to the Number of 35 or 40 which have been taken in different quarters of the Govern-

ment of Montreal in the 'year past by mix'd Partys of English, Dutch & Indians. Mons<sup>r</sup> de la Boularderie has informed me of all your Goodness to him, and that you released him without any Conditions, unhappily for this Officer he had not provided himself with a Certificate from you to Verify his being free I have the Honour to inform you by the way that this want of Precaution occasioned Mons<sup>r</sup> the Count de maurepas to look upon him as one that was released upon his Parole of Honour, and whatever assurances he gave that he was at Liberty to enter into the Service again he was refused till last Spring when he Obtained a Permission to Return to this Country where he is employed as a Capt<sup>n</sup> in the Kings Troops.

You will observe S<sup>r</sup> that in the Agreement made with the owner of the Ship la Vierge de Grace Art 6 & 7 there are no more than 15 days allowed him for his Stay at Boston, I pray you not to detain him a longer time tho there should remain after that some French Prisoners scattered about in your Province, who could not be got in by you, otherwise Capt<sup>n</sup> Larreguy may be in Danger of not returning to Quebec this year, where he has a freight engaged & a Penalty Stipulated of 20 m<sup>ll</sup>. The 16<sup>th</sup> of this month I receiv'd a Letter from M<sup>r</sup> Knowles dated at Annapolis Royal May 27 O. S. in which he proposes to me to send to him by a Flag of Truce not only several Soldiers taken Prisoners at the Island of St Johns but likewise such other Prisoners as I shall judge proper at the Charge of a Ransom, or else to settle a mutual Exchange of Prisoners. In Consequence of this I am fitting out another Flag of Truce to send to him the said Soldiers & the Crews of some Vessells taken last year by our Ships, to the Number of 80 Persons.

The Distribution of all these Prisoners in the two Flags of Truce shall be such S<sup>r</sup> as I shall think the most Convenient both for you & M<sup>r</sup> Knowles as well as for the Prisoners themselves.

I have been informed lately that it has been insinuated to the People of Boston that the Prisoners have been very ill treated here I can Assure you that nothing has been

wanting that was necessary for them, and there was a particular Regard had to those who were in any Degree of Office, But in the Number of both the one and the other there were several turbulent Spirits that the most kind treatment could never Content.

I wish it were in my Power intirely to eradicate from the hearts of the Indians that Barbarity which seems to be innate to the most of them, and to arrive at this I have, when they have come to ask my Leave to go to War, given them as far as I could Officers that were Canadeans, whom I ordered to Protect the Prisoners against all Kinds of Insult, I have done more touch'd with the unhappiness of those who have fallen into the hands of the Indians I have bought several of them at the Charge of the King, as many as I could get out of their hands, but I could not Conquer the Obstinacy of some of them to keep their Prisoners, you know how greedy they are of having men either to make them their Slaves or to increase their Families by them into which they adopt them.

So soon as there is Peace (which all of us ought to desire) I shant be wanting to facilitate the Negotiations which shall be entered into to engage the Indians to deliver them all up. The Knowledge you have of all that Past of this Nature in the Antient Warrs presents you a Picture very different from every thing that has happened hitherto in this. And I depend upon your doing me the Justice of having at least considerably lessened those Acts of Inhumanity, If I have not been able to abolish them entirely, But I cannot conceal from you that the Price set in several Governments of N, England of 5<sup>l</sup> upon a Scalp & 20<sup>l</sup> for a Prisoner, as I have seen it in some English Letters that have fallen into my hands is an evident Proof that every Body does not in this affair think in such a Christianlike manner as you do. And I hope your advice will Prevail to abolish in those Governments such Dispositions as all Christian Princes and their Subjects ought as you observe to have in Obhorence

It cant appear to me to be just that the King should be at the Expence of what has been laid out by his majesty, as well at Quebec as at montreal and elsewhere to recover the Prisoners that were fallen into the hands of the Indians, I have not been able yet to Collect all these Charges I will do it out of hand. Be so good as to let me know your Intentions thereupon, & whether you understand the Governmt of N England will come into it. I should think it equally necessary for the good of y<sup>e</sup> Subjects of both Crowns, It will be a Service to me to be informed of your Sentiments & of those of the Governours of the other Provinces upon this Article, to the End that knowing what I may depend upon, I may from thence Regulate my own Conduct.

I am with all Possible Respect S<sup>r</sup>

Your most humble and  
most Obed<sup>t</sup> Servant

On the 23<sup>d</sup> Instant by an Express I rec<sup>d</sup> your Paquett. Yesterday att N Haven I calld the Council and laid before them the several Articles you proposd and they readily consented That I should draw an Order on the Treasurer for money to answer y<sup>e</sup> Charge of transporting the three Prisoners belonging to this Colony, so soon as you shall inform me of the Su<sup>m</sup> it amounts to in our Currency. thô they think it might save trouble to discount the money due to us for the Provisions We have at your desire, furnisht you with in your Western Frontiers

As also for Reimbursing the Gov<sup>r</sup> of Canada, in ransoming any Prisoners belonging to us which may fall into the hands of the Indians or that now are in Captivity with them, thô we know not of any one person that is so

Likewise they chearfully complyd with the Marquis in the Article relating to the releasing Prisoners without Ransome or Regard to number of persons and each ones bearing y<sup>e</sup> charge of their own people's Transportation.

But as to our bearing any part of the Charge of transporting any belonging to the other Countreys or places and appointing an Agent att Boston, they would referr to the Consideration of the Assembly those two Articles not being delegated to me & the Council by y<sup>e</sup> Act of the Assembly

As for the giving Premiums for humane Scalps or any other Creatures not equally mischievous to a Wolf I must look upon to be unchristian, inhumane and barbarous with as great an Odium and Abhorrence as the good Marquis or any other Gentleman dos or can doe

After I was Informed That the Commissioners, from the Massachusetts, were on their Journey to New York, to meet with Commiss<sup>rs</sup> from the other Govern<sup>ts</sup> to Treat about Measures for Carrying on the present Warr, it lay on my mind with Some concern least the Commissioners, appointed by the General Assembly in this Colony would meet with blame if they did not upon notice of it proceed on the Same Design agreeable to their appointment, & at length it appeared That the matter did very much affect the minds of most persons of Consequence this way, & many of them Signified to me in writing, their Ernest desires that the Commiss<sup>rs</sup> would as Soon as possible proceed on their way to New York; Upon This I advised with all the Gentlemen of the Councell in Town, (There being Seven present) about the affair, and it was the prevailing opinion That The Commss<sup>rs</sup> or Two of them at least Should go forward & Joyn the other Commiss<sup>rs</sup> at N York & that a neglect Thereof might probably be Detrimentall to the Publick Interest & occasion matter of very great Uneasiness among the people, & that I Should advise Your Honour hereof & That a proper Commiss<sup>n</sup> (if Your Hon<sup>r</sup> please) be

Not long Since I wrote Col. Allen A Salutation, Including a letter directed to Col. Allen Jun<sup>r</sup>, meaning the Col. Eldest Son Supposing him to be the fellow chainman with M<sup>r</sup> Rust of Northampton at the Survey of my 10,000 Acres of Equivalent lands made by Col. Allen Gen<sup>l</sup> Woolcot & Maj<sup>r</sup> Pomroy at Swift river in April 1716. And desiring him to procure the Same Compass & Chain by which that first Survey was made, Advise me of the day he would meet me there to resurvey it a month before hand; that I might get the Same M<sup>r</sup> Rust & Capt William Chandler of Thompson Parish to Join with him in that Survey. I Inclosed with these letters a Copy of my Original Survey, & a Survey lately made thereof by Col. Tim<sup>o</sup> Dwight & his brother Nath<sup>l</sup> with my Observations thereon. I have had no Answer nor can learn whether they ever came to hand

which gives me Some Concern, Considering they Seem to be all dead & I can have no Intelligence nor letters from your parts.

I beg the favour of you to see Col. Allen, know if he rec<sup>d</sup> my letters, that Sons name, if I can have that Compass & Chain, if the Col. hath any minutes of that Survey, what allowance he usually made & then made in that Survey; (which I Suppose was one rod in twenty as the difference between rough measure in the rough woods & plain Just measure). Know what will be agreeable Satisfaction by the day to that Son of y<sup>e</sup> Col's who was the former Chainman to bring that Compass & Chain & his fathers Instructions to meet me with those other men I intended, And assist them to run my lines Exactly upon his Oath as near as possible to the Original Survey; or if any other of the Col. Sons useth his Compass & may therefore be Supposed with his fathers & brothers instructions to do it better let him be the man. Cap<sup>t</sup> William Chandler is a most noted surveyor among us, I will have him & his instruments also, both Instruments shall be used to observe their difference, but the Col's shall be followed & all shall be put in the best trim & good Order, I would have the Same Chainmen Carry the Chain as did before, the more Certainly to find the ancient bound marks if possible or come the Nearest to the places where they were. & my reasons are several, one viz that the Dwights made one line  $86\frac{1}{2}$  rod long in my presence as(?) the way up Swift river hill with Several Steep & long descents besides logs & rocks in the way, the chainmen putting their hands to the ground at the putting down & taking up of every rod, that was their measure, & W<sup>m</sup> Blogget of Brimfield before that had measured that line & told me it was but 80 rod. Now let Mr Allen Set me his day with time enough to provide the other two & I will meet him. pray do me this kindness & Command me all my life after

## REPORT OF COMMISSIONERS.

At a meeting of the Commissioners of the Several Governments of the Massachusetts Bay Newyork and Connecticut, at the City of New York, in order to concert and Agree upon some general Measures for carrying on the war against the common Enemy and for the Mutual defence and Security of his Majestys British Provinces and Colonys on y<sup>e</sup> Continent in North America, it is Judged after Mature consideration had of the present distressing circumstances of these three Colonys and thereupon the said Commissioners agree to Report to their Respective Constituants that they Unanimously are of opinion —

1 That an Expedition be formed and carryed on against y<sup>e</sup> French Fort at Crown Point for the Reduction of that Fortress.

2 That it will be necessary that four thousand men (officers included) be raised (with as many of y<sup>e</sup> Six Nations of Indians and their allies as can be Obtained) to carry on the Said Expedition, and that it will be Necessary those troops be at Albany by the fifteenth of April Next Ready to March for the aforesaid purpose.

3 That as the Engaging the six Nations and their Allies in this and other Services against the Common Enemy, is of great importance to the British Governments, it is Judged Necessary that such of y<sup>e</sup> Indians as shall Engage in the said Expedition and go into the Service be Equipt Each with necessarys to y<sup>e</sup> value of five pounds New York currancy, and be assured of a present of y<sup>e</sup> like value on their Return in case of Success.

4 That as a further means of Securing and Engaging the said Indians in the Service of the English and to prevent their being Seduced to Revolt to y<sup>e</sup> French, it is agreed that it be proposed to Each of y<sup>e</sup> said Governments that a Gunsmith be Sent to Each of y<sup>e</sup> Tribes following viz: the Oniades, Onandagas, Cayugas, and Senecas, and two men with Each Gunsmith to continue with them untill the Next Spring and that y<sup>e</sup> said persons be instructed to be as oblidging as may be to y<sup>e</sup> Indians with whom they live and

5 That (besides what Governour Clinton has Assured the Commissioners Shall be Supplied gratis of ye battoes cannon and warlike Stores and implements in the Province of Newyork provided at his Majestys Expence) the General and common Expence Necessary for Engaging and Rewarding the Indians paying the officers of ye Train of artillry and for ye Common Store of Shot gun powder and other Military preparations Necessary for ye common Service be provided by and at the Charge of ye Governments Engaging in this Service and that the proportions and Quota's of the Governments for these Services as well as ye keeping and Supporting the Garrison (if Reduced) until his Majesty's pleasure be known be as above mentioned & that whatsoever part or proportion either of men or money any other Governments Shall undertake to bear and furnish Shall lessen the parts of these three Govern-

ments according to the aforesaid proportion and that y<sup>e</sup> Legislatures of Each Government Engaging in this Enterprize Raise Equip provide for Subsist and pay their own troops as also appoint Commissarys to take care of their own Stores. Saving that the Government of Newyork be not oblidge to raise above twelve hundred men the Massachusetts Commissioners agreeing to propose to their Constituants to Raise four hundred men to compleat y<sup>e</sup> proportion of Newyork the officers to be Commissioned by y<sup>e</sup> Governour of y<sup>e</sup> Said Government undertaking to provide the Same and both officers and Souldiers of Said four hundred men to Receive y<sup>e</sup> Same bounty wages Subsistance and Every other thing from y<sup>e</sup> Government of Newyork which Shall be given or paid by Said Government of Newyork to a like proportion of the twelve hundred men they Shall raise for said Expedition.

That Each Government appoint a Committee of one or more persons to Meet at Middletown in Connecticut on the Eleventh day of December Next or as Soon after as may be in order to Determine and ascertain the particulars Necessary to be provided at y<sup>e</sup> Common Charge of y<sup>e</sup> Governments and also to agree what particular Sorts or Species of y<sup>e</sup> Said particulars Each Government Shall undertake to provide having Regard to Said proportion.

8 That y<sup>e</sup> Commissioners here present having made Report to their Respective Constituants of what measures are hereby agreed upon the Governours of y<sup>e</sup> Massachusetts bay Newyork and Connecticut be Desired by y<sup>e</sup> Respective Assemblys of these Governments to apply to y<sup>e</sup> Governours of the Several other Provinces and Colonys from Virginia to New Hampshire inclusive to recommend it to their Several assemblys fully to Joyn according and in proportion to their ability in this common undertaking against his Majestys Enemys and to unite with these

Governments in the Mutual Defence and Security of his Majestys Colonys on the Continent in North America; and particularly Desiring them to Send their committee to Meet at Middletown afores<sup>d</sup> to Engage in this undertaking and to agree upon what part they Respectively will provide of Men Money and Common Stores necessary for the Engaging and Encouraging the Indians and for y<sup>e</sup> Carrying on y<sup>e</sup> Said Expedition also Requesting as Speedy an Answer as may be to y<sup>e</sup> Governours of these Governments Respectively of what their Several Governments will undertake in this important Enterprize.

10 That in case the other Governments who have not Sent their Commissioners to this meeting to Concert measures for y<sup>e</sup> common good of his Majestys Subjects Shall after application made to them as before proposed and Notice of these conclusions and approbation thereof by these Governments Shall neglect or refuse to Joyn them in these important affairs for y<sup>e</sup> mutual defence and Security of his Majestys Subjects and interest that then application be made as aforesaid for y<sup>e</sup> Royal injunctions to be laid on y<sup>e</sup> several deficient Governments to furnish and provide their proportion and Quotas of Men & Money necessary for

ye future general defence and Security of his Majestys Colonys and for ye Carrying on any proper Scheem for ye Annoyance of ye common Enemy.

11 That in case the proposed Expedition against Crown Point only go forward and no Ships of war are Sent by his Majesty to go up the River St Lawrance for ye purpose aforesaid then a Diversion be made up said River with what vessels can be obtained from the several Governments at ye charge of ye said Governments and in conjunction with such of his Majestys Ships of war as can be procured at Lewisburgh or elsewhere and that a diversion by land be made by the direction and under the conduct of ye general officers by such of ye forces of Christians and Indians as Shall by said officers on proper encouragement be Sent out for yt purpose.

12 That the vessels goods Stores and other things sent or that shall go thrô any part of the Government of Newyork for the forces imployed in the aforementioned and proposed Service or in garrisoning the said Fortress be free and exempt from all toll tribute custom and duty that is or might be imposed on Such Materials by virtue of any act of ye Government of Newyork.

13 That if it Shall happen that the proposed Expeditions Shall neither of them be carryed on the Next year or if by reason of any other Events it shall be found Necessary for the defence of his Majestys Subjects and annoying the Enemy to Send out and Maintain Scouts or Rangers that then the Governments of ye Massachusetts bay Newyork and Connecticut send out on proper encouragement such a number of men respectively as they Shall Judge a proportion for them in order to defend the borders of the Exposed Settlements and to annoy and distress the French and Enemy Indians in their Settlements, and in this Service to Joyn with such of ye Six Nations of Indians and their allies as will go on that design. and that ye other Governments of New Jersey Pensilvania Mary Land Virginia New Hampshire and Rhoad Island be applied to, to furnish provide and bear their proportion in men Money or other Necessarys for the

encouragement and Support of Such Scouts or Rangers and that Each Government providing and sending out such Scouts or Rangers Receive the benefit of such money or other necessarys as Shall be afforded by the other Governments not sending men, in proportion to the number of men they shall Respectively employ in said Service.

14 That in case any attack or invasion Shall be made by the Enemy on any one or more of his Majestys Governments and application be made to any other Government for assistance that ye Same be Speedily afforded according to the necessity and Circumstances of the case; the Subsistence only being provided by and at the Charge of the Government Requesting and receiving Such Succors. And if either of the Governments receive any intelligence of an Enemy approaching either by Sea or Land who may indanger any one or more of the other Governments that they give them the earliest Notice possible thereof by Express.

15 That the Legislatures of these three Colonys be Desired to Determine upon this agreement with all the dispatch possible and when done that each Government do signify the same to the others as soon as may be.

16 The Large numbers of men and great charges consequent thereupon as above have been come into by the Commissioners, by reason of the Distressing Circumstances of these Governments, Notwithstanding the full perswasion of the Commissioners that these burdens must be beyond the ability of said Governments if continued, they being almost constantly harrassed by invasions or incursions in their borders from the French and their Indians for Near five hundred miles an End and many of their Settlements already broken up and destroyed and divers others in the most imminent danger the case being Such that if these Governments do not lay these heavy burdens on themselves (under which, if they are not relieved, they must Sink) they must be much Sooner destroyed by their inhuman Enemys abovesaid who are exceedingly Supported Spirited and advantaged by the abovesaid Crown Point Fort. The

Commissioners being Sensible that it is as truly unreasonable and Destructive to these Governments to Supply all the men and Money Necessary to defend his Majestys Subjects and interest in North america as it would be for a Small part of y<sup>e</sup> Nation to be at y<sup>e</sup> Expence of Defending the whole There being diverse more wealthy and populous Governments than we are who have been and are defended by us and therefore in all reason ought to bear their proportion of the common defence both with men and Money.

17 The above articles we agree to recommend to and in all proper ways to Endeavour they may be ratified by the Governments to which we respectively belong none of which Shall be obligatory on any of the three Governments but Such as Shall be ratified by all. In Testimony whereof we have Signed triplicates of these presents at y<sup>e</sup> City of Newyork this twenty Eighth day of September in the twenty first year of the Reign of our Sovereign Lord George the Second of great Britain France and Ireland King &c, Annoque Domini, one thousand Seven hundred and fourty Seven

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON October 21. 1747

*Sir,*

At the request of the General Assembly of this Province, I must desire your Honour to assist us in the Defence of our Western Frontiers, by ordering fifty Men to be drawn out of the Militia of your Colony, or otherwise as you shall judge fit, to be posted at the Towns of Deerfield & Northfield for their Security; As your Governmt has always manifested a Readiness to help us in the Defence of that Frontier, which is a Barrier to Connecticut, I can make no doubt of your readiness to assist us in this Matter. I also desire that if you shall send the fifty Men for this Service, that you would direct the Commanding Officer to take his Orders from Col<sup>o</sup> Stoddard.

I Rec<sup>vd</sup> a Letter from Gov<sup>nr</sup> Shirley to Gov<sup>nr</sup> Law which I am directed to send to you by Express Our Gov<sup>nt</sup> proposeth the sending of fifty men from Conne<sup>ct</sup> for the Defence of Deerf<sup>ld</sup> and N<sup>th</sup>field and Orders me to write

to your Hon<sup>r</sup> about it. I can only say that I look on those two Towns more Exposed to be Attacked by the Enemy than all the Towns in New England, (Especially in the Winter Season) and our Government (as I apprehend) do unreasonably neglect them, and our Assembly have Ordered no men there, but do depend on Connects sending fifty men thither, which I can't think a number Sufficient. Our Prisoners returned from Canada Inform us that there was a large Army from Canada designed against one of those places at the time when the Smoaks were Seen, and that they came very near, but their Scouts Informed them that those parts were full of men which discouraged them so that they returned without attempting any thing. and I may ad that Connect has not been much burthened of late with the Charge of Defending the frontiers, and I can't but think you will readily comply with such a proposal, which may be a great Encouragement to the People in Case the men are put under good Officers, and be not drawn off before their places are Supplied. which may make the Remedy worse than the Disease.

Our Assembly have Ordered 30 men to fort Massachusetts, 30 to N<sup>o</sup> 4, 15 to each of the other Block Houses and some to Several other places which in the whole amount to one Hundred and fourty one, besides between 3 and 400 men in the Eastern Country.

on fryday was Sev' night Capt<sup>t</sup> Allexander with 15 men was coming from Aschuelot, and on the borders of Winchester, he (being a little before the rest) met a french man who he Shot in his brest, they led him a few rods in which he fell down divers times at length they left him dying as they and he supposed, his Indians came soon after and carry<sup>d</sup> him to a small distance and left him, but he recruited and Saturday last he came into Northfield, and 'tis thought probable that he may recover. on Wednesday last John Smeed (lately come out of Captivity) was killed by Millers River, and on Thursday Jonathan Sartle having Crossed the River from Mr Hinsdals fort, was (as is Supposed) taken by thirty or fourty of the Enemy who burnt Capt Bridg-

mans House and Barn at Cold Spring, which had for some time been Deserted.

\*The Resolve stated that these towns were within the limits of Connecticut, but by an agreement made in 1713 without their consent between boundary commissioners of the two colonies, they were placed under the jurisdiction of Massachusetts, and that their inhabitants now desired to come under the jurisdiction of Connecticut. Upon which Connecticut had appointed commissioners, and desired that Massachusetts do the same, "to hear the inhabitants of the said towns or plantations on the matter of their complaint, and report to the respective governments what they shall apprehend right to be done, that so this affair may be amicably settled, and justice may therein be done to his Majesties subjects."

## WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON October 29<sup>th</sup> 1747*Sir,*

Mr Knowles and I have receiv'd your Honour's Letter dated the 24<sup>th</sup> Instant, and as a very great Expence to the Crown is running on whilst the accounts of the Forces rais'd for the Expedition against Canada are preparing and adjusting we think it our indispensable duty to send every Governour concerned the inclos'd Discharge of 'em to be Published among the Levies in such manner as they shall think proper.

You will perceive by the Extract of the Duke of new-castles Letter which we inclos'd in our last that it is his majestys Pleasure the Levies should be Discharged in the most frugal manner, so that it is doubtless his Expectation that all such of them, as have not march'd out of the province or Colony where they were rais'd, shou'd be paid off at the Rate of the Ordinary Establishment for all his majesty's Regiments of Foot Viz<sup>t</sup> the private men at the rate of 6<sup>d</sup> Sterling  $\frac{1}{2}$  day, out of which a Stoppage must be made of 4<sup>d</sup> for their Provisions, so that there will remain to be paid in money to them, only 2<sup>d</sup> Sterling  $\frac{1}{2}$  day; the Corporals after the Rate of 8<sup>d</sup>  $\frac{1}{2}$  day, out of which a Stoppage of 4<sup>d</sup> for their Provisions, so that 4<sup>d</sup> Sterling  $\frac{1}{2}$  Day will remain to be paid in money to them; the Sergeants after the Rate of 1<sup>s</sup> Sterling  $\frac{1}{2}$  day, out of which a stoppage must be made of 4<sup>d</sup> for their Provisions, so that there will remain 8<sup>d</sup> Sterling  $\frac{1}{2}$  day to be paid to them; and this is agreeable to the Terms of their Enlistm<sup>t</sup> in which no more is promised than the usual pay of his majestys Troops Viz<sup>t</sup> 6<sup>d</sup> Sterling  $\frac{1}{2}$  day for a private man, 8<sup>d</sup> for a Corporal and 12<sup>d</sup> for a Sergeant; out of which they find themselves with Provisions, and where Provisions are found for them, as in the Case of Lieut General Phillips's Regiment posted in Nova Scotia and New foundland a Stoppage of 4<sup>d</sup> Sterling  $\frac{1}{2}$  day is made out of their Pay for it: And in this case it makes no difference with respect to the Soldiers, that Provisions have been generally found for 'em at the Charge

of the Colonies, where they were rais'd and not the Crown's; For that was not given them as the Bounty of the several Colonies, but was required by his majesty from those Colonies to be done in ease of the National Expence, and as what was their reasonable part of the Charges to be incurr'd by the late intended Expedition, set on foot chiefly for the immediate Benefit of the several Colonies concern'd in it: and considering these Troops have not march'd out of their respective Colonies, they have no Pretence to expect more than what was promis'd 'em by the Terms of their Inlistment and ought to be Satisfied with that.

As to the method of Paying off the men, when they are discharged it Appears to Mr Knowles and me that there are but two ways of doing it, either by procuring money or Credit from the respective Assemblies, which we are Comanded by his majesty to recommend, or else by borrowing money of the merchants upon Publick Bills payable when the Parliament shall make Provision for defreying the charges incurr'd on Accot of these Levies, which Bills Mr Knowles & I think should be sold for the highest Exchange, that can be got for the benefit of the men, but not at a lower rate than 700  $\text{P}$  Cent advance in Bills of the old tenor, or 800 $\text{L}$  of that Currency for 100 Sterlg; and if both these methods should fail then we can't see what more can possibly be done than to give the men Certificates of what is due to 'em at the time of their being Discharg'd with a promise of Paying 'em as soon as possible: but we hope there will be no necessity of having Recourse to this Expedient.

Mr Knowles being very much engaged in the business of his Squadron which detains him great part of his time at Nantasket has desired me to take upon my self the settling of the Terms for paying the men off; and as he is under Orders from the Lords of Admiralty to repair to Jamaica to take upon him the Command of his majestys Ships there and designs to Sail in about a Fortnight, we shall be glad to proceed as far as possible in the Execution of his majestys Orders Committed to our joint care, before he

goes and besides, if the Accounts are not transmitted home in time to be lay'd before Parliament this Session it may Occasion a Delay in raising the money for paying the Charges.

As to the returning of the Arms you have in your last Letter declared yourself to be of the same Opinion with Mr Knowles & my self, so I need say nothing more of that; And as to the Commission Officers Mr Knowles & I think they should have the full sterling pay which the Officers of His Majestys other Troops of their respective Ranks receive, Subject to the same Deductions with theirs.

The before written is a Copy of the Circular Letter which I have Sent to the Several other Governours concerned, which I thought it might be of Service to Communicate to your Honour; But I must now Acquaint you that with regard to the Soldiers & officers rais'd within your Colony Mr Knowles and I think your Government's dismissing 'em to their respective Homes till farther Orders sometime in the last Fall or beginning of Winter and their continuing so dismiss'd till this time, makes the Case of those Levies appear so different from that of the others, that we are at a Loss how to determine concerning 'em, & therefore desire you would be pleas'd to do it yourself; for we must decline it: But the Officers may depend, at least upon my Representation of their Case in the most Advantageous Light for them; which I believe Mr Knowles will Join with me in: and I hope they will not be distinguish'd from other Officers as to their Pay or other Advantages: for I am Sensible they were ready & desirous to Engage in every part of His Majesty's Service, if they had had an Opportunity for doing it: And I shall also be very glad if there is no difference made in the pay of the Men from what the Soldiers of the other Provinces receive, I mean particularly as to the time to which they will be paid; For there can be no possible Doubt of their Pay before the time of their Dismission.

I must Own I think when the three other Governments of New England in the last year, Sent part of the Kings

Troops rais'd within their respective Colonies for the Succour of His Majesty's Province of Nova Scotia and to drive the Enemy out of it; which would probably have been Effectuated, had your Honour thought fit to have sent a proportion of the Troops rais'd within your Government to have join'd the others I say, I think your denying to do it, & instead of it dismissing the whole Body of the Connecticut Levies is a very considerable Circumstance; And the Letter I received from you upon Occasion of the Surprize of the Massachusetts Levies by the Enemy at Menis, I cant help saying was so extraordinary an one in every respect, that I was at a loss to find a proper Answer to it, which was the reason I have been hitherto Silent about it; I shall only now say that had two hundred of the Kings Troops from your Government been at Menis that Misfortune would not have happen'd to the Massachusetts Forces; But as it was it is well known that their going thither drove the Enemy from Annapolis and afterwards from Menis & Confin'd 'em ever after to Schiegnecto & finally Occasion'd Mr de Ramsay's quitting the Province, and in Mr Mascarene's Opinion was probably the preservation of Accadie.

But tho I mention this Circumstance to you in this Letter, I have not the least Thoughts of doing it in any publick one, to the prejudice of the Officers or Levies of your Government, who I dare say would have most willingly gone upon that Duty if they had been permitted.

I am Sir,

Your Honours most Obedient

Humble Servant

MILFORD Nov<sup>br</sup> 2<sup>d</sup> 1747

S<sup>r</sup>

Yours of the 21<sup>st</sup> of the last month I receiv'd and according to your Desire, fifty men are ordered to be raisd

and sent to garrison att Dearfield and Northfield. The Assembly also have accepted, approv'd and ratifyd the Agreement of the Com<sup>rs</sup> att New York so farr as it relates to this Gov<sup>t</sup> Provided the Legislatures of the Massachusetts and New York do accept, approve and ratify the same. and Com<sup>rs</sup> are appointed to meet Com<sup>rs</sup> att Middleton in case others are sent according to the afores<sup>d</sup> Agreement.

On Wednesday last I receiv<sup>d</sup> your Excellencies above mentioned, and on the same day I rec<sup>d</sup> a Letter from Gov<sup>r</sup> Clinton and admired That neither of them mention'd one word of the Assemblie's Approbation of the s<sup>d</sup> Agreement, since one Article in it, was, That Notice thereof should be speedily given by each Gov<sup>r</sup> to the other.

I have also since rec<sup>d</sup> a Letter from our Agent of the 26<sup>th</sup> of August, with a Copy of a Petition to his Maj<sup>ty</sup> for money to pay the Canada Regiment, for the Officers Com<sup>ns</sup> and that the Regiment might be putt on a certain Establishment for the future &c, in which Letter he sais, he shall from time to time acquaint me with the Stepps that are taken in Consequence thereof.

And indeed it is to me mysterious That when he had presented such a Petition, he should not learn (after so long a time as the 30<sup>th</sup> of May) That proper orders had been taken about that Affair

I am with great Respect

S<sup>r</sup>

I was favourd with yours since our Assembly adjourn'd during the Session whereof I receiv'd a letter from y<sup>r</sup> Excellencies Gov<sup>r</sup> Shirley and Knowls w<sup>th</sup> Extracts of a Letter

from the Duke of New Castle to Mr Shirley Copies whereof I herewith transmitt to you Whereupon the Assembly directed me to send Coll<sup>l</sup> Williams with what they apprehended might be proper to lay before them, after which I rec<sup>d</sup> your above mentiond at which I was stumbled that when you had presented your Petition to his Maj<sup>ty</sup> should not have learnt after so long a time as from 30<sup>th</sup> of May to the 26<sup>th</sup> of August That that Affair was taken Care of, which made me in doubt whether it might not be only a private Letter seeing I had no Direction from his Grace to subject the whole matter to those Gentlemen neither directly nor by a circular Letter as had been usual, but only Extracts of some Paragraphs signed by them but more especially when I rec<sup>d</sup> Governour Shirley's Letter of October 24<sup>th</sup> with the Discharge of our new Levies, which Letter containd many discouraging Circumstances to which I now give answer and know not how to communicate the matter to you better than by sending Copies of them to you as also of the Muster Rolls and accounts of other Expences incurrd by meanes of the Canada Expedition That you might be advantaged to pursue your Petition or otherwayes obtain what is right in the Case. Whether Admiral Knowls will not be gone off before Coll<sup>l</sup> Williams can possibly reach Boston with the necessary preparations is doubtful and in Case he should be gone or be there and be so taken off by the Care of his Squadron that the Affair should be entirely under the Direction of Mr Shirley, its easy to see by his Letter how things are like to turn out with us, when our Assistance is wanted we are caressd but when that is over we are neglected as it was in asking for Reimbursements of the Cape Breton Expences. No people under the heaven can be better disposd to his Maj<sup>ties</sup> Service than ours yet if they alwayes come off by the Lee it will be discouraging. Indeed I alwayes said I chose to bear the Burthen if it would not break our backs but now our danger is great without Relief but the Massathussetts Gentlemen tell me theirs is certain. Com<sup>rs</sup> from Massathussetts, New York and Co<sup>n</sup>necticut have Agreed on Measures and pro-

portions for carrying on the Warr and our Legislature have approvd of it thô neither Massathusetts nor New York have yet done it and as for y<sup>e</sup> other Gov<sup>rs</sup> thô invited to the Congress sent no Co<sup>m</sup>missioners. We would be frugal but not parsemonious and if others are profligate and spend y<sup>r</sup> money for that which eventually turns out to no Advantage as in many Instances it has so done I would trust would not finally turn out to our Disadvantage

You will have sent you herewith Copies under the Seal of y<sup>e</sup> Gov<sup>t</sup> of y<sup>e</sup> Acts of our Assembly w<sup>ch</sup> sett forth the intended Canada Expedition with a List of the Officers appointed w<sup>ch</sup> I thôt to be the most evidencial of y<sup>e</sup> Regiments being raised pursuant to the declaration made of his Maj<sup>ties</sup> pleasure signifyd by his Grace y<sup>e</sup> D of N Castle a Copy w<sup>r</sup> of I herewith send you.

I had not been so much at a loss abt Extracts of Letters to Mr Shirley had I not heretofore observd when I had only an Extract of a passage in the D of New Castle's Leter to Mr Shirley That when L<sup>t</sup> Gen<sup>l</sup> St Clair shall arrive att Louisburgh it will be left with L<sup>t</sup> Gen<sup>l</sup> St Clair Mr Warren and you to alter y<sup>e</sup> Plann of Operation as shall be thôt most advisable that he took it for a sufficient authority for two of them to do it thô the Order never came.

I also have desired the Coll<sup>l</sup> to take this Opportunity to procure of Sr W<sup>m</sup> Pepperil a proper Evidence of our Troops att Louisburge actually performing the Service in garisoning Louisburge as in our Accts hypothecated agreeable to the Provision our Assembly had made and if y<sup>r</sup> should appear to be more in number or greater length of time that you would get it added to y<sup>e</sup> Acc<sup>t</sup> be sure we have imbursd every penny of it the number agreed by our Assembly to be kept there was 350 and y<sup>e</sup> time was till first of June unless his Maj<sup>ties</sup> pleasure should be sooner known the number as I have heard was for some time 400 and they did not get home till July. Sr Peter Warren I believe is able to evidence in our favour and to be otherwayes serviceable to us and have herewith inclosd a Letter to him which you will take Care of

I have directed your Psallery granted in May last which was 250<sup>ll</sup> to be sent to your Correspondents in Boston and presume it is actually done

*Sir*

In your Hon<sup>rs</sup> Letter to Mr Agent Palmer, (If I mistake not) you Signify to Him that you had directed me to procure of Gen<sup>l</sup> Pepperel, a Certification concerning Our Forces having Served in the taking of Louisbourg and Defence of it afterwards. I intended to have asked for your Honours particular Direction in that Matter, but other Matters put it out of my mind — I would therefore pray your Honour to give me in Writing particular Direction as to what I am to Do about it, — or if your Honour pleases a

Draught of Such a Certification as is Desired of S<sup>r</sup> William,  
(by the bearer of this Coll<sup>l</sup> Whiting) — and your Hon<sup>rs</sup>  
Directions Shall be attended by

Your most Obedient

Humble Serv<sup>t</sup>

JONATHAN LAW TO ROGER WOLCOTT.

MILFORD Nov<sup>br</sup> 26 — 1747

S<sup>r</sup>

Yesterday I rec<sup>d</sup> a Letter from Gov<sup>r</sup> Clinton in w<sup>ch</sup> he writes As I foresaw that the Troops raised upon the Expedition would be soon discharged and considering how much the frontiers of this Province would be exposd thereby I recom<sup>d</sup>ed to the Gen<sup>l</sup> Assembly to take 800 men into the pay of this Colonie for his Maj<sup>ties</sup> Service in protection of the Countrey, but as they rejected the most probable meanes of engag<sup>g</sup> them by giving the men Cloathing, I am apprehensive it will not be in the power of the com<sup>manding</sup> Officer at Albany to raise the Companies he has Orders for that purpose upon the Encouragement the Assembly has now resolved to give, as the Captains of those Levies have refused enterin into this Service. but as I am told that men will be readily got within your Gov<sup>t</sup> to serve in this Province upon the following Encouragement which is 10<sup>s</sup> to a Captain 7<sup>d</sup> day 6<sup>s</sup> a Lieut 2<sup>s</sup> to a Serjeant a Drum and 18<sup>d</sup> to each private man to be paid monthly besides Provisions. I take the Liberty to know your Sentiments Whether three Companies or more can be raisd in your Gov<sup>t</sup> on this Occasion and how soon they can be in readiness to march to Albany with Arms and Accoutrements w<sup>ch</sup> the Assembly makes no Provision for both Officers and men will enter into the Pay of this Province from the time they march. The Companies are to consist of one Cap<sup>t</sup> one Lieut three Serj<sup>ts</sup> and a Drum and sixty private men and the Cap<sup>t</sup> allowd £120 bounty

and pay is to be this Currency If you conceive men can be readily upon these Terms I shall transmitt to you Warrants to the Capt<sup>ns</sup> whom you will recommend in Confidence you will name none but such as are capable to command I must desir y<sup>e</sup> favour of your Answer as soon as possible

There is Provision made for a Doct<sup>r</sup> and 2 Mates and the time allowd by y<sup>e</sup> Assem to be upon this Service is 27<sup>o</sup><sup>d</sup>

Now I would pray your and Gentlemen near you their Sentiments about it. and who may be likely persons to undertake and accept this Service That I might recomend them if you think it advisable for my own part I fear Albany will be in danger and could it be protected our Frontiers would not be so much exposed. the Confusions in that Govt I fear are great and will much expose them Nothing is said about Crown point now thô sometime since he informd me part of the Legislature came into part of y<sup>e</sup> Agreement and would inform me when they did neither have I any Acct from Gov<sup>r</sup> Shirley of y<sup>r</sup> Approbation thô I have long since given an Acct of ours.

This comes by an Express to Coll<sup>l</sup> Williams by whom let me hear from you

I am Sr your humble obedient Servant

yours of the 26<sup>th</sup> Instant I have Rec<sup>d</sup> had I Rec<sup>d</sup> it yesterday when I mett the Comittee for the war I should have had the Opertunity of Confering with Them upon but it is now Impossible to Call them together so as to return you an Answer by this Express I must therefore something suddenly Give my own Thoughts and send your Letter with this open to the Gentlemen of the Councill in this

County who I hope will give your Hon<sup>r</sup> their opinion by this Express.

My opinion at present is that the Confusions that are at present at New York are such as threaten the loss of Albany which would be a Great Diservice (?) to all the Northern Collonys for it will Greatly Encourage the Enemy and the loss of that Valuable fronteer will Endanger the Defection of the Six Nations and possibly bring the whole force of the Enemy upon New England and I think the Encouragement offered by Gov<sup>r</sup> Clinton with the Love our men bear to their Country will Induce our men Chearfully to Enter into the service I Can speak for one that did not my years forbid it I would readily enter into the service and Endeavour to Inlist a Company and should not doubt of success I have five sons Grown to men if his Excellency should think fitt to order a Comission to Either of them I can freely adventure him into the service

your Hon<sup>r</sup> in my opinion may do well as the Case is Circumstanced to Inform Gov<sup>r</sup> Clinton of your Grave Concern for the misunderstandings there are with them and the Danger that threatens not only their own fronteers but the Comon Cause is like to suffer by it and that you Could have been Glad the Case had be such that we might have been excused from this we haveing now ordered forces up to Garason the County of Hamshire yett Considering the Case as it is you will Encourage the Inlisting the men here according to his Excellencys proposall

as I observed before I am now alone and time will not allow me to call in advice nor Inform myself who will undertake to be officers in the service here Can therefore only tell you that Coll<sup>o</sup> Talcott or Capt James Chh are very Good men and that one of them and if they faill severall others in these parts of the Gov<sup>t</sup> will cheerfully undertake it if they have the oportunity

yesterday we orderd 50 men out of Col<sup>o</sup> Whiting and Coll<sup>o</sup> Wells Regiment to be raised for the Defence of the County of Hamshire have no news to tell you but that I hear at Boston to have agred to the Expedition ag<sup>t</sup> Crown

point your Hon<sup>r</sup> will therefore Consider if it be not best to reserve the men that shall go to Albany for that service if it Goes on

I am your very humble serv<sup>t</sup>

\*Late in the year 1899 Benjamin Franklin Stevens of London, England, wrote to the Connecticut Historical Society offering to send to the Society a transcript of the muster rolls of the ten companies raised in Connecticut in 1746 to take part in the intended expedition of that year against Canada, provided copies of the rolls were not already in Connecticut. This kind offer being accepted, with the assurance to Mr. Stevens that no copies of the rolls were known here, a handsome volume containing a transcript of the rolls was received a few months later, from which the following is extracted :

"The Transcribers Prefatory Letter.

"London, 9 April 1900.

"In respectfully proffering this volume of Transcripts to the Connecticut Historical Society a few words about this unique Muster Roll may not be unacceptable.

"The original book in its contemporaneous canvas binding is made up of broadside sheets of paper of different sizes. It has no title page. The first sheet, written on both sides, contains the Resolution of the General Assembly of Connecticut in May 1746 to raise and maintain Troops. The seal is lost. The

to the Governor & Company, of S<sup>d</sup> Colony by his Grace the Duke of New Castle in his Letter dated April 9<sup>th</sup> A D: 1746.

Elisha Williams Esq<sup>r</sup> was appointed Colo<sup>l</sup>.

Samuel Talcott Esq<sup>r</sup> Lieut<sup>t</sup> Colo<sup>l</sup>.

Israel Hewit Esq<sup>r</sup> Major of the Regiment ordered to be raised in S<sup>d</sup> Colony according to the King's Directions Signified as afores<sup>d</sup> to proceed on an intended Expedition for

second sheet, also written on both sides, contains further Resolutions of June 1746. This has the Colonial Seal in red wax. The third sheet is a proclamation or certificate by Governor Law enumerating the officers of the different companies. The Governor's seal, on this, is an imperfect impression. On the fourth sheet the Muster Rolls begin and are continued to the eighty third where the book ends.

"The first, and first only, of these rolls bears the title heading 'A Muster Roll of the Regiment of foot under the Command of Colonel Elisha Williams raised for His Majesties Service for an Expedition against Canada by Order of the General Assembly of this Colony pursuant to his Majesties Directions signified to the same by his Grace the Duke of New-Castle in a Letter dated April 6<sup>th</sup>. 1746.' The Rolls are for each of the ten companies and give the names of the officers, non-commissioned officers and privates with the dates of enlistment, and are respectively for these eight periods:— 30 May to 24 August 1746; 25 August to 24 October; 25 October to 24 December; 25 December 1746 to 24 February 1747; 25 February to 24 April; 25 April to 24 June; 25 June to 24 August; and 25 August to 31 October 1747. They each bear the autograph signatures of their respective captains and lieutenants and all are countersigned by Governor Law and Commissary Herpin. The eighty Rolls are here transcribed page for page with their respective originals with the single exception that it has been more convenient to copy the one title heading on a separate preliminary sheet.

"As the Acts of the General Assembly and this Mustering of the Connecticut Forces for an Expedition against Canada were '*pursuant* to His Majesties Directions signified by the Duke of Newcastle in a letter dated April 9. 1746,' and as that letter is not in the Muster Roll I add a copy from its official draft, (A. W. I. 63) in the Public Record Office. I also add the Abstract of Mr Palmer's letter received August 1747 and the Extract of Governor Law's letter of 17 October 1747 received from Governor Shirley, but in quoting these three papers pertaining to the Muster Roll merely for convenient reference I am not opening for discussion the general subject of the concerted action of Connecticut with the other Colonies for the reduction of Canada or the Louisburg expeditions.

"Of course the fair copies of the Duke of Newcastle's draft when written out for signature and dispatch would be addressed in the usual terms to the respective governors. In the body of the instructions 'Connecticut' or 'Rhode Island' would be substituted for 'New Hampshire' now in the official draft.

"The spelling of names, abbreviations, capitals, punctuation and similar peculiarities have been carefully followed throughout the transcripts. Only the foliation on the eighty Muster rolls has been added.

"This original Muster Roll recently discovered in the Public Record Office of England by Hubert Hall, Esq., F. S. A., Custodian of the Government Search Room, is perhaps the only complete Muster Roll of the Colonial forces raised for this expedition, now preserved in the English Archives. Its present reference mark and number is War Office Original Correspondence No. 1.

"In the hope of making my Transcript better available for historical and genealogical purposes I have put at the end of the volume an alphabetical list of the names of the one thousand officers and men borne on the Muster Roll.

"B. F. Stevens."

The rolls which follow are printed from the copy transcribed for and presented by Mr. Stevens to the Society. Governor Law's certificate giving the

the Reduction of Canada to his Majesties Obedience — & also that.

names of the officers is printed from a duplicate original among the Law papers which bears the autograph and seal of Governor Law, as does that copied by Mr. Stevens. A few illegible words in this have been supplied from Mr. Stevens' copy. Possibly this illegibility was the cause of a second certificate being made to send to England. The red wax seal bears a poor impression of the arms. Apparently the shield carries a chevron, whose cross hatching indicates that its color is black, between three small figures which may be birds heads, erased. There is no crest above the esquires helmet which surrounds the shield.

*Honourable Sir,*

I this day rec<sup>d</sup> a letter from Mr President Clap inclosing one for London desiring me to forward it, & withall telling me that your Honour had sent or was sending a Packet for me to forward to the Colonys agent in London, I take this opportunity to inform you, that I have not rec<sup>d</sup> the Packet, & that if you have one or duplicates, there will be in a

short time two very good opportunitys by the two expresses Gov<sup>r</sup> Shirley & Govern<sup>r</sup> Knowles have concluded to send with their dispatches.

This express brings the Resolutions of the General Court here. They have not agreed to every Particular, but yet so far that the expedition may well go on, & our safety so much depends upon it that I can't but hope it will, I very well know there are great difficultys in the way, especially to this Province, but I cannot but apprehend there are greater in neglecting it, where we shall get either men or money is very hard to say, but it is not so with Connecticut, they have a great many men, & the high price of Provisions, & very much on acct of this Expected Expedition, will fill you with money, & if your Govern<sup>t</sup> & we can be so wise as to make no more bills even this Expedition will rather help than hurt the bills, I am

*Sir*

Since my last to Your Honour Mr Knowles & I have receiv'd a Letter from Gov<sup>r</sup> Clinton, wherein he acquaints us that he has hitherto paid the Levies of his own Governm<sup>t</sup> Maryland, Virginia, & Pensilvania after the Rate of 6<sup>d</sup> Sterl<sup>g</sup> ½ day over & above their Provisions, we<sup>ch</sup> have been allow'd 'em, & that he shall pay 'em the Remainder now due to 'em at the same Rate: Whereupon Mr Knowles & I think the Rate of paying the Massachusetts, New Hampshire, & Rhode Island levies, as also of the Connecticutt Levies untill the time of their being dismiss'd last Winter, is so far fix'd by Mr Clinton's having proceeded thus in paying off the Western Levies, that we think any Abatement in the

Pay of the New England Levies, or Stoppage for Provisions or billeting Money allow'd 'em by the Colonies, wôd raise the utmost Discontent among the Soldiers here, & be greatly prejudicial to his Majesty's Service in New England upon any future Expedition, & we have therefore determin'd that the Levies of the beforemention'd New Engl<sup>d</sup> Colonies shall be paid off at the Rate of 6<sup>d</sup> a day Sterling clear of Stoppages for Provisions or billeting Money allow'd by those Governm<sup>ts</sup>, w<sup>ch</sup> Determination we the more readily come into, as we find it is agreeable to the general Opinion of the Governours concern'd in the Expedition; & I now acquaint You with it that the Men may be paid at the Rate of 6<sup>d</sup> Sterling a day untill the time of their being dismiss'd in the last Winter clear of any Stoppage for Provisions found 'em by Your Colony.

And as to the Officers in general Mr Knowles & I have determin'd that they shôd be paid after the same Rate with other Officers of like Rank in the King's Army upon the British Establishment: And Mr Knowles & I have accordingly sign'd Certificates w<sup>ch</sup> he has left w<sup>th</sup> me blank, to intitle the Several Officers to their Pay according to the times of their Actual Service. And notwithstanding my late letter to Your Honour upon this Head, if You think proper to send me the Accounts of Your Charges, Enlistments &c according to the Duke of Newcastle's Directions, as express'd in mine & Mr Knowles' Joint letter to You, to be transmitted home; I will endeavour to ease both the Officers & Soldiers in the Affair, being perfectly desirous of doing every thing in my Power for their Benefit, consistent with the Trust repos'd in me & Mr Knowles by the Crown: And I desire Your Answer as soon as may be, whether Your Honour intends to send the Accounts &c or not, that I may write to his Grace accordingly.

Mr Knowles & I observe in the Accounts of some of the Colonies, Medicines charg'd, & Expences in taking Care of the Sick; for satisfying w<sup>ch</sup> we wôd advise You, to make a Deduction of three pence Sterling  $\text{p}$  Month out of the Pay of private Men, four pence  $\text{p}$  Month from the Cor-

porals, & Six pence from the Serjeants to pay it; as I shall do from the Noncommission Officers & private Men rais'd within this Government: For we don't think any thing will be allow'd for it by the Crown, as it is usual to provide for it by Deductions from the Men

*Sir,*

I herewith send your Honour a Copy of the Resolutions of the General Court of this Province upon the Agreement of their Commissioners with those of the Colonies of New York & Connecticut (at their Meeting in the City of New York) concerning the Prosecution of the War: You will find that this Court have agreed to all the most material Parts of the Report; as to those Articles, which relate to the procuring a Force by Sea to act by way of Diversion, altho' it should not be agreed to by the several Assemblies, yet the several Governours with the Advice of their respective Councils may solicit his Majesty for the Assistance of some of his Ships of War to proceed up Canada River about the time of the Expedition, for attacking that part of the Country, or at least to make a Diversion, and there is good reason to think that they may obtain them; And as soon as the Expedition is concluded on I shall write home accordingly: As to the Amendment made upon the Article of supplying New York with 400 Men, I am persuaded your Honour will think the Alteration made in our Resolves is both reasonable & necessary; this Province having undertook to furnish a much greater Number of Men than their Proportion, and that the Number assign'd to Connecticut is

much below their Proportion; Besides the great Numbers of Men in this Province lost by Sickness & War; And the great Demands of Soldiers for the Defence of our large Frontiers render it in a manner impossible for us to furnish the four hundred Men for New York, and highly unreasonable for the other Governments to expect it from us: As your Commissioners have returned to your Governmt the Articles of Agreement it is unnecessary to send you a Copy from hence; but you will easily find by comparing those Articles with the Resolves, I now send you, how far we have accepted the Agreement. I must desire your Honour to lay the Matter before your Assembly, as soon as possible, and to dispatch hither an Account of their Determinations in this Affair, that we may lose as little time as may be in our Preparations for the Expedition.

## SAMUEL WELLES TO ROGER WOLCOTT.

BOSTON, Dec<sup>r</sup> 4, 1747*Sir,*

I have the Honour of yours of Octobr 23<sup>d</sup> from N. Haven & am very glad to see your approbation of the Com̄-  
missioners Report. It was the best we could come to, which  
would pass the Com̄missioners from every Governm<sup>t</sup>, tho I  
truly think & did so in the time of it, & so exprest myself,  
that Connecticot Proportion was too low, but your Com̄-  
missioners would agree to no more, alledging they had no  
opportunity of Consulting or receiving direction from, the  
assembly on the affair.

I have sent a Copy which one of my son's some time  
ago, drew, of the Result at New York, & by that & a Copy  
of the Resolutions of Our Gen<sup>l</sup> Court upon it which comes  
with it, you will see, we are come into the substance of it;  
As to the 400 men in New York pay, the Court apprehend  
it impossible to raise them here & the 1800 men they have  
voted; & indeed it was very much the opinion of the  
Com̄missioners, when together, that they must be raised in  
Connecticot or some other Governm<sup>t</sup> & not here, & there-  
fore tho in the Resolutions of the Court, you see it said,  
provided the 400 men paid by N. York be raised in Con-  
necticut, it will be agreeable to us, if they are raised in  
N. York or any other Governm<sup>t</sup>

The excessive expence of men & money in this  
Province, only to defend our large frontier & that of N.  
Hampshire (which is indeed the frontier of all the Kings  
subjects & Interest in North America) is such, that it is  
impossible to do much more or indeed to continue the  
burthen we have already, it must not therefore be won-  
dered at; that we make a difficulty of doing what some may  
expect, Our ability is not equal to our inclination.

I am much concerned how we shall grapple with what  
we have agreed to supply, we have lost a great number of  
our men, & must beside these 1800 have a great many in  
pay to defend our maritime & inland frontiers, where they  
will be had is very hard to say & how they will be paid

as hard, should we pretend to strike off more bills, there is great Danger, that what we have already, & those we shall make too, would lose their Currency & be good for nothing; I hope therefore, that the method with you and us too, will be to borrow, or gather in the money necessary, by a tax; for it will be equally pernicious for one Governmt as for the other to Issue bills, as they pass promiscuously, I know it will be easy for your Governmt to gather in the money by a tax, a great part of the Charge will be for provisions you abound with, but the great price Provisions bear, & the circumstances of our Province make it very difficult for us to do it, these are distressing considerations to this Province, & scarce any thing could be more so, but the great danger there is, if we sit still & let Crown point fort remain in the hands of the french, that we shall finally lose our lives & Country too; By the blessing of God, we may help ourselves now, but if we neglect the opportunity & are indolent, I dont expect it will be in our power long.

Perhaps some may think it a difficulty that our Court have not come into the article of applying for a naval force, but I apprehend it of little consequence, for doubt not but Govr Shirleys application with that of the Govern<sup>t</sup> of Ne York & Connecticot will easily obtain it, the express waits & I will say nothing further but that I am glad your Court has appointed you to meet at middletown; not only because it will be for the Public good to have a skillful Pilot in a difficult time, but because the Court happened yesterday to appoint me for one to meet there also, which the Court prepose should be on the 20<sup>th</sup> of January next, Col<sup>l</sup> Hale is appointed the other, I am with a very high respect,

MILFORD 10<sup>br</sup> 10 1747*S<sup>r</sup>*

Yours of 9<sup>br</sup> 27<sup>th</sup> I rec<sup>d</sup> I sent Mr Farrand to N York w<sup>th</sup> an Acc<sup>t</sup> of the Encouragement given by you and Mr Pitkin who returnd last night with beating Orders. the Gov<sup>r</sup>

\* Probably the Mr Farrand mentioned in the letter next following.

writes he has sent to Albany to know what Success his beating Orders have had for thirteen Companies, whereof seven have obtaind and in Case he should want will send me an Acct and would freely favour your Son. The money is not to be paid till the Capt<sup>ns</sup> arrive att Albany with their Companies

Yesterday I rec<sup>d</sup> a Paquett &c from Gov<sup>r</sup> Shirley. That Gov<sup>t</sup> have acceded to the Com<sup>rs</sup> Agreement with divers Amendments one of which is, That Co<sup>n</sup>ecticut will grant the 400 men w<sup>ch</sup> they were to raise for New York. and the whole on Condition That N York and Co<sup>n</sup>ecticut concurr with them and moves for the Consideration of our Assembly. I have had two Letters from Gov<sup>r</sup> Clinton since he told me That part of the Legislature had come into part of it and that when they did approve of it, he would give me Notice, in w<sup>ch</sup> Letters he sais not a word abt it and has since dissolvd the Assembly and gone into measures for the Protection of Albany, when he informs me of their Concurrence with Boston I determine to call our Assembly and the Express is gone forward to N York and the Jerseys and Gov<sup>r</sup> Shirley expects an Answer by him on his Return.

Gov<sup>r</sup> Shirley conceeds to allow the Kings pay with out the Stoppage for Provisions Gov<sup>r</sup> Clinton having done so for the Southern forces, but yet insists on their being dischargd above a year agoe and sais there should be a Stoppage of 3<sup>d</sup> Sterling <sup>7</sup>/<sub>8</sub> month for a private man 4<sup>d</sup> for a Corporal and 6<sup>d</sup> for a Serjt for Medicines &c. if it be so the men will have no advantage by it and we who have paid the charge of the sick shall loose it if it be not chargd with the Demands we have on the Crown. other Gov<sup>ts</sup> he sais have charg'd it, but it will never be allowd in any other form but by taking it out of the wages which Sum should be reservd for the Gov<sup>t</sup> I wish Coll<sup>l</sup> Williams was acquainted with it or some measures could be taken about it. and he sais notwithstanding his and Knowls's late Letter he would have my Answer whether I will send the Acc<sup>ts</sup> of the whole Charge as he sais the Duke of New Castle directed him. the s<sup>d</sup> Acc<sup>ts</sup> are not gone. and only those which were clearly

promisd by y<sup>e</sup> D of New Castle and Coll<sup>l</sup> W said that you and he were of that mind and suspected it was movd with no good Intent to y<sup>e</sup> Souldiers.

He also sends for fifteen men to garison att Stockbridge which is left defenceless now the Kings Troops are dismiss<sup>d</sup> and he will find provisions, I thôt it needful for you to send them if the Com<sup>tee</sup> have Authority given them and this is the special Occasion of this Express

Its reported That Lieut<sup>s</sup> under Albany Capt<sup>ns</sup> are enlisting men in the Gov<sup>t</sup>\*

As to the Conclusions of your Assembly abt y<sup>e</sup> Crown point Expedition I dont see any Advantage by calling an Assembly till N. York comes into the Agreement Gov<sup>r</sup> Clinton upon my informing him of our Legislature's ratifying it on Condition of the two other Gov<sup>ts</sup> acceding to it, he let me know That part of their Legislature came into part of it, and when they did, he would give me Notice of it, and I have had two Letters or more since in which he sais nothing about it. he movd for Liberty to raise three

or more Companies for the Defence of Albany and being apprehensive of the danger of Albany under the confusd Circumstances of that Gov<sup>t</sup> I did by an Express give him all the Encouragement I could and the very night after I rec<sup>d</sup> your Excellencies he returnd with beating Orders for one Company, with an Account that he had sent out to know how many of the thirteen Companies were to be had there, and then, I should know further.

With respect to sending an Acct of our Disbursements on the Intended Expedition against Canada I did think and some others also, best at present to send only that w<sup>ch</sup> I took to be within the express Encouragement given by his Maj<sup>ty</sup> signifyd by y<sup>e</sup> D of New Castle Viz Armes Cloathing and Wages, and as for the Residue to bear it our selves and when we find the burthen too heavy for us, to make our humble Address to his Maj<sup>ty</sup> for Relief as in the Case of Cape Breton. Coll<sup>l</sup> Williams I suppose is on his Journey with what is sent by him and that w<sup>ch</sup> your Excellency mentions last, about a Stoppage for Medicines &c, I think it was not thôt of when the Coll<sup>l</sup> was here, and would pray you would putt that matter in its just light. That Article has been far more expensive to us than that will repay. let it be added to our Demands on the Crown

And as to the Article of y<sup>e</sup> Discharge of the Kings Troops neither you nor we did ever look upon it to be within our Province to discharge them. the finding them with Provisions was at our own Arbitrament, which we did so long as we apprehended might be for his Maj<sup>ties</sup> Interest. and thô they were under a necessity of subsisting themselves yet accounted themselves holden by his Maj<sup>ty</sup> and dischargd from all our Services, and we allways practiced accordingly. I look upon our people to be rational and free agents as all true Englishmen are and under the Gov<sup>t</sup> of Rule and Reason thô multitudes of our fellow men are actuated only by Terror as beasts or Slaves. I fear it will be disheartening for men to engage themselves in his Maj<sup>ties</sup> Service and alwayes stand ready to obey his

Comands if the terms on w<sup>ch</sup> they obligd themselves be not  
complyd with even till his Majty sees fitt to discharge them

& remain your Excellencies

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON December the 22<sup>d</sup> 1747

*Sir*

Five days ago Colonel Williams deliver'd me your Letter of the 20<sup>th</sup> of last November with attested Copies of the Resolves of the General Assembly of your Colony for raising a thousand Men for his Majesty's Service in the late intended Expedition ag<sup>st</sup> Canada, and of their Appointment of Field Officers, Captains, and Subalterns, as also of the Muster Rolls of the Several Companies from the 30<sup>th</sup> day of May 1746 to the 31<sup>st</sup> of October 1747 all Sworne to before you and Certify'd by you under the Seal of the Colony. Besides which Colonel Williams deliver'd me a Copy of a resolve of the General Assembly pass'd the second Thursday in October 1746 Attested by the Secretary of the Colony, whereby your Honour is desir'd to advise the Colonel of the Regiment to offer a Furlow to the Soldiers that they might retire to their respective places of abode untill they should have his Majesty's Orders for Mustering again &c<sup>a</sup>. In pursuance of which advice Colonel Williams informs me they did retire to their respective Homes and have continued there ever since.

I had heard an imperfect account of this matter before; which I mention'd in a Letter to you, dated the 29<sup>th</sup> of October and that it was a Circumstance, which, if true, would raise such a difficulty with respect to Mr Knowles

and my Settling the Pay of the Connecticut Regiment, that we desir'd your Honour would be pleas'd to do it; for that we must decline it: And I appriz'd you in the same Letter that Mr Knowles design'd to go to his Command at Jamaica in about a fortnight;

I was in hopes that upon your receiving that Letter you would have consider'd and settled the matter your self; or if you had declin'd doing it, that you would have transmitted the necessary Papers for Mr Knowles and my Consideration, before his Departure, and let us know that you would not intermeddle in it; For it appears from the Extract of the Duke of Newcastles Letter, of the 30<sup>th</sup> of last May to me, which we sent you inclos'd, that the buisness of settling the terms for the discharging of the Troops was Committed to us *jointly*, and that neither of us could Act by himself in it

However as I was very desirous of easing the matter for the Officers and Men rais'd in your Colony as much as I possibly could, and in hopes that the Circumstances of their Case might upon my Examining into 'em have been found such, as might have put 'em upon a foot with the Levies of the other Colonies, I desir'd you, notwithstanding Mr Knowles was gone, to transmit me the Muster Rolls and other Acts of your Assembly relating to the Troops, that I might inspect 'em and see what I could do; But I find their Case to be so different from that of the other Levies, as that I dare not take upon myself to determine in the matter without Mr Knowles; and all that I can do, must at last be to represent the Case for his Majesty's Consideration, in as favourable a light as I can, which I shall do: And in the mean time as you have advis'd this dismissal of the Men 'till they should receive his Majesty's Orders for Mustering again, which occasions the difficulty, I must lave the matter intirely with your self.

There is another Circumstance, which likewise lays a difficulty in my way: His Majesty, as you must perceive by the Extract of the Duke of Newcastles Letter sent you, order'd Mr Knowles and me as soon as we could meet

together, to discharge the Troops in his Name; and in Obedience to those Commands we sent a written Discharge of the Troops to all the Governours concern'd in the late Expedition, in order to have it Publish'd in such manner, as they should think most proper among the Troops within their respective Governments; w<sup>ch</sup> was done by all of 'em except your self, who have refus'd to do it: Now, if as you inform me, your Government has not either Intentionally, Literally or Constructively, dismiss'd the Levies of your Colony out of his Majesty's Service; and you will not cause Mr Knowles's and my Discharge of 'em, in pursuance of his Majesty's express Orders to us, to be Publish'd within your Government; what can be done in the Case, but to leave these matters with you, who have thus taken 'em upon your self: especially as you give me to understand in your Letter that you are dissatisfy'd at his Majesty's Signifying his Orders to you by any Person but the Duke of Newcastle, and have refus'd to comply with 'em in the point of discharging the Men, when transmitted to you by Mr Knowles and me: It is owing to your not being perfectly acquainted with the Motions of the Enemy in Nova Scotia that you ascribe the departure of de Ramsy to the Destruction of the French fleets. For de Ramsy, who had pitch'd his Tents in sight of his Majesty's Garrison at Annapolis Royal about September 1746 retir'd to Menis upon the arrival of the first 300 Men I sent from hence about the same time, and of his Majesty's Ship Chester sent by Mr Warren and continued at Menis six weeks after the departure of the first French Fleet under the Com<sup>and</sup> of the late Duke d'Enville and 'till I sent the last Reinforcement from hence in the Winter to Annapolis; upon the News of which he retir'd from Menis to Schiegnecto, and our Troops thereupon took possession of Menis in the latter end of December or beginning of January and continued there 'till they were surpriz'd by the Enemy in the beginning of February; within a few days after which the Enemy retir'd again to Schiegnecto and confin'd themselves to that District, 'till de Ramsay return'd to Canada, which was before the last French Armament

under Mr de la Jonquiere was met with and taken by Admiral Anson and Admiral Warren, or at least before Mr de Ramsay could possibly have News of it; a party of the New Engl<sup>d</sup> Forces having in the mean time taken repossession of Menis and brought the Deputies there to renew their Oaths of Fidelity before Mr Mascarene

I can't take upon me to recollect what Expressions might drop from me in my Letter of the 4<sup>th</sup> of March 1746 to your Honour concerning our misfortunes at Menis But I don't remember that I meant to lay the blame of 'em upon you, and I am sensible I never press'd you to send any of your Levies to Annapolis, and that my mentioning your denial to do it in my last is a mistake.

I have communicated to Colonel Williams whatever I can think of, that may be for the Service of the Officers and Soldiers of the Regiment of your Colony in procuring their Pay and also of your Colony with respect to their Disbursements for Cloaths and Arms, and am

Your favour of the 13 of Oct<sup>r</sup> last from Newhaven I receive with thankfulness. And now pray you to Confer with Col. Allen And then let me know what was the usual allowance made in surveying large tracts of Land in the rough woods, how many rods rough measure you gave for a hundred rods plain or Just measure about the year 1716 & before & since. And how much you verily believe you allowed in the several lines of My 10000 Acres of Equiva-

lent lands at Swift River. I should take as a favour if I could have your & Col. Allens Oath, of what you know to be the usual allowance in Such Case at that time. And if you can come at it by any minutes then made or particular Circumstances whereby you can perfectly remember it, then your Oath of that Certain Allowance.

If I could come at a tollerable Certainty in this respect I would desire to have Col. Allens Compass And desire you to put me in the way to have the use of it to run my lines by it, but I would have it put in good order & well touched as you Commonly do it there & hath been used to be done that it may follow it's own track as exactly as may be. I believe the Just people that Settled Kingsfield by themselves & their assistants have cut me off abt 40 rods throughout my South bounds & shortened that line at the East end. And I believe that all the Monuments you made at that South side from end to end are gone & demolished, for this reason I must mak the most Exact trial to lay it out Anew from Swift River bridge A mile & half with so much allowance as to make it about or nearest half a mile to Swift river & abt or nearest a mile to Ware River this is a Certainty appearing in your Original Survey & from ware river run the line 3 miles East & by North with such allowance as you can make me Certain upon Oath you did make, & fixing my South East Corner there either by a small brook or else a running Spring near Ware river (tell me which). I believe all the rest will be Easy. I would do it the beginning of April for my days are almost spent. I pray you hurrey what I have writ & the plans Sent, & write me by the first opportunity whatever you can recollect or Judge will inlighten me. ELIAKIM PALMER TO THE COMMISSIONERS OF THE  
TREASURY.

To the Right Hon<sup>ble</sup> the Lords Commissioners of his  
Majestys Treasury

The Petition of Eliakim Palmer

Agent for His Majesty's Colony of Connecticut

Humbly Sheweth

That when Your Petitioner had the Hon<sup>r</sup> of Attending Your Lordships on the 14<sup>th</sup> last Month with Mr Bollan Agent for his Majestys Province of Massachusetts Bay in New Engl<sup>d</sup>, Your Lordships were pleas'd to Signify to Your Petitioner that you were ready to Issue one third of the Money Voted by Parliam<sup>t</sup> to the Colony of Connecticut to reimburse the Expences they have been at in taking & Securing to the Crown of Great Britain the Island of Cape Breton & it's Depedencies upon his giving Security in

his Majestys Exchequer for the duly Applying and Accounting for the same.

That Yo<sup>r</sup> Petitioner is inform'd that in some Cases (such as Contracts for Provisions for Troops in His Majesty's Service & the like) a Bond given in the Treasury for Money rec<sup>d</sup> is Deem'd Sufficient, he Humbly hopes that Yo<sup>r</sup> Lordships will not think it Necessary to put the Colony to y<sup>e</sup> Charge of doing it in the Exchequer.

That however Yo<sup>r</sup> Petitioner is ready to perform either of these Conditions humbly Presuming that a Discharge Obtain'd by Yo<sup>r</sup> Petitioner from said Colony of Connecticut in their Legislative Capacity will Indemnify him from such Bond as your Lordships shall think fit to require.

Yo<sup>r</sup> Petitioner therefore Humbly Prays that Yo<sup>r</sup> Lordships will order immediate Paym<sup>t</sup> of the said Money into his hands that he may send Advice thereof to his Constituents by a Ship Just Ready to Depart for America

And Yo<sup>r</sup> Petitioner shall Ever Pray

#### MERCHANTS PETITION TO THE LORDS OF THE TREASURY.

To the Right Honble the Lords Commissioners of the Treasury

The Memorial of the Merchants & others trading to & interested in New England

Humbly Sheweth

That the Common Currency of New England has Consisted of Paper Bills of Credit for more than thirty Years past which by the Uncertainty & Remoteness of their Redemption have lost more than Nine Tenths of their

---

\*Dated with pencil 15 Jny 1746/7; but is probably about a year later.

Original Value to the Unspeakable Prejudice of the British Merch<sup>ts</sup> trading there, to the great Distress of the Inhabitants & the Ruin of many Thousands of People; and altho' the Evils arising from their Circulation have been long known & Complain'd of it has been found impracticable to redress them without the Interposition & authority of Parliament.

That as several Grants have been made by Parliam<sup>t</sup> for reimbursing the Expences of the Cape Breton Expedition, & has the Exchange has risen in New England since their Acco<sup>ts</sup> were stated from 540 to more than 1000  $\text{P}^{\text{r}}$  Ct & large Quantities of Paper Bills have been lately Collected there in Expectation of the Possessors availing themselves of that Difference; The Memorialists propose in order to prevent a Misapplication of the Money that no part of it be Issued until the several Assemblys there or (in Case of their Neglect or Refusal) the Parliam<sup>t</sup> of Great Britain shall have Adjusted the Proportion & have fix'd a Rule for the Paying off the Bills of Credit, whereby the whole Grant may be Apply'd to the General Benefit of the Colonies at the most Equitable rate of Exch<sup>a</sup>.

That as the sums granted by Parliam<sup>t</sup> are Sufficient for a Medium of Exchange throughout New England The Memorialists further propose that they may be remitted in a Coin calculated for a Currency in that Country or in such other Specie as may have an Establish'd Value fix'd upon it as a Standard for Estimating of private Debts & to prevent the Notorious Abuses that the Publick as well as private Persons are daily liable to from the Fluctuations of Exchange

That no Inconvenience can possibly arise to the Inhabitants there by Postponing y<sup>e</sup> Paym<sup>t</sup> as one of the Agents has been directed by the Assembly at Boston to place the Money as soon as he shall receive it in the Bank of England until they have Determin'd in what Manner it shall be Apply'd

That it will be very Difficult for their Assembly's to agree upon an Equitable Rule for this Purpose, as many Persons in the Administration of the Government there are become Possessors of the Bills at a Depretiated Value, & Expect to Receive near double the Sums they have Expended in the Collection of them, by which Means those who have a large Share of Authority will not only oppose their Interest to that of the Colonies in General, but will probably have the Charge & Custody of such Sums as may be paid to their Agents, & Consequently a Power of Detaining them until the other Branches of the Assemblys are Compell'd into their Measures.

That unless the Affair of the Paper Currency is taken into Consideration before a Remittance is made to the Colonies it will be impossible to put an End to the Circulation of their Bills, as the Benefit some of them enjoy from their Credit are too Considerable to be parted with, unless they are Compell'd by a Parliamentary Authority.

That this is the most favourable if not the only Conjunction that has ever Occur'd for Retrieiving the Credit of their Trade, for Securing the Property of the British Merch<sup>ts</sup> interested there to determine the Power of Issuing Paper Bills & for Establishing an Invariable Standard with a new Coin or fixing the Rates of such Silver as may be Transmitted for a Currency

The Memorialists therefore in Behalf of themselves and all other Merchants trading to & Inhabitants of New England Pray that no Part of the Aforesaid Grants be by any Means Issued until som Effectual Measures are taken by the several Governm<sup>ts</sup> there for Establishing an Equitable Rule for Discharging their Bills of Credit & for Putting a Period to the prest Paper Currency or in Case of their Neglect or Refusal not until the whole can be Regulated by the Parliament of this Kingdom.

Yours of the 18<sup>th</sup> Instant I rec<sup>d</sup> I have given your Son Oliver Gov<sup>r</sup> Clintons beating Orders. As to the Comtee Meeting att Middleton Gov<sup>r</sup> Clinton on my informing him That our Assembly had ratifyd the Agreement of the Com<sup>rs</sup> att N York signifyd to me That part of their Legislature had come into part of it and that when it should be cceeded to there, he would give me Notice of it. diverse Letters I have rec<sup>d</sup> from him since in which was not one word about it, and this day came an Express from him to Boston without any Acc<sup>t</sup> of his Legislatures Approbation of the Agreement: but I find by their Prints That the Gov<sup>r</sup> and Assembly are combating with one another, and this day (I understand) is the day for electing a new Assembly.

I have heretofore given an Acct of the State of Affairs to Boston and that I did not see any Advantage for me to call an Assembly to try whether they would agree to the Boston Amendments till N York should agree, and I have not any Notice from Boston of the Comtees coming to Middleton and can only advise you, that if your Orders are sufficient for your proceeding that you dont intangle us for I find that when we are so they that lead us into it dont concern themselves to deliver us out of it.

I receivd Your Favour of 26<sup>th</sup> January informing me that Capt Farrand had not yet compleated his Company, which I am the more surprized at, considering the length of time he has had my Warrant, & two days before I gott your Letter I informed the Commanding Officer at Albany, That I expected that Company to be at Kinderhook in which I am sorry to be disapointed, as I am also with any certainty of the other two Companys being raised, for which I sent you my Warrants which I transmitted to you in Confidence that no difficulties would arise in compleating three Companies in your Government, But so much time is protracted in the doing thereof that I could have accomplished it here in less time had not the urgency of the Service pressed me to apply to you, and I now must tell you two Companies can be raised immediately here by two Gentlemen who have applyed for my Warrants; Therefore I must desire you will on receipt hereof send me an

account <sup>P</sup> Express if those Gentlemen have raised their Companies, & are upon the march to the Frontiers, but if not to return me the Warrants which I enclosed you for that purpose as the Service will admit of no delay

I observe what you say about the meeting of the Boston Commissioners at Middletown, and it is surprizing that they should make appointments unknown to you or me for our Commissioners to meet them on the twentieth of January, when the time for meeting was elapsed by the Agreement, But as the Assembly of this Province will meet soon I shall lay before them the Amendments of the Massachusetts Court to that Agreement, that they may ratifie the same, and will do every thing in my power to promote the Service intended by the agreement entered into at New York I am

I also may add that the Com<sup>rs</sup> from N Y not coming to ours and the Massathusetts conveend att Middleton are obligd to break up. It has also happend That Coll<sup>l</sup> Lothrop and the other Officers w<sup>ch</sup> garrisond Louisburg after the

GIDEON WANTON TO JONATHAN LAW.

S<sup>r</sup>

You are not insensible that this Government is but too much divided into Factions & Parties which well wishers to the general Peace of Mankind would attempt all in their power to put an end to, or at least to prevent every bad consequence that might arise therefrom: This adress to you springs from the most sorrōfull apprehensions that the Soberest & Best sort of People here appear to be under on Account of a Commission said to be lately granted by You to one Ebenezer Slocum, the purport of it I make no doubt is in common form to Seize & Take from the Enemies of Our Sovereign, but it is loudly proclaim'd by Slocum &

his Confederates that they are determined to improve it to the interruption of Trade only and in taking such Vessels belonging to New England as they shall judge proper to Seize.

That such sort of Men may be desperate enough to do this is beyond all peradventure true and that the Merchants here (and doubtless it may be the same with those of Connecticut) are as resolutely determined to secure their common Interest from falling into the Hands of those Persons is as undoubted a truth.

Into what greater state of confusion this Government may be thrown thereby, or what will be the fatal Consequences of a contest of this kind for my own part I dread to think on, And therefore to prevent the worst of Evils that can befall Men in this life and that the Tranquility of the Governments may be the better preserved I beseech you as you tender the Lives of Men to grant forth a Supersedeas to that Commission which am well assured had you known the Intentions of the Persons that at present appear to be concern'd in this horrid Scheme you would never have granted.

#### RHODE ISLAND'S REMONSTRANCE TO JONATHAN LAW.

To the Hon<sup>ble</sup> Jonathan Laws Esqr Governour & Commander in Chief in & over His Majestys Colony of Connecticut.

We the Subscribers beg leave most humbly to Remonstrate to Your Hon<sup>r</sup> That the Maritime Trade of New England being carried on in so loose & unguarded a manner

particularly for want of taking out Cocketts\* for, and making exact Entries of Goods chiefly occasion'd we suppose thro' Ignorance of the Acts of Trade, that scarce any Vessel own'd in New England but is subject to a Seisure either outward bound, on her return Home, or both, and therefore were evil Minded Persons Enemies to Lawfull Commerce invested with proper Authority to lay hold of every Vessel that should be so unfortunate to come in their way attended with any of these defects this might in time produce the most mallencholy consequences that can be imagined.

That the Trade & Navigation of Connecticut as well as that of this Colony (and indeed we might say all New England) at present stands greatly exposed to Injuries & Insults from persons who are altogether unacquainted with ye nature of Trade & business especially such as relates to Navigation, it being no secret here that the Commission supposed to be lately obtained from Your Hon<sup>r</sup> by One Boone for One Ebenezer Slocum to proceed with against His Majestys Enemies is not to be improv'd that way but they threaten to use it only against His Majtys leige Subjects the Merchants of New England by persuing & taking their Vessels & Goods such as they think proper to lay hold of And for which purpose those notable Gentlemen with others of the same Class are about procuring a small Sloop or boat and determin'd to equip her with Guns &c purely to interrupt or rather put an end as far as in their power to all Trade in General.

Certain we are that had Your Hon<sup>r</sup> been perfectly acquainted with the Intentions of the Persons concern'd in this most extraordinary Scheme it would not have been in their power ever to have prevail'd on Your Hon<sup>r</sup> to trust them with any Commission at all And that Your Hon<sup>r</sup> would have as absolutely denied them as we are inform'd

---

\* A Cocket was a document sealed by the officers of the custom-house, and delivered to merchants as a certificate that their merchandise had been duly entered and had paid duty. The term is now obsolete.

his Excellency Gov<sup>r</sup> Sherly<sup>d</sup> did considering 'tis presum'd from the intimations he might receive in respect to what manner of Men they were, that both Friends & Enemies might possibly meet with the same treatment from them and the fair as well as unfair Trader if any such there be might be sufferers alike and both equally harrassed & perplex'd and that without hope of any remedy, for such Men have but little to fear who have little or nothing to loose.

Full as certain are we that Your Hon<sup>r</sup> (under what specious pretence so ever that Commission might be obtain'd) never intended it should be usd but according to the true intent and meaning of it i.e. against his Majestys Enemies and not to the distruction & ruin of his Subjects the Merchants & those dependant on them.

It is not possible to represent to Your Hon<sup>r</sup> the many & fatal Consequences that will inevitably follow on the Depredations Rapines & Wasts that may be committed by those Men thro ignorance of the Laws or designs to violate them but the very worst are to be not only fear'd but certainly expected should they proceed to Act as they Threaten: Nor do we apprehend the Trade of Connecticut is less open to their Violence than that of this Government for the reasons before given but were it the Merchants of this Colony only that those Persons aim'd their virulent resentments at, we doubt not but Your Hon<sup>r</sup> would readily interpose and lend all Friendly Endeavours to prevent their being made a Prey of by any whatsoever. And therefore with the greatest confidence in Your Hon<sup>rs</sup> good Disposition towards every thing thats just & right or tending to the Peace & Happiness of Mankind we earnestly intreat Your Hon<sup>r</sup> to Issue forth a Supersedeas to that Commission whereby an effectual stop may be put to those enterprizing Gentlemens perpetrating any of their vile designs under that colour either ag<sup>t</sup> the Kings Subjects here or elsewhere and Your Hon<sup>rs</sup> Remonstrants as in Duty bound shall ever pray &c

*Sir*

I have just receiv'd your Letter of the 6<sup>th</sup>\* with your advices of the Success the Gentlemen are like to meet with in raising their Companys by virtue of my Warrants. The Inhabitants of this Province on the Frontiers have been extremely uneasy That all the Companys provided for by the Assembly were not raised before now, whereupon I

assured them, that one Company (viz<sup>t</sup> Capt Farrands) from your Government was marched to Kinderhook, having sent you his Commission some time ago for that purpose, But to my surprize, I receiv'd Advice two days ago, from thence that no Company from your Government was yet arrived, w<sup>ch</sup> occasioned me to give orders to one Tenbrook, (who had my Warrant from the Commanding Officer at Albany before I sent you any) to march a Company he had raised directly to Kinderhook, to prevent that settlement breaking up, so that now there will want but two Companys to compleat the whole from your Colony. I leave it to your discretion who deserves the proper Encouragement, for I think Capt Farrand has trifled with me much. Therefore I desire That one of the Warrants may be returned, or all if two Companys are not mustered, of which please to send me Notice, That I may take measures accordingly for the better Security of the Inhabitants of this Province, I am Sir

*Sir,*

As the Dissolution of the late Assembly of New York has rendered the late Meeting of our Commissioners at Middleton fruitless: I have thought proper to send by Express to Govern<sup>r</sup> Clinton to desire him upon their new Assembly's Agreem<sup>t</sup> to the Amendm<sup>ts</sup> made by this Governm<sup>t</sup> to the Commissioners Report, immediately to dispatch Advices thereof to your Honour & me, with Copies of their Resolutions on that Affair, as also that they would appoint some time for another Meeting of the Commissioners, to concert those Measures that were left to be agreed to in a future Meeting; and that they would also appoint a Place of Meeting, and that to be the Town of Middleton, if possible; the time to be as soon as conveniently may be, allowing suffi-

cient Notice for the other Governm<sup>ts</sup> to prepare for it: And as I know your Honour joins with me in Opinion, that the retaining the Six Nations and their Allies in our Interest, is of such Importance that no Pains nor Cost can be too much for accomplishing it, I would propose it to you, that upon receiving Advice from M<sup>r</sup> Clinton that the New York Assembly has agreed to our Amendm<sup>ts</sup> your Honour would have a Meeting of your Assembly, if that is necessary, to empower your Commis<sup>rs</sup> to act in the Affairs

I was very glad to receive yours of ye 8<sup>th</sup> Instant together w<sup>th</sup> a Remonstrance of sundery Gentlemen of yours on the 15<sup>th</sup> when our Judges of the Circuit and others were at my Table and more especially because there then was lying before me a Petition of Sundery of our Government for our Sloop of Warr to be fitted out by them at their Charge and for a Comission I askd y<sup>r</sup> Advice (who are of our Council) and they said the com<sup>on</sup> Report was that great Mischief was done to his Maj<sup>ties</sup> Interest under the pretext and colour of flaggs of Truce whereby our enemies were furnisht to make Depredations upon us by which meanes his Maj<sup>ties</sup> Displeasure would be incurrd and Charters (so dear to us) endangered and observing ye Com<sup>n</sup> I had issued was leveled at his Maj<sup>ties</sup> enemies only and such others as should be carrying to them Warrlike Stores &c according to his Maj<sup>ties</sup> Declaration of Warr and strict Command to give Letters of Marque and Reprisal. That it would be dangerous for me to supersede such a Comand I presume you have many extant at this time thô I never gave one before. however I calld my Com<sup>tee</sup> of Warr with whose Advise the Ordering of the Colony Sloop has been wont to be left to me who thôt that the Direction of the Sloop Defence delegated to us by ye Assembly was only for ye Defence of ye Gov<sup>t</sup> and our Trade and that all the Com<sup>ns</sup> given by me were founded on our Charter, but there having passd an

Order of our Assembly in October last (a Copy of w<sup>ch</sup> Mr Seary had not furnisht me with), the further Consideration of the Motion was deferrd till that should be sent

I hope your Hon<sup>r</sup> is not at all mistaken when you charitably suppose me to be of a pacifick Disposition and inclin'd to do good to my fellow creatures. At this day there seems to be too gen<sup>l</sup> a propensity among mankind to Contention, warr and Confusion. Such a Temper seems to prevail in most of our neighbouring Gov<sup>ts</sup> and I should think my self very unhappy if I should be any wayes instrumental to promote encourage or abett any such thing in yours, which I should dread in mine own and shall alwayes value my self on the Charecter of a peace maker, which god grant we may alwayes deserve

The Apparent & pernicious Designs and Practices of some of the people in the Neighbouring Governments of New York and Rhode Island, in Carying on an Illicite Trade with our Enemies under Colour of Flaggs of Truce, Thereby Comforting & Supplying them the more vigorously to Carry on the Warr, To The great prejudice of Our King & Nation; W<sup>ch</sup> we Fear may Eventually prove Especially so To This Colony; move us to adress your Honour at This Time; and The more Especially since we are well Acquainted with The uneasiness of abundance of The most Steady Thinking people in this part of The Colony, under The fearfull Apprehensions of what Evils & Calamities may follow, if nothing be Done To prevent The Increase of Such practices & Detect Those people who are Concerned Therein; Hoping Your Honour & Council may

find out some Method In part To Detect, & At Least To free us from The Imputation of having any hand in it, or in the Least Conniving at it:

We Fear The Dutch aim at a Base Neutrality; Why Else have They demolish'd Saratoga; Frustrated The plan laid Against Crown Point, neglecting To Send Their Com̄missrs, & Using all means to retard & put a stop To any Undertakings against The French; and Carrying on The pernicious practice of Sending Their Flaggs of Truce, Laden with Flour &c, & Corresponding with Them by Land as we Apprehend; and If They designed Honestly, we Can't but Think They would have Guarded Their Own Frontiers, with forces of Their own Levying, with out Asking Your Honour's Aid & Assistance by Sending Companies from us for That service: Indeed They Seem unwilling To push any Thing against Canada and Crown Point; and Should they Carry Their point To gain a Treacherous & Injurious Neutrality with The French, This Colony & The Province of The Massachusetts, must bear The whole force of our Northern Enemies, who will There have a place of Retreat & Comfort, when They have been Imbruing Their Hands in The Blood of our people.

We Likewise Fear The Great Danger That This Colony may be bro't into, by The Treacherous Conduct of our Rhode Island Neighbours, who seem not To Care, who are hurt if They may but Carry on Their Trade & Get Rich 'Tho it be at The Expençe of The Great Interest of The Nation and at The Hazard of Their priveledges, & Even ours also, if we do nothing To shew our Resentment of Their pernicious Practices & To free ourselves from The Imputation of having a hand in it or at Least Conniving at it; and We are Credibly Informed That they are gott To such Intollerable Insolence, as in The Light of The Sun & Face of That Government, To Fit a Vessel of Warr, To Go out with an Avowed Design To Sink (if need be) Any That shall Touch Their Vessels which have been to Supply our Com̄on Enemy with The Best Provisions New England Affords: and In particular manner declare they will Sink a privateer bound To Sea (with Your Honours Com̄ission)

designing to Take & bring To Trial These pernicious Flaggs of Truce.

Now if on Consideration your Honour & Council should Think proper Imediately to order out The Colony Sloop, with Your Honour's Com̄mission as a Privateer To Take any of his Majesty's Enemies, or such as have been Carrying on an Illicite Trade or have Contraband goods on board &c, who may Thereby Justly seize & bring To This Government for Trial such as have been Carrying on This affair, We hope it might (with submission to your Honour's Better Judgment) happily bring These practices To an End: There are one or Two more Vessels That provided They may have The Use of Some of The Colony Gun's, and Your Honour's Com̄mission, would go on The same Design: The Return of These Flaggs of Truce is Expected Speedily, before good Weather, and Therefore hope Your Honour & Council will find some proper Remedy Very Speedily; That This Colony may Stand free from all Imputation of Guilt, or Connivance at it: The Rhode Islanders have The Last Fall Sapped our Interest by buying up w<sup>th</sup> Their pernicious bills our best provisions for This worst of purposes above mentioned: and are now out buying up our Cows & best Stock what They can with Those same pernicious bills. What The Ill Consequences may be, and what Remedy applied, (unless That of a Special Assembly To Consult) We humbly Submit To Your Honour—and are

Nothing short of some presence of mind could have guarded against something of Surprise when by yours of the 1<sup>st</sup> Instant I rec<sup>d</sup> no Com<sup>ns</sup> for the two Companies you had sent me beating Orders to raise. and I had informd you that I had given y<sup>m</sup> out to Cap<sup>t</sup> Church and Cap<sup>t</sup> Wolcott before you had informd me, that you did not know but you might raise one of those Companies at home, for I did not doubt of your betrusting me with the Com<sup>ns</sup> to be disposed of according to your order, especially since I had informd you I had not given up those you had sent me. On fryday last Cap<sup>t</sup> Farrand having musterd his Company, on Saturday began his March for Kinderhook as you directed, thô thrô the Mismanagement of L<sup>t</sup> Darling his motion was long retarded, and his Com<sup>n</sup> I have not had opportunity to deliver to him

Cap<sup>t</sup> Church informs me that having expended several hundred pounds in arming cloathing &c his men, should

begin his march on Monday last and I understand by Capt Wolcott, did accordingly who is come down to be advisd by me and his father who is on the Circuit att Fairfield whether to come down to your Excellency for further Direction having been advised by his father and me to forbear any further motion till further directed thô he has raisd his Company at considerable expense.

I have done all in my power to promote what your Excellency desird and am sorry if any thing should be discouraging to our people to give their Assistance when ever it should be wanted

I have just received your Letter of the 17<sup>th</sup> Inst, by Mr Wilcot, informing me that Capt Church and Capt Farrand are March'd, whereby this young Gentleman is disapointed which I should rather had been the case of Farrand, as he was so tardy in raising his Company, & often Frustrated my expectation & there is now no remedy left for Mr Wilcot, but waiting 'til I can give him encouragement to send his Company to the Frontiers, of which I have some hopes will soon be done, being oblig'd from the Frequent applications and Expresses I have had from Albany and else where, to send Men that cou'd be first rais'd at any rate to their Assistance, and as I have not time to write to Mr Wilcot by this Opportunity you may assure him from

His Majesty having Ordered a Proclamation to be issued to explain & enforce the Prohibition of Commerce between His Majesty's Subjects & those of the French King, in consequence of the Declaration of War. ## PROCLAMATION AGAINST FRENCH TRADE.

BY THE KING  
A PROCLAMATION

GEORGE R.

Whereas we have received information that some of our subjects have secretly carried on trade and commerce with the subjects of the French king, in direct violation of, and disobedience to our royal prohibition, and in defiance of the punishments which may by law be inflicted for such high contempts and offences, during the time of open war; we therefore taking the same into our royal consideration, and to the end that none of our subjects may pretend or plead ignorance or forgetfulness of our said royal prohibition, and the true extent, meaning and import thereof, or of the danger they are exposed to by their disobedience to the same, have thought fit, by and with the advice of our privy council, to issue this our royal proclamation, hereby publishing and declaring, that all correspondence and communication, as well by way of trade or commerce as otherwise, with the said French king or his subjects, or in, to, or from the dominions of the said French king, are and were included in our said royal prohibition. And we do publish and declare, that all commerce, trade and traffic to or from France, or any other the dominions of the said French king, and the exporting or importing of any goods, merchandizes or commodities to or from France, or any other the dominions of the said French king, by any of our subjects, without our licence in that behalf, are great misdemeanours and high violations and contempts of our royal authority, and for which the offenders are liable to severe punishment, by and according to the laws of this our realm. And we do hereby strictly prohibit and forbid all our subjects of Great Britain, Ireland, Jersey, Guernsey, Alderney, Sark, Isle of Man, Minorca, and the town and port of Gibraltar, and of any our colonies and plantations in America, and all other our dominions, that they do not directly or indirectly carry on any commerce, trade or traffic, or export or import any goods, merchandizes or commodities to or from France, or

any other the dominions of the said French king, upon pain of our highest displeasure. And we do hereby publish and declare, that all persons offending herein, and acting contrary to our said royal prohibition, shall be prosecuted for the same with the utmost severity and rigour of the law. And we hereby strictly charge and command all our admirals, captains, commanders of our ships of war, and all officers of the admiralty, and commissioners of our customs, customers, comptrollers, searchers, surveyors, and other officers of our customs, to be faithful and diligent in seeing this our royal proclamation duly observed: and all justices of the peace, sheriffs, mayors, baliffs, constables, headboroughs, and other our officers and subjects, to be aiding and assisting in the discovery and prosecution of the offenders, and in the preventing all such commerce, trade and traffic, to the utmost of their power.

Given at our court at St James's, the 19 day of February, 1747, in the twenty-first year of our reign.

*Sir,*

The General Assembly of this Province presuming upon their Claim to a Reimbursment of the Charges of the late Expedition against Cape Breton have been employing their thoughts to find out some method of improving such Reimbursement so as to put an end to the present paper Currency, and they have projected a Bill (which has had two Readings in the Assembly) for this Purpose a Copy of which I shall now inclose You As there are Bills of each of the four Governments of New England which have obtained a Currency thrô the whole, it was judg'd proper before any thing be finally determind here, that a conference should be had by Commissioners from each Government that so if possible one general method or Scheme might be agreed on; and You will see by the Vote inclos'd that Commissioners have accordingly been chosen by this

Government, and I must desire Your Honour to Recommend it to Your Assembly to join in this Affair which is of such Vast importance & for effecting which its probable there never may be so happy an opportunity hereafter.

We have no absolute certainty that any Grant will be made by the Parliament but there is great reason to expect it, and our latest advices are that it will be done the present Session, and the Assembly here seem'd to be of Opinion that unless some speedy Provision should be made on this Side the Water great endeavours will be us'd that these Governments should be obliged to draw out their Grants by Bills of Exchange, the consequence of which would be the importation of Vast quantitys of Goods & perhaps the Exchange would be set at such Rate as would be to the great Damage of the Publick much beyond the present Value of the Bills of Credit and what the generality of the present Possessors have no equitable Claim to. The Assembly have proposed this province to meet in because it is nearest the Center, and as the Gentlemen can be best Accomodated in the Town of Boston, It is proposed their first meeting should be held there. The memorial Referr'd to in the Report I have not sent a Copy of, the proposals contained therein being much the same with what is propos'd by this Bill.

I have sent Letters of the same Tenor with this to the Governours of New Hampshire & Rhode Island, I shall Expect Your Answer as soon as may be.

*Sir,*

I am directed by y<sup>e</sup> Gen<sup>l</sup> Court here to apprise your Honor of the Advice we have from our Agent by the Ship from London yesterday, that a Grant was made in Parliament on Fryday the 4<sup>th</sup> of December last of 10,200,000 for the current year, £800,000 of which is for paying the Charge of taking and keeping Cape Breton by the People of New England, and the Charge of raising Forces for the Expedition that was designed against Canada.

There have been some Proposals & Endeavours, that the Payment might be made by Debentures, nothing seems so likely to prevent it as applying the Money granted to redeem & finish our fatal Paper Currency, so absolutely necessary to the Establishment & Preservation of Justice in our Commerce, and so much for the Interest of Great Britain as well as our selves. This we are very sensible cannot be done effectually without the Meeting of the several Assemblies interested in this Grant; It is therefore hoped that your Honour will call your General Court together as soon as may be, that the Meeting of Commissioners may not be put off beyond the time proposed, viz<sup>t</sup> the 12<sup>th</sup> of April next, in order to their being assur'd at home very soon, that this Money will be so wisely apply'd, and for a

Purpose so absolutely inconsistent with Debentures or any dilatory Methods of Payment.

## JONATHAN LAW TO WILLIAM SHIRLEY.

MILFORD March 19<sup>th</sup> 1747/8S<sup>r</sup>

Yours of febr 29<sup>th</sup> I rec<sup>d</sup> on the 10<sup>th</sup> Instant from D Gov<sup>r</sup> Wolcott which coming under Cover to him he open'd and the matters proposed being of great Consequence he and the Gentlemen with him thōt his and their Sentiments about your proposal to me would be very acceptable and accordingly suggest to me that the affair deserves the best Consideration of all the Gov<sup>ts</sup> but in as much as the Calling an Assembly will be attended with great Expence and the stated Sessions is so near, That if Com<sup>rs</sup> appointed by me and the Council might be joynd with those appointed by y<sup>e</sup> several Assemblies, I might enter into measures accordingly but I dont remember any one Instance of that kind for which there was not an Act of the Assembly desiring and directing me with advice of the Council to do it

I have rec<sup>d</sup> a Letter from our Agent of y<sup>e</sup> 18<sup>th</sup> of Nov<sup>br</sup> last wherein he informs me That y<sup>e</sup> Lords of the Treasury had not then settled the Exchange in reference to the Cape Briton Expences, and some other Difficulties not then gott over so that then y<sup>e</sup> Accts were not adjusted and liquidated and prepared to be joynd with the Estimates to be laid before y<sup>e</sup> Parliament Presumptions in the law are relyd on, but in this matter of State I do with patience wait for it and shall rejoyce when there shall be no further Occasion for hopes. and indeed I cant but hope That in case we could sink so many of our Bills as our Reimbursements when obtained will enable us to do, That it will be much easier to call in our outstanding Bills, than to pay the Silver with the Interest for and within twelve years for the money which we must borrow and run the hazard of its coming & returning to great Britain by w<sup>ch</sup> our Inheritances may be all exposed. And I observe The Report of your Com<sup>tee</sup> is That Com<sup>rs</sup> be appointed to treat with yours in order to bringing to a period all the Bills of the several Gov<sup>ts</sup> in like māner as is proposed for the Bills of your Gov<sup>t</sup>, which is by borrowing Silver of Gentlemen in great Britain and

plighting the faith of the Gov<sup>ts</sup> for paying y<sup>e</sup> same with Interest within twelve years from which Burthen and Danger I can no wayes solace my self, with any expectation of Deliverance but by trusting that I shall not live to see it, yet I would not be guilty of forgetting my Survivors. indeed yours is a Trading Province and may recover the Silver but this consists of Farmers void of that Advantage who must comply with y<sup>e</sup> Demands of y<sup>e</sup> Possessors if there shall be any

MILFORD March 20<sup>th</sup> 1747/8 7 Clock P M

*Gentlemen*

I send you a Copy of Gov<sup>r</sup> Shirley's Letter just Rec<sup>d</sup> by which you will see That at the desire of the Assembly att Boston 200 men are sent for not only for the present Emergency but to abide there the whole of the Sumer whether the Act of our Assembly dos Enable you to send men for So long a time I dont Remember, but if it dos and by the Accounts you have it Seemes needfull you will Act accordingly, its not Long to the Assembly.

The Messenger informs me that he hears one man was Kild and one taken and tow wound at number 4 on muday Last by about 20 french and Indians if it be So I Conclude you will have the Certainty of it.

By my Brother Cap<sup>t</sup> Hall from New York Last week was informed that Justice DeLancey's opinion was the

french would not Adventure for fear of a thaw, and by Mr Elihu Lyman who came Yesterday at 10 of the Clock from New York that a special Post Came in from Albany tow dayes before he Came away but I have none yet Come to me.

I had a Letter from Gov<sup>r</sup> Wolcott inclosing a Letter &c from Governour Shirley, Moving me to Call an Assembly in order to putt a period to our Bills by borrowing Silver in England to Redeem them by which Letter from Gov<sup>r</sup> Wolcott I was advised to Call a Council for the Appointing Com<sup>rs</sup> to go to Boston Concerting Measures about it but it seemes to me not fitting without a previous Order of the Assembly, Neither Can I approve of the Boston Scheme which seems to me dangerous but well Calculated to defeat all the views we have had for setting up a Differance in our trade from them and making a Distinction between there Bills and ours and I have given an Answer Agreeable to these Principles

\*The Superior Court was established in 1711. It was to hold two sessions annually in each of the four counties. It was at first composed of a chief judge and four other judges, any three of whom were to constitute a quorum. The governor was appointed the chief judge, and the remainder were four distinguished members of the Council. In the absence of the governor, his place was occupied by the deputy governor, and it was still very early in the history of the court when the latter came to be commonly chosen to preside. *Loomis and Calhoun. JOHN STODDARD TO ROGER WOLCOTT.

N<sup>TH</sup> HAMPTON May 22, at night, 1748

S,

I Recv<sup>d</sup> your's of the 14 Instant by which I perceive that it has been Represented to you that there was some uneasiness in your Souldiers at the proposal of some of them going to Col<sup>l</sup> Hinsdals. but I Believe the truth of the Matter is thus. that when they were in this Town there were Several of them very willing to go, when they got to Deerfield the Inhabitants having a desire to have them tarry there, Endeavoured to discourage them, hoping thereby to Engross them, and some of their Officers had something of a fondness for keeping their whole Company together, but I don't pretend to know how far they sided with the Inhabitants, but have been often told that when the Officers drew out the Men, there were Sixteen men Offered themselves to go.

Last night after I was in bed I recv<sup>d</sup> your's of ye 20<sup>th</sup> wherein you propose that I should give Orders for the Posting of the 80 men, which seems at present almost Impracticable because I have not been advised who the Officers are

nor where they may be found, and I am going to Morrow Morning to Boston to Attend our Assembly which I thought necessary to Inform you of, that you might give the necessary Orders to direct their Marching in the Shortest Roads, and it would seem Something Strange for me to give Orders for your mens Marching whilst in your Government.

I propose that the men be Posted in the following manner viz

at New-Hampton	20	New-Hampton is
at Blanford	16	at present deserted,
at Brewers at 12 Mile Pond	8	but I hope we shall
at New Marlborough	8	be able to perswade
at Stockbridge	15	them back again, if
at the upper Parish in Sheff <sup>d</sup>	13	we can't there will be
	80	a great number of

farmers in this and the neighbouring Towns that will quit their habitations as they have done.

I look upon it that the number sent a very Scanty supply for the Protection of so many places, and all Circumstances being considered I can't think but that the above Division of them is right.

you Intimate in your Letter that so small a number of the Enemy's giving us so much disturbance is an Indication of Heavens Displeasure, and is a call for Repentance of our Sins. which is doubtles true but our unhappiness is that we can be sensible of Sins in Generall and in others, but no Body Guilty themselves. and whilst we seek to Skreen our Selves rather than to find wherein we have faild our Selves I have little hopes of Repentance and Reformation

If it should be Suggested that we are feeding our Enemy by large Supplies of Provisions, even to the distressing our Selves, which I apprehend cannot be done without the privity (at least) of some in authority, yet arguments will be Invented to Excuse such a Conduct. If it should be thought that the Governments are Guilty of great Injustice and Oppression in Continuing such an unstable and uncertain Medium of Commerce there will appear

many that will devise pretexts to Justifie them.

If it should be said that the Governments are not tender of the lives and liberties of the Subjects, and don't timely and Sufficiently provide for the Safety of the frontiers, whereby Multitudes of poor People have been distressed and ruined, one and another will be ready to Excuse themselves, with Imagining they are unable, or that they have done their Proportion &c.

*Sir,*

The Council and House of Representatives of this Province taking into consideration the extreme Burthen of the Warr lying upon them, wherein their Expence of men and money is vastly greater than what the most of the Northern Colonies have hitherto born & has much exceeded what any one of them have in proportion to our Ability; By Reason of which our difficulties in carrying on the War are insupportable by our Selves; and forasmuch as our Western Frontier is a Barrier to your Colony and your safety depends upon our maintaining that post, and your Charge in the War being very inconsiderable in proportion to ours. On the eighth Instant I rec<sup>d</sup> yours of the 3<sup>d</sup>, the day on which our Assembly adjourn'd. I laid before them your Scheme for putting a period to our paper currency, but having a Rumour of your Assemblies rejecting it and hearing nothing further from you, no Measures were taken about it.

Two hundred of our men are posted in your Frontiers

and three Companies in New York and eighty men on our Coast.

I think we are in Debt about three hundred and 60 thousand pounds thô very little the more for any Allowance made to me. Our Countrey Sloop will cost us this Sumer abt 15 or 16000<sup>l</sup>.

About 40 or 50 Rangers propose to goe forth for three or four months double Doggd and with that proposal I wrote last Saturday to Gov<sup>r</sup> Clinton by one who would undertake under the favour of his Excellency.

I rec<sup>d</sup> a Paquett from the Duke of Bedford dated 25 of febr yet I have not the good News your Excellency thôt I should in a short time receive from M<sup>r</sup> Palmer agreeable to what you had from M<sup>r</sup> Bollen 10<sup>th</sup> of Decembr last. what may be the hindrance I cant say and still dwell in hope.

'tis now but a few Days since Maj<sup>r</sup> Pitkin was with me, and expressing some concern that the Accounts of the Expences in the Cape Breton Expedition were not yet completed, and fitt to be Transmitted Home. Wee concluded immediatly to do all in our Power towards perfecting them, and for such Purpose judging it needful to have in our Hands the Duplicate of the Accounts, in that Affair that had been already sent Home, Ordered an Express (who I suppose is now on his Journey) to wait on Your Hon<sup>r</sup> for obtaining the same, but as (I presume) the Officers concerned in that Expedition cannot be had, or prevailed with properly to Avouch these new Accounts, and the Assembly passed no Sanction upon them, I see not at present, how they may be so authenticated as to obtain the Approbation of the Boards before which they are to be laid, in England, Your Honour will please to Advise & direct us herein.

As to the Agents Salary, shall inform Colo<sup>l</sup> Stanly of y<sup>r</sup> Honour's Pleasure, who will doubtless take the necessary Care, as usually he has done.

The committee appointed to take into their Consideration the state of the Warr with the French and Indians &c I conclude mett to consult therein, for they had of me the Bill formerly agreed to by the Assembly granting Premia for Indian Scalps &c but made no Report, that came to my Knowledge, in the Matter.

I observe no Act wherein Your Honour is especially concerned, but the enclosed for granting a Letter of Marque to the Cap<sup>t</sup> of the Colony Sloop.

The Transaction relating to New York, And the Motion of the Governor of the Massachusets pursuant to the Address of the Assembly of that Province, I am favour'd with, may (especially the latter) with the Consequencies, be of great Weight & Importance and deserve Attention (thô it should not be complied with) And I presume Y<sup>r</sup> Honour permits me to comunicate them to such Gentlemen of the Council

Not having been favour'd with any from your Honour since my last (Copys of which have already been forwarded) I have at present very little to add thereto the Occasion of it is that the Lords of the Treasury with whom it lyes to determine the time & manner of reimbursing the Colonys their Expences in taking & Garrisoning Cape Breton as well as the Intended Expedition against Canada, have been Adjourn'd for some time without coming to any resolution about it, notwithstanding a Constant & wearied Attendance upon them on that Accot. this Difficulty does not now arise from the want of Money for that Purpose (I mean as to Cape Breton) there being now in the Treasury a Sufficiency therefor as granted by Parliamt, but from an Apprehension that if it were to be Issued all at once it might Occasion so Sudden & great a fall of the Exchange as would be productive of great Inconveniences amongst you, particularly to those who had large Quantity's of goods by them bought at a high Advance, but as their Lordships will meet again in about a fortnight I doubt not their putting this Affair upon some Certain Footing very soon of which you shall be timely Advisd, how I shall Succeed in the Canada Affair is much more Uncertain as I can't yet Learn what representation Gov<sup>r</sup> Shirley (to whom it was referr'd) has made thereof, I have only to Confirm My

*Hon<sup>le</sup> Sir*

Your favour of 22<sup>d</sup> Inst is now before me, & in obedience thereto, shall advise Col<sup>o</sup> Trumble, not to take further care respect<sup>g</sup> the Cape Breton Accots.

It's a grief to me, that any false Reports, respecting Your Hon<sup>rs</sup> granting Commissions for Flags of Truce to Rhode Islanders should be spread abroad in the Colony to your disadvantage. I han't heard any such Report here, nor elsewhere. And as to Mr Ledyard's saying you took £10 new tenor for the Com<sup>n</sup> to Capt Miler, I can't conceive he ever said so, since its not true. I han't seen him since your favour came to hand, therefore could not discourse him on this Subject.

Your Hon<sup>r</sup> seems to Imagine it possible that the Com<sup>n</sup> granted to Mr Miller might be dispos'd off to some Gent<sup>n</sup> at Rhode Island. the bare Imagination gives me no little concern; & to convince Your Hon<sup>r</sup> theirs no foundation for such a surmise, inclos'd I send you that Commiss<sup>n</sup> you was pleas'd to grant Capt Miller, at Mr Ledyard & my Request; for w<sup>ch</sup> wee were Oblig'd & had wee misus'd it, Should justly have deserv'd your highest sensure.

Gov<sup>r</sup> Shirley & Commissioners from Boston are expected to Stonington or N. L. this week to embark for Long Island, & thence to York & Albany, where they are to meet the 5 Nations, and I learn, a principle part of their Design is, *in Conjunction with N<sup>y</sup> York*, to perswade two, or more of the Sachems, to go to Great Brittain & Sollicit his Majesty for Ships &c to form a Canada Expedition the ensuing year. *Provided the War continues*, And that all the

English Colonies in America be commanded to Assist in this Grand Affair. Its expected this manner of Soliciting, will be much more effectual, then any that can be made by the Agents of the Colonys.

Notwithstanding any Reports your Hon<sup>r</sup> may have heard, give me leave to say with the utmost Sincerity, that I am verily

My last to Y<sup>or</sup> Honour was the 20<sup>th</sup> June Copsy of which has already been forwarded. since that the Lords of the Treasury whose Province it is to Issue the money due to the Colonys for their Expenses in the Reduction of Cape Breton as Granted by Parliam<sup>t</sup> have again taken that Affair under their Consideration & have been frequently attended upon it, But as their Lordships are of Opinion that this money ought to be applyd in such a manner as to lay a foundation for sinking the Paper money now Currant in the Colonys or at least fixing the value of it, And as a great variety of Schemes have been laid before Them for this Purpose Differing very materially as to the manner of doing it their Lordships have thôt fitt to Deliberate on a matter

of so much Consequence; It being the Sense of the House of Commons when the money was granted that the Lords Commissioners of the Treasury should be the Judges in what manner it shall be Issu'd, They have appointed us a hearing upon it the 27<sup>th</sup> Instant which I hope will produce a final Determination of the matter.

I have as Agent for the Colony as well as Agent for the Regiment rais'd in Connecticut for an Expedition to Canada laid before the Treasury an Accott of the pay due to them, and the Expences the Colony were at in providing Arms & Cloathing amounting in all to Thirty thousand two hundred forty six pounds twelve & eight pence Sterling Viz —

and think I have grounds for Believing I shall have a favourable Answer to my Demand without any representation from Mr Shirley (none having yet Appeared) tho: I am not so Sanguine as to give any Assurances of it The above Accott includes the whole time from the 30<sup>th</sup> May 1746 to the 31<sup>st</sup> of Octobr 1747 without regard to the Interval in which the Men had withdrawn to provide the necessarys of Life for themselves & Familys w<sup>ch</sup> I hope I shall be able to convince their Lordships (should that Objection be started) they are justly intitled to as their being taken from their usual Occupations & having their thoughts turnd to a Military Life must necessarily be attended w<sup>th</sup> many other Inconveniences than barely the loss of the time in w<sup>ch</sup> they were in actual Service. I have only to add further that if the Colony have any other Demands on this Government for Expences incur'd by this Service no time should be lost in preparing and transmitting them as I apprehend it is absolutely necessary it should be done before the next

JOSIAH WILLARD TO WILLIAM SHIRLEY.

FORT DUMMER July 15<sup>th</sup> A. D. 1748

*May it please your Excellency,*

Our Circumstances are become the most Difficult and melancholly, The Enemy are so numerous & continually around us; seem to have taken up their Abode among us, in a great Body, they came last week to Ashewelot killed 10 or 11 Cattle & carried them almost all off. and there seems to be no safety for us to move any where.

When I went to Boston I Left my son at Northfield, but at my return found him to have been sick, and still remaining very weak, I sent him down to Hartford to procure provisions for N<sup>o</sup> 4 but know not whether he will be able to Effect it.

The Day before Yesterday by the aid of a few Soldiers I arrived safe at Fort Dummer.

And Yesterday some Soldiers that belonged to Ashewelot & some of Capt Hobbs men, and some of Capt Stevens men, & some belonging to Fort Dummer were coming up to Fort Dummer to the N<sup>o</sup> of 19. and thô they kept out their advanced guard on each side of the path were way laid & shot upon by a very Superiour Number of the Enemy, which Obliged them to flee to the Bank of the River for shelter, but were pursued and overcome by the Enemy after a short skirmish, two of the men are got into Fort Dummer, one is well; the other wounded in two places, but I hope not mortal; what is become of the rest we can't tell & are unable to go & see, and the case is exceeding Difficult at Northfield as well as here for upon the usual Alarm there came but three men last night to see what was done; The Soldiers at Fort Dummer are so many

sick that not one half are able to do their duty, and the case is the same at Northfield both with Inhabitants & Soldiers that they could not come; they have in times past at Northfield being very free and ready upon Alarm to come for our help but are now quite beat out insomuch that I fear that we shall not have help to go and see what is done & bury the Dead.

We sent down to Hatfield & Hadley after Capt Hobbs had his fight for assistance to go & bury the dead but could have no return or Answer.

As for N<sup>o</sup> 4, I must Inform your Excellency that it is by this time scant of Provisions & must unavoidably break up if some other person or persons cannot by the Government be procured to Provide for it.

For under our Circumstances with so little help as is here I cannot possibly do it, for we can move no where with so few men as we now have and let the case be almost what it will we can expect none from below. It seems exceeding hard that the Enemy in such great numbers must dwell among us and our Neighbours not willing to Allow us any help & to drive them off, thō from time to time informed of it.

I Humbly pray your Excellency to Consider & pity our miserable & distressed circumstances and do for us as in your great wisdom you shall think best. I Subscribe Your Excellencys most humble & most Obedient Servant to Command.

I had a Request much like this from Gov<sup>r</sup> Shirley dated 3<sup>d</sup> of June to lay before the Assembly but it came too late the Case is difficult w<sup>th</sup> Frontiers. I think the Assembly have not delegated the doing such a thing as is askd for

to any Comtee the Kings Proclamation sent to west Indies forbids all Hostilities against the french after ye 19<sup>th</sup> Instant.

It seems to me the Motion was sudden. doubtless the proceedings of ye enemy were very surprizing, the want of provisions and Sickness distressing and epidemical Diseases cant be guarded against and he that sends it among us can cause it to alight on our Enemies. No Circumstance seems to encourage such an Undertaking as Scouring the Woods at this time, people must stand on y<sup>r</sup> Guard as well as they can and hope god will find out a way for our Deliverance

My Indisposition must excuse for writing so briefly Yesterday I think it was impracticable for me to have done so much as now

Not having been favour'd w<sup>th</sup> any from yor Honour since the foregoing Coppy\* I have not much to add thereto no Resolution being yet taken in regard to the time & manner of paying the money Granted for reimbursing the Charges of taking Cape Breton w<sup>ch</sup> is partly owing to another Adjournment of the Treasury & partly to the Indisposition of M<sup>r</sup> Pelham the Head of it; As soon as any thing is done the Colony shall be timely advis'd of it.

I shall have a Watchfull Eye over M<sup>r</sup> Mason who has taken no other Steps in the Mohegan Affair than reviving an Application formerly made to the Ministry to supply him w<sup>th</sup> more money to enable him to prosecute it in w<sup>ch</sup> there does not yet appear any probability of his Succeeding.

I have this day Receiv'd a Letter from Mr Palmer a Copy of which I herewith Inclose You as also the Several Commissaries Accounts and only observe to you; as the Transmitting the accounts of the Canada Expedition to our agent is of Great Consequence to this Colony, and Absolutely necessary that they Should be laid before the next Parliament, which Mr Palmer presumes will be In Novembr next; therefore let no time be lost in preparing them, that they may be Transmitted Him and that you Take all possible means to inform Your Selves of opportunities for that purpose

Whatever I have heretofore thought of the articles that have been Sold by the Several Commissaries, being placed to the Accounts by way of Credith, am now fully persuaded that it is not best to make any mention of them, Mr Palmer being Silent about the matter, I look upon it, but an Inconsiderable thing; for if we Recieve pay for the whole of our Disbursments, it will not make amends for the Real Damage we have Sustain'd You will Consider my Indisposition & therefore take the whole Care of the Matter on Your Selves, You'l Remember the Billeting money and am Gentlemen

I have to Acquaint Y<sup>r</sup> Honour that since I wrote you last (a Coppy of which has already been forwarded) The Lords of the Treasury have intimated to the Agents of the Several Colonys that Assisted in the Reduction of Cape Breton &c That they were ready to pay them one third part of the Money Granted by Parliament for Reimbursing the Expences they were at in that Expedition Upon their (the Agents) giving security in the Exchequer to account for the Application of it. But as Wee think the Colonys right to the Money so absolute as that they are not liable to any such Restrictions Wee Demand thereto in hopes their Lordships (who then took the matter into further Consideration) would Dispense w<sup>th</sup> that Condition

In this Interim a Petition was presented to their Lordships Sign'd by the Principal Merch<sup>ts</sup> in this City that Trade to New England as well as most of the Gentlemen of N Engl<sup>d</sup> that are here, requesting their Lordships not to advance to the Colonys any part of the money but upon Condition of their Sinking all the Bills of Credit Circulating among them And proposing at the same time that some Coin of Silver should be substituted in lieu thereof. BOSTON NOV<sup>r</sup> 4. 1748

*Sir,*

I am directed by the General Court of this Province, to send your Honour a Copy of the Report of a Committee of both Houses Accepted by the whole Court proposing to have a Meeting of Commissioners from the General Assemblies of the several Colonies in New England to agree upon such Measures as may be most proper, in respect to the Money allowed by the Parliament of Great Britain, to these Colonies in New England, to reimburse them, as to their Charges in the Reduction of Cape Breton; I have also inclosed a Copy of the Bill therein refer'd to, which was projected by Our Assembly the last Winter, before we were at any Certainty about the Payment of the said Money; & therefore must be altered (at least in the Preamble) if it should ever pass into an Act, It is prayed that your Honour would be pleased to lay this Affair before your Assembly, as soon as possible, & let this Government know as early as you can, the Result of your Assembly; that if they should Judge it necessary to set the Meeting at some further day, we may have Opportunity to give seasonable Notice of it to the other Governments. This Government made application to your Honour the last Spring for a Meeting of Commissioners in the same Affair, but had no Answer thereto. It is thought the more necessary that this Affair should be expedited, lest by reason of our Delay, the Parliament of Great Britain should at their next Session take such

Measures, as may prove very inconvenient to these Colonies.

*Gentlemen*

I have rec<sup>d</sup> an earnest Request from Gov<sup>r</sup> Shirley for sending forthwith fifty good Souldiers to Dearfield and Northfield but gives me no other Reason than their having been at great Charge in Defence of their Frontiers. And I recomēd it to your Consideration (who are near and have frequent Intelligence from thence) whether it be needfull for us to be at that Charge at this time.

I have also from M<sup>r</sup> Secry Willard a Copy of the Bill intended for an Act for putting a Period to the paper Currency by borrowing Silver formd last Winter and sent to me in the Spring with a Request for calling an Assembly to appoint Com<sup>rs</sup> as was before moved for. which Scheem I laid before the Assembly in May, and did not perceave any

Disposition to enter into it. , and it seemd to me then and ever since, to be unnecessary and dangerous for us and since our Agent informs that the time and mañer of the Reimbursement is referrd to the L<sup>ds</sup> of the Treasury and that they had two Meetings upon it and adjourn'd again Mr Pelham the head of it being indisposd, intimating they were come near to a Resolution and that on ye 26<sup>th</sup> of August. It seems to me a fruitless (to put no harsher term on it) Undertaking for us to determine how and when we would have this money given us. so that unless you can advise me better I shall spare the Charge of an Assembly

I think it must be thrô forgetfullness or Inadvertency That you say the Assembly had no Answer to an Application made to me for a meeting of Com<sup>rs</sup> on the like Occasion In Evidence where of I inclose to you a Copy of my Letter to Gov<sup>r</sup> Shirley of the 19<sup>th</sup> of March last and an Extract of a Letter of June the 4<sup>th</sup>

And I must add farther That by divers Letters from our Agent E Palmer Esq<sup>r</sup> I am in[ ]ed That the Parliament have referrd the time & ma<sup>n</sup>er of payment of y<sup>e</sup> money for a Reimbursement of our Cape Breton Expences to the L<sup>ds</sup> of the Treasury who mett upon it and adjourn'd and on the 26<sup>th</sup> of August they had made anoth[ ] Ad-

jourment by Reason of their not coming to a Resolution and Mr Pelham's Indispositi<sup>on</sup>, which Resolution is doubtless come into long ere this time. It seems to me to no purpose for us to whom the matter is not left, to prescribe in that Affair

And for us who are in Debt, to increase it, by unprofitable Expences dos not appear to me to be consistant with prudence, altho some say this Gov<sup>t</sup> looses 60000<sup>l</sup> a year in the Senkage of the money for want of having our proportion out yet the pleasure\* of being so much less in Debt is more desirable than the profetts of the Senkage. And our Assembly have directed our Agent That if the Reembursement be paid without Restriction That he putt the money into the Bank. Wherefore I cant without further Advice (which I am seeking after) think it proper to call an Assembly

\*The three preceding words appear to have been substituted for the words "but the burthen."

I have just rec<sup>d</sup> from Mr Secry Willard a Bill for an Act of the Assembly att Boston reviving the Bill they formd the last Winter for putting a Period to the paper Currency by borrowing what money should be wanting (when the Reimbursement should be made) on Interest for 12 years of some Gentlemen in great Brittain and giving it in Exchange for y<sup>e</sup> Bills, desiring me to call an Assembly to appoint Com<sup>rs</sup> to meet Com<sup>rs</sup> from all the Gov<sup>ts</sup> in N England, least the next Parliament should order that matter to our Disadvantage complaing they had mov'd for it the last Spring to which they had no Answer.

But I immediately wrote to Gov<sup>r</sup> Shirley, (wh<sup>ch</sup> was in April) that since our usual Sessions in the beginning of May was so near, it was not advisable to increase our Expences by calling an Assembly and that as to the method projected I doubted not of our Ability to call in all our outstanding Bills when we should be assisted by a Reimbursement and that on much easier Terms than by recovering the Silver borrowed and the Interest upon it when it should be dispersd and the hazard we must run in its coming and returnng and after our Assembles rising I signifyd to him That I had laid their Scheem before our Assembly, but having a rumour that they had rejected it and hearing nothing further from him, nothing was done about it.

And now since you inform me that the time and ma<sup>n</sup>er of payment is left with the L<sup>ds</sup> of the Treasury and they have had two Meetings upon it and Adjourn'd, That a Decision here, will be of no significancy till Beggars may be Choosers I cant yet see it needfull to add to our Expences the Charge of calling an Assembly

The Orders of his Grace the D. of Bedford for publishing the Proclamations for a Cessation of Arms with France and with Spain and Genoa have been duely attended

A Com<sup>tee</sup> are appointed to make answer to the Queries made by yr Lordshipps of the Board of Trade, but they say they cant accomplish it before next May.

Such a Premium as will bear proportion to the Premium for raising Indico according to the Different Value of Silk

## REPORT OF THE ATTORNEY GENERAL AND SOLICITOR GENERAL.

To the Right Honourable y<sup>e</sup> Lords Commissioners of his Majestys Treasury

May it please your Lordships

In pursuance of your Lordships desire Signified to Us by M<sup>r</sup> West in his letter of the 21 Octobr<sup>r</sup> last Representing that your Lordships having had under Consideration the payments of the several Sums granted by Parliamt<sup>t</sup> last Session to reimburse the Several Provinces & Colonies in North America the Expences they have been at in taking & securing Cape Breton to which payment y<sup>r</sup> Lorships were very desirous of giving all proper dispatch and that the agents for the said colonies on y<sup>e</sup> one hand having applied for the immediate payment of the said sums & produced Copys of y<sup>e</sup> powers under w<sup>ch</sup> they Claim the same, & the Merchts trading to New England having on y<sup>e</sup> other hand offered Reasons in a Memorial against such payment and that y<sup>r</sup> Lordships not being well satisfied that what the Agents call their Powers are sufficient Authoritys on which such large sums may legally be issued as well by reason of the dates of some of them being Antecedent to the grants As because they do not appear to be derived from legal acts of Gener<sup>l</sup> assemblys Your Lordships were pleas'd to transmit y<sup>e</sup> said several memorials & powers to Us to take y<sup>e</sup> same into consideration together with y<sup>e</sup> Votes of the House of Commons & Clause of Appropriation & to desire our Opinion wether these Powers are such as to oblige or will in law sufficiently justify your Lordships to Assure the sums without Account, to y<sup>e</sup> Agents respectively; Espesially as the Agent of y<sup>e</sup> Principal Province has refused to give security for Answering the trust in him reposed & Accounting in the Exchequer for y<sup>e</sup> same.

We have taking y<sup>e</sup> said Several papers into Consideration (all which are herewith returnd to your Lordships) & have been attended by the respective Agents & by some of the petitioners in the Petition of y<sup>e</sup> New England Marchts whom we thought it proper to give Notice of this Reference.

As to the Powers to Mr Bollan from the Massach<sup>ts</sup> Bay & to Mr Palmer from Connecticut they are only Votes of assembly; But as they have no letter of Attorney under the seal of y<sup>e</sup> Provinces who are Corporate Bodys by Charter from the Crown & cannot regularly mak Attorneys but under their Common Seal, We are of Opinion that those Gentlemen are not properly Authorized for that purpose. And tho' general Agents have been some times made by Votes of assembly & such Agents have Acted on the foot of such Authoritys which have been Acquiesc't in Yet in a matter relating to y<sup>e</sup> Revenue & y<sup>e</sup> Issuing of large Sums of Publick money given by Act of Parliament out of his Majestys Treasury, we conceive nothing should be done but according to y<sup>e</sup> strict Rules of Law. Nor do we think that y<sup>e</sup> giving security, if offered for due accounting for the money would be a sufficient ground to dispence w<sup>th</sup> those Rules in the present Case.

With respect to Mr Partrige's Power from Rhod Island; As he Produced to Us an Authority under y<sup>e</sup> seal of y<sup>e</sup> Province (a Copy of which was sent to Us from your L<sup>d</sup>Ships) we are of Opinion Your L<sup>d</sup> Ships may be well Justified in paying him y<sup>e</sup> sum Appropriated by y<sup>e</sup> said act to Rhode Island upon his giving a proper Receipt and leaving w<sup>th</sup> your L<sup>d</sup> ships his said Power.

However as the Merchants of New England have by their Petition Represented the inconveniences arising from the paper Credit given in that Province as well as in the Massach<sup>ts</sup> Bay & desired the paym<sup>t</sup> of these sums might wait, till it be seen, what steps wou'd be taken there to Redress that Grievance, Mr Partrige acquainted Us that he was willing the money Appropriated to Rhode Island might be pli'd in the Bank till further Instructions from his Province.

As to New Hamshire, it appearing from an Extract of Captain Tomlinsons letter to Mr West, which he likewise Confirm'd to Us that he cannot produce at present either y<sup>e</sup> Original or a Copy of his Power & representing such power as he has to be only a general power of Agency not adapted to this perticular purpose, We are of Opinion Y<sup>r</sup> Lordships

cannot be justified in issuing to him the money giv<sup>n</sup> to y<sup>t</sup> Province tho from his Character & y<sup>e</sup> General sence of y<sup>e</sup> Merchants We done conceive any doubt of his being their General Agent

Boston January 28. 1748.

*Sir,*

You will have herewith a Copy of an Act lately passed by this Court for drawing in our Bills of Credit, & ascertaining the Rate of Coined Silver. As these Matters affected your Government, We seasonably signified to you our Desire that you would join with Us in concerting Measures to effect them & extend their Operations throughout the several Governments of New England; But failing of your Assistance We could not let slip so favourable an Opportunity of doing them within our own Province: Nor could We In pursuing this Design, avoid prohibiting the Currency of the Bills of your Government among us, at the same time that we agreed to sink our own; Pass'd Experience having convinced us that it is impracticable to keep a Silver Currency among us while a Paper Currency is continued.

It was with great Reluctance that we agreed to any Paragraphs in this Act which affected the Bills of the other Governments, especially those of Connecticut, of whose good Disposition We are so well apprized, as to make no Doubt of your contributing your utmost Efforts towards the Establishment of a Silver Currency at this favourable Juncture at the same Rates we have done, & in such manner as shall be most agreeable to your own Circumstances: And we declare ourselves ready to do every thing reasonable on our Part to cultivate a good Agreement with our Neighbours in pursuing the general Design, which is of so much Importance to the Inhabitants of each Governmt.

In the Name & by Order of the Great & General Court or Assembly

JOSIAH WILLARD SECRETARY

To the Hon<sup>ble</sup> JONATHAN LAWS Esq<sup>r</sup> Governor of the Colony of Connecticut, To be communicated to the General Assembly of the said Colony.

## SAMUEL WELLES TO ROGER WOLCOTT.

BOSTON, Jan<sup>ry</sup> 31. 1748/9*Sir,*

Herewith you have our act for sinking the paper Bills and introducing a more stable Currancy, for which end it was absolutely necessary to prohibit the passing of the bills of the other Governments which had commonly been taken here in trade & com̄erce, & therefore we were compelled to restrain the Currancy of Connecticut Bills as well as those of New Hampshire & Rhode Island, notwithstanding our universal opinion of your much greater moderation & Justice in Issuing & drawing in your bills of Credit.

You have also copy of the letter sent Governour Law to be laid before your General Court, whether he will call the Assembly & do it on this occasion or not, we cannot tell, but imagine it may be of considerable weight to move him if your Hon<sup>r</sup> & the Gentlemen about you shall incline to it, with this view it is, I give you the trouble of this, & perswade myself that if you consider the circumstances of the Case you will think it may be very beneficial that your Court should meet as soon as may be, the uniformity of the Councils & determinations of these two Governments, which are four fifths of New England, will be of great weight to induce the Parliament to give their aid where it may be wanted, & without that, may probably convince the other two small & most enormous Governments, how much their interest & being, depend on some thorough care to redeem their Bills, for if these two Governments shall agree in refusing them, their bills will be immediately wast paper.

I am apprehensive our act will be objected against by two sorts of men in very contrary circumstances, those who are large Creditors or possessors will think more than a mill'd Piece of Eight should be given for forty five shillings old Tenor of the bills, because a great part of the bills were Issued when a Piece of Eight went for but 25/ or 30/ & that therefore the bills Sh<sup>d</sup> be redeem'd at that rate, the other sort of men who are pretty much ingag'd in trade & have little due any long time to them & have a pretty deal

to pay for debts newly contracted, think it hard that they should pay a Debt of 45/ with a piece of Eight which they say will now & has for some time past, been sufficient to pay a Debt of 50/ this (they say) is making them pay ten pr Cent more than is due.

Those things have been much considered & the proportion has, after long deliberation, been concluded on & seems to be considerably satisfactory to the people in Gen<sup>l</sup> both in Town & Country; should it have been set at 25/ or 30/ pr piece of Eight thò it might have been Just in some few particular Cases, yet it would have been most severe & Cruel in ten times as many instances, as most of the possessors have rec<sup>d</sup> their bills when they were between 50/ & £3 pr, oz & had the Court gone to the other extremity & redeem'd the bills at the rate of 50/ for a piece of Eight, it would have been such a manifest partiality in favour of the Debtor that there would have been great danger of Such interposition from home in favour of the Creditor, as might have been very grievous, to procure which, there were divers men, much engaged on both sides the water.

The great thing which seems to require your acting speedily, is, that they may see at home, not only that the bills of Credit in New England will be redeemed, but that a stable Currancy will succeed & be Establisht, this last consideration of a lasting Equitable Medium is the great thing which will encourage them to favour us & do every thing that may render our Efforts effectual, & there is great danger, that the Parliament or ministry will think it proper to delay payment till sufficient provision be made on this head, & therefore as nothing can be done conclusively hereon, so far as it relates to you, but by your General Court, it seems very requisite they should meet as soon as may be.

I hope my good friends in Connecticut will forgive me, that I so often concern myself in their affairs; It is, not only from my affection to my native Country, but from the large proportion of what I have in the world, which lyes among them; I may be mistaken & undesignedly hurt

them, but cannot, wilfully, till I am set against myself; I am the more solicitous in this affair & have been so, ever since it has been in agitation, because, it is not probable there will again, be such another opportunity to end paper money and the only thing, I am at present much concerned about, is, that nothing may interrupt a harmony between your Governmt & this, which designing men, especially those who would be glad to continue paper money, will be very industrious to break or prevent, whether they live with you or with us; but there is no foundation or colour for it, our Interests are the same, that truth & Justice may take place & prevail, that we may save our Estates from being a prey to Rhode Island & New Hampshire Bills, by which they have been sinking & washing away, especially by the exorbitant floods of Rhode Island for almost forty years.

I give you this trouble not merely on my own thoughts the Governr & Gentlemen of the Council desire it, as supposing that if you & the Gentlemen about you shall advise to the Calling a General Court, it will be very likely to accomplish it, & there seems now to be a very convenient season for it, Just before the Circuit of your superior Court begins, and I am afraid, that there are such numbers of men who have found their private profit (tho at the expence of the Public) by the depreciation of the paper bills, that they will lay blocks in the way of our deliverance from the terrible Calamity of paper money, which I Really believe to have been one of the Greatest mischiefs that ever befell either your Governmt or ours, as to our spiritual as well as temporal Interests, for the strange doings about it by all the Governments in New England have tempted people to believe there was no such thing as Justice or Common Honesty, & that such things were only to be talkt of not practised, and as to our temporal Interests, while men could pay £100 with £75, they have been tempted to leave Industry & labouring with their hands & turn Jockys & Hucksters to live by their wits & sharpening upon their neighbours by money they have borrowed & could pay so easily, It would require a volume to represent these things

in all their black colours, & I know you need it not who have such Just thôts on this 'subject, I have written to my Brother & Col<sup>d</sup> Pitkin on this affair, who I perswade myself will readily add their weight, I am with a very high respect

*Sir,*

I have lately received Intelligence (which your Honour will find contained in the inclosed Paper) of the Prepara-

tions making by the French of Canada for the Settlement of the Lands near Crown Point; And I make no Question of the Truth of it, It being a Thing I always expected would be attempted by them immediately upon a Peace; And I look upon the Affair to be of such Consequence as to require the utmost Efforts of the English Governments in every proper way to prevent it: And (besides its being a Matter of general Concern to all his Majestys Colonies on the Continent of America, who may in Process of Time be equally endangered by the Spreading & Growth of the French upon our Borders) as your Colony, as well as ours, will be more immediately affected herewith, I judged it necessary to communicate this Intelligence to you; & to desire you would maturely consider this Matter & let me have your Opinion, What may be proper to be done by the English Governm<sup>ts</sup> (In case the French should make these Incroachm<sup>ts</sup> upon his Majestys Territories) for preventing them before it be too late

*Sir,*

The 11<sup>th</sup> Instant Colo<sup>o</sup> Willard sent a Frenchman to me, who the Wednesday before came to Fort Dummer he calls his name Jean Orange, and gives this account of himself, that seven days before his arrival at Fort Dummer he came from Crown point where he had been for sometime a Soldier, and that he deserted the Service and came to New England with hopes to get home to France from whence he came about six years ago; It's possible he may give the true

reason of his running away, he is very desirous of getting to Boston and having an opportunity to send him along without much charge to the Government, I have ordered him to your Excellency to be disposed of as you think proper. He says there is about an hundred Soldiers now at crown point, no Indians out, and that both French and Indians are in full Expectation of an established peace, also that the French are preparing & intend very soon to come and settle the Lands near Crown point, it seems they little fear the Success of Mr Bollans memorial (if they have ever heard of it) or the Attempts made to procure the Demolition of that Fort, and their removal from thence, our people that have been there one and all represent the Lands East & South of Crown point for a great extent, exceeding rich, valuable & suitable for Settlements.

I had the favour of yours of the 20<sup>th</sup> of february As to his Maj<sup>ties</sup> Territories how farr North or Nor West they extend I do not know, but I understand We are bounded North with your Province and Dearfield lyes about fourteen miles South of Albany and your Colony Line runns thro some part of Northfield so that your Gov<sup>t</sup> and ours are vastly Southward of Crown point We have an Authority to make warr on any that shall invade us and on any not in Alliance with the Crown of great Brittain yet if any Conquest and Acquisition should be made by us against his Maj<sup>ties</sup> Enemies, it would be for his Maj<sup>ty</sup> and not for our selves and had we have taken Canada it had been in the same Predicament with Cape Briton and so would Crown point unless his Maj<sup>ty</sup> should have judgd it to be within his Territories and you by your Agent Mr Bollen have given

Information of the french Ineroachment which is all we can do, since a Cessation of Armes is comāded. I think nothing remains for us but to make our selves as defensible on our own Borders as we can. When this Countrey shall be populated (as god and nature has made it capable of,) it cant be otherwayes but one Kingdome or Gov<sup>t</sup> must be contiguous to another as in Europe and some other parts of the terrestrial Globe I have seen an acct of a motion made for a Tract of unoccupied land in North America (which I guess to be between N England and Canady) by y<sup>e</sup> Settlement w<sup>ro</sup>f the Hospitals and Parishes may be easd of y<sup>r</sup> Poor, and will be a Barrier to us.

Puffendorf in his Introduction to the History of Europe dos frequently remark the Misfortunes of great Monarcks in extending their Dominions too farr.

Mr Secrys of Jan<sup>r</sup> 28<sup>th</sup> I rec<sup>d</sup> february 8<sup>th</sup> inclosing a printed Copy of your Act abt the paper Currency to be comūicated to the gen<sup>l</sup> Assembly. to do so is my steady practice whenever they meet, but on Monday last Gov<sup>r</sup> Wolcott mett with a Letter at my house (brōt by Coll<sup>l</sup> Jos: Pitkin) from M<sup>r</sup> Wells urging (and as he said by the Motion of y<sup>e</sup> Gov<sup>r</sup> and Council) to call an Assembly here forth with. I asked the Advice of the D. Gov<sup>r</sup> Gentlemen of the Council and had but one hand in favor of it. so I leave it to usual Sessions

I had some time before a Motion made by M<sup>r</sup> Secry and on the 2<sup>d</sup> of Dec<sup>br</sup> by yours of the 28<sup>th</sup> of Nov<sup>br</sup> for calling an Assembly to appoint Com<sup>rs</sup> to conferr on your Bill for putting a Period to y<sup>e</sup> paper Currency On which I signifyd to you on the 6<sup>th</sup> of Dec<sup>br</sup> That it not agreeing with my Sentiments, I had sent to the D Gov<sup>r</sup> and Gentlemen above for y<sup>r</sup> Advice and had rec<sup>d</sup> none: since which I have had Advice from M<sup>r</sup> Palmer That he had petitiond y<sup>r</sup> L<sup>d</sup>shipp for the i<sup>m</sup>mediate payment of the one third part and tenderd Security as they requird yet the payment was delayd, the cause whereof he knew not. Also That the Charge of the Canada Regiment being left to one of the Paymasters & Secry of Warr, they had made no Report thereon Your Excellency

having signifyd to one of the Secrys of State That you would give an Acct and had not done it.

As to our depreciating Medium I am not insensible of the Injustice of it and am a Sufferer by it to as high a Degree as any one of no better fortune, yet I am perswaded, it would be no difficult thing for this Govt when advantaged by the Reimbursements justly due to us to senk all our outstanding Bills if those who take Benefitt by the depreciating of them be not too numerous for those more honestly inclin'd, be sure the Council have alwayes shewn their Zeal for any proper Measures for reducing the publick Debts.

The Motion came too late for calling an Assembly before the Circuit and a little time will bring May Court where I flatter my self some proper Measures will be taken for removing the present Difficulty and establishing a stable Medium of Trade

I wrote your Honour of the 13<sup>th</sup> March (Copp<sup>y</sup> of w<sup>ch</sup> has been forwarded) acquainting the Colony w<sup>th</sup> the Steps I had taken to Oppose y<sup>e</sup> passing of a Bill bro<sup>t</sup> into parliament for Regulated and restraining Paper Currancy, For inforcing the Kings Instructions to his Governours, And Impowering them to put a Negative upon all Laws made in the Charter Governm<sup>ts</sup> as well as those under his Maj<sup>ty</sup>s immediate Commission; And I have now the pleasure of Acquainting you that I have so far succeeded by my Petition as to procure a total suppress of the two last Clauses and the Colony may relye on my best endeavours to have the whole Bill laid aside at least so far as regards Connecticut, It is now under consideration of a Committee of the House of Commons before whom I am to be heard by Councill.

I presume Your Hon<sup>r</sup> is not unacquainted that the Province of Massachusetts have been pleased to join me in a power or rather Act of the General Court w<sup>th</sup> two other Gentlemen for receiving the money Granted by Parliam<sup>t</sup> for their Expences in the Reduction of Cape Breton, Also to Solicit an Act for Obliging all the Colonys to call in their

Paper Currey & prevent yr Issuing any more of the like nature for the future; But as I did not think it Consistent w<sup>th</sup> my Character as Agent for Connecticut to accept of the last part of the Tract without your Leave I have Declin'd Acting therein.

I have to Apprize your Honour of another Affair now on the Tapis which in my Opinion very Greatly Concerns all the Colonys in America but more particularly those whose Affairs of Governm<sup>t</sup> are in the hands of Dissenters from the Establishd Church And that is a Scheme w<sup>ch</sup> is on Foot for sending Bishops among you w<sup>ch</sup> are to be created on purpose; This the present Bishop of London has very much at heart, and as it is a Matter w<sup>ch</sup> so plainly speaks its own Importance I flatter myself I shall not be tho<sup>t</sup> over officious in bearing the strongest Testimony (as Your Agent) against it. Being a Measure which has so Direct a Tendancy to Introduce Ecclesiastical Tyranny amongst a people whose Ancestors have so severely felt the bad Effects of it as ours have done — I have given y<sup>e</sup> Alarm to our Brethren on this side the Water who as a Body have Deputed Doct<sup>r</sup> Avery & myself to attend fur Great Men upon the Affair and I can assure you that for the present a Stop is put to it. And as I am resolutely determined, to prosecute the Perpetrators in my Government, who were Accessaries to it, to the utmost rigour of the Law; I am persuaded that the inviolable Friendship, that has subsisted between us, the Abhorrence that must naturally affect your Breast, & the Dignity of Governours (which should indispensably be supported) will incite your Honour to make strict enquiry into the Affair & prosecute so Notorious a Villain, which I have the strongest reasons to imagine him to be, & that he was conscious, (at the same time he did it) that he knew who she was, and notwithstanding was so mercenary to perform the Office.

I desire, in justice to me, that you will immediately proceed against him, according to the Salutary Laws, against clandestine Marriages in your Government; & send me by the very first oppertunity, what informations you can possibly procure in the Affair, properly sworn to, that they may appear as corroborating Evidences, against the Parties concerned in my Government.

It is not only my paternal resentment, but the Laws of Nature, the Indignity to Governours, & the prevention of the like villainy, which spur me on to crie aloud for Justice, which I make no doubt you will assist me in, in an Affair of such importance.

I am S<sup>r</sup> with great regard

COLONY OF CONNECTICUT TO THE BOARD OF TRADE.

May it please your Lordships

We have rec<sup>d</sup> your Queries directed to the Gov<sup>r</sup> and company of this his maj<sup>ties</sup> colony of connecticut and in answer thereto inform your Lordships

I the Scituation of the Colony as hath been found by repeated & careful observations is between 41 & 42 degrees of N Latitude and about 71 of Longitude from London the three most considerable rivers in the colony are connecticut Stratford and New London river the two principal branches of which Last mentioned river are called Quinnebang and Shetuckett tis bounded Southerly by the Sea or Sound near which and by the rivers the Soil is more

fruitfull but the greatest part of the Land is mountainous and rocky the climate is very cold in winter and hot in Summer

2 the Colony is bounded Southerly on the Sea or Sound Easterly on Rhode Island westerly on Newyork north on the Line of the massachusetts colony

3 as to the Constitution of the Governmt the Legislative power is by the Royal charter vested in the General assembly which consists of the Govr or in his absence the D Govr and 12 assistants (whereof the Govr or deputy Govr & 6 assists are a quorum) & representatives from each town not exceeding two all which are chosen by the freemen of the respective towns the Govr or deputy Govr and assistants are calld the upper house the deputies or representatives the lower house without the concurrence of each house no act is passd they make Laws institute judicatories appoint judges & other necessary officers who before they enter upon their respective offices are al sworn they meet twice in each year viz in may & october & oftener if calld together by the Govr on any emergency

4 the trade of the colony is not Large; horses Lumber & Some provisions are exported to the west india Islands from whence we receive in exchange Sugar rum molases Salt & Some bills of exch: what provisions we can Spare are principally Sent to Boston Newyork & Rhode Island to pay for european goods which we have mostly from thence though of Late we have had Some quantities of goods imported directly from great brittain which trade we are endeavouring to cultivate as to the number of Shipping & Seafaring men we must refer you to the acct from the Collector and naval officer which we herewith transmit and which is Sent quarterly to the commissioners of the customs

5 our inhabitants take annually of the british manufactures all Sorts of woolen cloath Silks Scythes naills glass pewter brass firearms & all Sorts of cutlery ware the quantity we cannot ascertain

6 We have at present no trade with any foreign

plantations though before the Late warr we had Some few vessels that went up the mediterranean with fish with which they purchas'd bills of exch: and brought the effects home in british manufactures

7 the methods us'd to prevent illegal trade are a Strict conformity to the acts of parliament relating thereto by the collector and Naval officer which we conclude are effectual

8 the produses of the Country are timber English grain indian Corn flax hemp tobacco horses cattle Sheep Swine, Some Small quantities of each of which are annually exported as before mention'd our manufactures are inconsiderable our people being generally employed in clearing and tilling the earth Some tradesmen there are as tanners Shoemakers Taylors joyners Smiths carpenters &c without which we could not Subsist

9 There are Some copper mines but proving unprofitable are wholly Laid aside Iron ore hath been found in Sundry places and improv'd to good advantage

10 the Number of our inhabitants of both Sexes & all ages are computed to be about 70000 whites and 1000 blacks and they are greatly increased within the ten years Last past which we attribute (under the divine blessing) to a wholesom air industrious Life & frugality in Living

11 the militia are computed to be about 10000 reconing from 16 to 50 years of age

12 we have a battery at New London in which are 9 guns mounted, and in our most exposd frontiers many fortifications to Secure the people from the insults of the enemy

13 the indians among us are about 500 in all they are naturally inclin'd to idleness and excessive drinking but the great pains that hath been taken to instruct them in Literature and in the christian religion Seems not to be altogether in vain

14 There are no indians that border upon us the Six nations So call'd are the nearest who Live partly in New-york governmt and partly westward of it

15 The Spaniards have no Settlements nearer to us St Augustine the french at Canada though not very near have been very troublesom especially Since they have built a Strong fort on this Side the Lake at a place call'd Crown point from which they with the indians very often make excursions and distress our frontiers & those of Newyork & the Massachusetts which occasions a great expence in garrisoning them

16 The Annual Revenue by Rates and duties in time of peace amounts to about £9000 in bills of credit about 2000 of which is Expended in the Support of Schools for the education of youth the remainder for the Support of Government Since the commencem<sup>t</sup> of the warr our expences have been vastly greater

17 Our civill Establishments are 1 a Superiour Court Consisting of one chief judg and four assisting judges this court Sitts twice in the year in each County in which are try'd all high crimes and misdemeanors and civil actions that come to them by appeal from inferior courts

2 an inferiour court in Each county consisting of one chief judg and three or more justices of the Quor<sup>m</sup> who Sit twice in the year and oftener if occasion requires for the tryal of delinquents and Civil actions in all these courts matter of Law is determined by the court & matter of fact by a jury

3 in Each town are one or more justices of the peace for Conservation of the peace and tryal of small causes

The militia is divided into thirteen regiments the officers in Each are A Col<sup>l</sup> Lieut<sup>t</sup> Col<sup>l</sup> and major and in each regiment is a Troop of horse all the officers both Civil and Military are approved by the Gen<sup>l</sup> assembly and commissioned by the Gov<sup>r</sup>

*Gent.*

I am extremely concerned to have Occasion of writing to you upon so Melancholly a Subject as the Decease of my dear Friend M<sup>r</sup> Eliakim Palmer who was very soon Snatched from us in the prime & Vigour of Life, after about 9 or 10 Days Illness only. it was but this Day 3 weeks we had agreed together to set out on the 13 Instant for Berkshire upon an Invitation from M<sup>r</sup> Theobalds, to him and M<sup>rs</sup> Palmer M<sup>rs</sup> Norris and my self to spend a few days there, which was put off on Account of M<sup>r</sup> Palmers being taken ill on the 9 of May. He dined with me that Day (being particularly Invited on Account of its being his Wedding Day) was very Chearful 'tho Complained of Illness, went from me early and went to Bed, had a Low Fever of the Nervous kind attended with a Lax, but from which we did not Apprehend any great danger 'till the 16 at night when the first Appearance of a Delerium came on,

---

\* This document is evidently the original report of the committee of the Assembly by whom it is signed. As transmitted to England, it was probably signed by the Governor or Secretary or both of these officials.

'tho did not Continue Long. for about  $\frac{3}{4}$  of an Hour his Reason came on (say Returned) he was sensible of what had happened and Apologized with his usual Good Nature for it and hoped he had hurt no Body. On the 17 at Night it Returned again with greater Strength, after which He had only Some short Intervals of Reason and departed this Life on the 18<sup>th</sup> at 6 in the Evening—greatly Lamented by all his Family and his Friends—till the 16<sup>th</sup> He Continued 'tho ill to give his Instructions to his Book keeper Concerning Affairs of Business, with the same Calmness and Perspicuity as at other Times. On the 16 in the Morning He thought Himself worse than we Apprehended him to be, which I Collect from his Recommending to Mrs Norris and me That We would be kind to Mrs Palmer and his Little Folks and take Care of them. A Recommendation, that I shall endeavour to pay such a Regard too, as is Becoming the Friendship which Subsisted between us and which I owe to his Memory. He has left one Son and Mrs Palmer about 6 Months gone with Child, which makes the Circumstance of her Loss Still more Affecting to her, and Renders her incapable of Attention to Business or writing of any kind, therefore Rely on your Indulgence & Good nature for her excuse in not writing on so Tender and Melancholly a Subject. She desires however I would make her due Compliments of Condolences to you and the Good Family on this mournful Occasion, I do it therefore in Obedience to her Request, with a Becoming Concern for the Loss of our Friend. As our deceased Friend was Agent for the Colony of Connecticut, likewise Concerned in the Agency for the Colony of Massachusetts and Laboured very truly and Carefully for the Interest of those affairs, wherewith he was Intrusted and had by far the greatest Burthen thereof fall to his Share, and indeed his diligence therein Brought on him this fever that deprved us of him, I hope you will think of the Family so far, that if any Share of that Commission, likely to have Accrued to our deceased Friend had he Lived can be procured for the Benefit of the Family you will be so Good to use your endeavours towards procuring

it. I mean that as the Money that has been solicited for here, may come to be paid by parliament & is to be laid out in some shape or other, probably in purchase of Spanish Silver, so the Commission arising therefrom would have in part come to Mr Palmer had he Lived, and indeed he has earned it dearly. Therefore whoever is Appointed to Succeed him in the Agency may be directed to allow the Family (or Estate of Mr Palmer) such share thereof as the Colony thinks proper and due to his Services. And if the Colony pleases to make that a Condition with a future Agent, No doubt but they may. And I think no Reasonable Man can Repine at such Conditions. Time will not permit me to add further, as I expect Mr Lechmere every minute, for this and the Rest of our dispatches, which he has kindly promised to take care of, and safely deliver to you. But from the short hint I have given you about procuring some Benefit to the Estate I doubt not your kind endeavours. I beg you will believe me to be very truly

*Sir,*

The Occasion of this Letter is to acquaint your Honour, that there are now in Boston nine Indians, six of the Penob-

scot Tribe & three of Norridgewalk, w<sup>th</sup> whom I have had divers publick Conferences, who declare themselves to be sent hither by the Indian Tribes of St Francois & St John's River, as well as their own, and impowered by those Tribes to assure us of their Disposition & Desire to make Peace with the English Governments, and to appoint a time of Meeting for such Treaty; And I have accordingly appointed the 27<sup>th</sup> of Sept<sup>r</sup> next for the time of their Meeting us at Falmouth in Casco Bay. And as this Government apprehends that it will be of great Advantage for the Success of this Affair, that all the neighbouring Governmts concerned in the late War should be represented by their Commiss<sup>rs</sup> at this Treaty, I desire that your Honour would please to send Commissioners from Connecticut to join in these Negotiations in behalf of your Colony. As it has always been the Custom to make Presents to the Indians upon the Conclusion of the Treaty, We have provided for such Presents as we judged necessary for our selves. I shall write to the Governours of New Hampshire and Nova Scotia.

Being infomd by our Agent Eliakim Palmer Esqr That the Obstructions which lay in the way of his receiving ye money granted by Parliament for reimbursing our Cape Britton Expences were his want of a special Authority under the Seal of the Govt and our Bills being outstanding

Our Assembly have agreed to give such an Authority and to appropriate the money granted, for the calling in the sd outstanding Bills and to levy three Rates in the years 1751, 1752 and 1753 which will be sufficient to call in all our Bills and to appoint a Comtee under Oath to burn and destroy them and all Fines Fees and Penalties to be establishd in Proclamation money

I have already wrote your Excellency to favour me with the Reason why you judge great Abatements ought to be made on our Expences in the intended Expedition against Canada and on our Regiment which I hope you will not fail to pleasure me in In great sincerety I Subscribe

FORT GEORGE July 3<sup>d</sup> 1749S<sup>r</sup>

Inclosed I send you a Copy of a Letter from Coll Marshall, which confirm me in the conjectures I have had for some time, that the French are preparing for a Rupture with us, in North America, which probably is to begin, by their falling on the Indian Nations which join'd us in the War. If we do protect them we loose all the Indians, who from thence forward can place no confidence in us, and if we do protect them a rupture may be the Consequence. The French Governours you know have great advantages over the English, by the difference of Constitution in their respective Governments: I am absolutely disabled from doing any thing at present.

You will too plainly see from the enclosed Copy of Mr Cummins Affirmation, and Mr Woolastons Affidavit, to what degrees of fury some mens spirits are raised, Oliver DeLancey soon after he had done this wicked act, fled & has escaped all the Search that could be made after him. The Wound enters above the right pap, and descends directly downwards, so that it could not have been given by a thrust, but by a Stab after Dr Colhoun was down; While Dr Colhoun was in danger, I could not so properly take notice of his Offence against me, but as we have now hopes, I last Saturday introduced the enclosed Evidence, and the Council has ordered the Attourney General to prosecute Oliver DeLancey according to Law

ALBANY 23<sup>d</sup> June 1749*Hon<sup>d</sup> Sir,*

I take this opportunity to let you know that I received the Inclosed Letter from the Commander of Crown Point this Morning & the Serjeant & five Men goes away Tomorrow, I thought it was proper to let the Officer know that I received this Letter; I send your Excell<sup>y</sup> a Copy of my Letter to him which I hope you won't disapprove of, & as the Serjeant told me that Peace was not proclaimed in Canada & as I had a Proclamation by me, I sent it Inclosed to the Officer of Crown Point; in asking the Serjeant sev<sup>l</sup> Questions I desired to know which way he thought these Six Indians were gone, he told me he thought they went Schaghkooke way, if so its thought they will cut off some people there, which if they do every Body that has lately settled will leave their Farms again. These two New England Men that came with the Serjeant & Party told me that they saw an Army of near One thousand Men March in Different Bodys from Canada this Day three weeks, Steering their way for Bille' Rivier the back of Philadelphia in order to prevent the English from Settling in those parts, so I thought it my Duty to acquaint you of it; these Men went from the Gov<sup>t</sup> of Boston last March in order to get some of their Prisoners but without Success, for they have not brought one, for they said the Gov<sup>r</sup> of Canada told them that he would not part with one Prisoner, till all his Prisoners were given up to him.

I had like to have forgot these Men told me that they heard at Crown Point that there was a party of thirty Indians fitting out at Otterskill, which is about three Leagues from Crown Point, but whether they was prevented he cannot tell, & am with the greatest respect

City of New York } ss. Thomas Cumming of the said City being  
 of the people commonly called Quakers being

 truth that on Fryday Afternoon about the hour of five, he  
 this Affirmant together with one John Woollaston a Gentle-  
 man lately Arrived from London called at the house of  
 Andrew Ramsay a Tavern keeper in this City to Inquire  
 for a Gentleman with whom they intended some real

Business, whose Name this Affirmant did not then know (but has since learnt was one Hopkins from Virginia) & as his Name was not known at that time to this Affirmant or to the said Woollaston (to the knowledge or belief of this Affirmant) they Inquired for the Names of the Persons in Company with the said Oliver De Lancey, having heard he had been in his Company, And were Informed that David Johnson was one, whereupon they bid the Drawer call him to them at the Door, & thereupon Mr Johnson came to the Door, & Informed them that Mr Hopkins was gone, & they upon being Informed so proposed to go from the house, that Mr Johnson Endeavoured to perswade them to go into the Company, which they Declined, & he finding he could not perswade them took hold of each of them by the hand, & w<sup>th</sup> one of them in one of his hands, & the other in the other hand, he in a friendly Manner pulled them into the Room where the Company was, which was a few paces distant from the place in the Entry where he first took hold of them.

That this Affirmant & Woollaston were Seated & saw in that Company Oliver De Lancey, the said David Johnson, Philip Vanhorn & one other person unknown to this Affirmant, whom he afterwards found to be one William Rickets, a Gent<sup>n</sup> of a Great Estate who lived in New Jersey.

That he this Affirmant readily perceived they were all a little Intoxicated with Liquor, & does not particularly recollect any thing that Passed for about or near Ten or Twelve Minutes, about which time Doctor Alexander Colhoun Entered the Room, & that at this Affirmants' first View of him he saw that he was very much disordered with Drink, & with many Staggerings, & other Symptoms of a Drunken Man, Seated himself in Company; & this Affirmant cannot with any certainty say whether Oliver De Lancey or Dr Colhoun or which other of the Company began first to Quarrell, for a[ ] were speaking, & in a seeming Confusion except Woollaston & this Affirmant, And [ ] that the first thing which Excited in him a Close & Concerned Attention was Oliver De Lancey's delivering himself in a very warm manner in Expressions to [ ] And in Sub-

stance, & as near as this Affirmant can remember in these words following to wit, By God I say the Govr is an Arrant Villain, Scoundrel & Rascal, I call him so, & so are all & every Man who takes his part Villains, Scoundrels & Rascals & Doctor Colhoun, who could scarce speak Intelligibly, thereupon told the said Oliver he ought to behave with good Manners, Oliver replied Damn you, Sir, what are you to teach me Manners? This is the Second time you have told me to speak and behave myself with good Manners this afternoon. Sir, Added Oliver, I say the Govr & every Man who keeps his Company are Villains, Scoundrels & Rascals, &, Sir, I beg you would go & tell the Govr I call him so, And further Added that if he could any way Bribe him the Doctor, or any other person to Inform the Govr what he said, he would Bribe him or them to deliver the Message, & this Affirmant remembers nothing more distinctly than that the Doctor said well Sir, very well Sir, what the Divil have we to do with these things here, why should we disturb the Company with this Talk? there is another time, Sir, for that, & Oliver seemed satisfied to be Silent, but in a few Minutes Exclaimed as above, again against the Govr, the Mayor & all their Adherents in the above mentioned Expressions, And told Doctor Colhoun on his rising from his Chair & Endeavouring to leave the Company that he might go away & be Dammed, for that if he (the Doctor) or any other person whatever, could not bear to hear the Govr Mayor & their friends called Villains Scoundrels & Rascals, he nor they should not Enter at any time into any Company where he should be, for that in all Companys & to all people at all times he would call them so: That the Doctor went out of Company, & David Johnson (who had either gone out before, or with, or soon after the Doctor, but which he the Affirmant cannot remember) very soon & in a few Minutes came into the Room without the Doctor, & beckoned or called to Oliver, who instantly went out, but Johnson sat himself down in the Room, & soon after Oliver De Lancey came into the room holding the Doctor by the hand, & both placed them-

selves as before, & Oliver then asked Johnson whether he Oliver had given any Toast in Company which had given any Offence to the Doctor, & David Johnson thereupon Denied that he had told Dr Colhoun so, Oliver De Lancey asserted that the Dr had Charged him with it at the Door, & the Doctor said they Misunderstood him, & remembers he could make no Sense or Meaning of what the Doctor said.

That a great wrangle & noise Ensued, & what the Doctor said to Oliver De Lancey or he to the Doctor, he the Affirmant could not hear, nor can he Declare only that Oliver De Lancey soon after Quitted the Room & house, & the Doctor Endeavoured to follow & one of the Company privately, & without the Doctor's knowledge took his Sword out of his Scabbard, & kept it concealed from him for some time, but the Doctor perceiving his Sword was gone, Searched for it & had it returned to him. That in a few Minutes after Oliver De Lancey had left the Room, a Negro Man came to the house & called for Doctor Colhoun, & said he was sent by Mr De Lancey to desire Dr Colhoun to come to Mr De Lancey's house Directly. That this Affirmant & the rest of the Company once more Endeavoured to prevail on the Doctor not to leave them, but after a while they all Desisted, perceiving his obstinate Resolution of going, & he, the Doctor, then left the Room & house of Ramsey; That soon after he was gone this Affirmant went to Mr De Lancey's house with David Johnson to prevent any Mischief which might Ensue, & got there before him, & found Mr De Lancey with a Cane or Stick in his hand at or near the Gate at the Street Door of his house in the Broadway, who asked them where the Doctor was & said he was affraid he would not come, but in a very short time the Doctor came & opened the Gate Door at the Inside, & appeared to them to have Entered at the back Door of Mr De Lancey's house, & in a Laughing humour said hah: Gent. are you there, that thereupon Oliver De Lancey immediately shoved or pushed this Affirmant & David Johnson from the Gate into the Street, & pushed the said Doctor Colhoun into the yard, & shut & Bolted the Gate at the Inside, whereupon David

Johnson got into the house thro' one of the front Parlour windows & came & opened the Gate for this Affirmant, who went in immediately, & he & the said Johnson were Informed by one of the Maid Servants that her Master was in the house, that this Affirmant & David Johnson went into the house & found the back Parlour Door shut which Johnson forced open & they both Entered in & there saw the said Oliver holding Dr Colhoun down by or near the Throat with his the said Oliver's Left hand on a Chair with a Drawn Sword in his Right hand pointed to the Body of the said Doctor Colhoun, And as soon as he the said Oliver saw the Affirmant & David Johnson, he let go his hold & Quitted the Doctor & lay down his Sword & came up to them & said Twice, By God I believe I have killed him, & sev<sup>l</sup> times called upon this Affirmant to get him his horse, & to help him on with his Cloaths & said that he must fly, that this Affirmant told him they must have a Doctor, & went & called Doctor Schuchburgh to Assist Dr Colhoun, & also went at Dr Schuchburgh's request to the Fort to fetch one Dr Bowler, a Surgeon, to his the said Schuchburgh's Assistance

I rec<sup>d</sup> some time since an Acct of some Difficulty grevous to you on Acct of a clandestine Marryage performd in this Colony which our law putt's a penalty on him that adventures to act contrary to the provision made in it but it dos not fall within my Province to intermeddle in it, I thôt I should have opportunity in a little time to recomēd it to them who were imēdiately concernd to rectify such Disorders, which I recomēd to some in Authority in that quarter of ye Govt who said it must comēce by the presentment of Grand Jury men to whom the Evidence should be sent and ye matter prosecuted by some Complainant Examples of this nature had been too frequent in your Govt and they could not believe the Minister had any Suspicion that ye person offering herself, had been so nearly related to your Excellency and that some Gentlemen from New York did not believe it so grievous to you but for some special Circumstances you shewd your Resentments so thrô Hurry of business I neglected to write any thing abt it.

As to yours rec<sup>d</sup> Yesterday I am very sorry to hear of the difficult aspect on the Circumstances of your Gov<sup>t</sup> and the dangerous Consequences which may follow thereon, some time ago I had an Acc<sup>t</sup> from Gov<sup>r</sup> Shirley That by a Deserter from Crown point he learnt That the french designd a speedy Settlement of the Countrey about Crown point by which meanes they would be greatly advantaged to distress our Northern Settlements and very lately of a mans being killed and a lad taken Captive at N<sup>o</sup> four which look<sup>d</sup> as if the Indians were begin<sup>ing</sup> Mischief upon us. but Cap<sup>t</sup> Church informs me that by a flagg of Truce's Acc<sup>t</sup> from Quebeque it was probably only a private Revenge of some who had Relations killd by this man when they came against that ffort in warr time and the number of french people coming up St Laurence may be for the present, only to settle that Countrey and not any imēdiate View of Disturbing our Indians.

The Acc<sup>t</sup> we have of the Disatisfaction given to the french by our Settlement of Nova Scotia and of their building a fort at St Johns in the Bay of Fundy and what they are doing at Tobago &c makes things look darkly, yet as Affairs shall be settled between the Crowns of great Britain and France their Dependants may expect to fare in some measure. indeed the part they may take in the Quarrells in the North, and the great preparations making in ffrance specially in their maritime Armaments, (of which your Excellency is better acquainted than I can pretend to) give cause of fear that the Reign of all the bad Planetts are not over. and our Dependance must be in him who governs the world in infinite Wisdom. And as I signify<sup>d</sup> to Gov<sup>r</sup> Shirley I knew nothing we could do but make our own Borders as defensible as we could since a Cessation of Armes against the french was comāded and thō we might withstand all that invaded us and make warr on any not in Alliance w<sup>th</sup> the Crown of great Britain yet if we made any Acquisition from their Enemies, it would be for the Crown and not for our selves and had we have proceeded and taken Canada it would have been in the same Predicament with Cape Britton, so now to you

S<sup>r</sup> if your Authority (<sup>w<sup>ch</sup></sup> is so much greater than mine) will not answer among your people, what can I expect?

I have heard you took a Sail up the Sound and had not contrary winds prevented, would have given me the Opportunity of some personal Acquaintance of which I should have been excee[ding proud\*] and that I might not be further tedious I abruptly break off [I and with\*] highest Regards Subscribe

I admire how it Came out in Such form, it Seems to me to be a mistake. A vote was passed all Should be in Proclamation money but no Such thing is mentioned in ye Act.

Massachusetts Assembly have Considered our Act about the Townships and Refuse any Compliance with ours and answer pretty Smartly and if any mischief happens upon it that we are agressors and I Suspect too much of truth in it, but I must send to ye Dep<sup>t</sup> Gov<sup>r</sup> and m<sup>r</sup> Secry<sup>t</sup> for materials to State ye Case upon to our Agent, and must Ask ye Advice of ye D Gov<sup>r</sup> upon it and if it Cant be Completed before I can have ye advice of ye Assembly Should not be Sorry, Gov<sup>r</sup> Shirley has Appointed a meeting with the Penobscutt and Norrigewalk Indians at Falmouth and Com<sup>rs</sup> from Massechusetts New Hampshire & Annapolis on ye 25<sup>th</sup> of September to make peace with ye Indians and would have Com<sup>rs</sup> from hence also, I remember we were Desired by Lt Gov<sup>r</sup> Phyps to Proclaim warr against those Indians as they Did, but did not think it proper, we Comply with ye Gen<sup>l</sup> Peace order'd by his Majesty. Mr Levit Who brings you this is urgent with mee to write to your Hon<sup>r</sup> Respecting the line between us and the Massachusetts that matter being left Wholly with your Hon<sup>r</sup> I Would have put it off but upon his Importunity have yielded to it

If I Remember well the act of our Assembly is that if they do Not Join in with Com<sup>rs</sup> you send the Case home &c; I understand they have not Apointed Com<sup>rs</sup> but are on a designe to have the former Agreement Confirmed by the King before we know any thing of such a Motion. I think the Motion made to them by our Assembly was very fair and that we Inferred an Answer rather Than an Endeavor to surprize us and that in this Case your Hon<sup>r</sup> may well Consider if the act of our Assembly be not a full Direction to you to prevent it by Informing the Agent what state this Case is in and our Danger of being surprized by such a motion from them and thereupon to Instruct him that if

any such motion should be made to opose it and pray that we may have time untill we Can fully state the Case before His Majesie this is the more reasonable to be Granted because our unpreparedness at present proceeds from our Waiting upon them for an Amicable settlement of the line between us according to Right

by a Letter this day Rec<sup>d</sup> from Mr Walley I am informed that their Assembly has returned their Thanks to Dr Averie and Mr Palmer for their preventing a designe to put these Desenting Collonys into a Bishoprick: this designe he tells mee was Cett on foot by some restles Chhmen in this Collony and that of the Massathusetts and your Hon<sup>r</sup> knows best what reflections to make upon it in your Letters to the Agent your Hon<sup>r</sup> Will not suffer my freedome in writting to Cause mee to Loose the pleasure of being Esteemed

I have y<sup>e</sup> fav<sup>r</sup> of yor Hon<sup>rs</sup> Lett<sup>r</sup> of y<sup>e</sup> 25<sup>th</sup> of July ult. which is before me and have to say, that upon perusing all y<sup>e</sup> Acts of Parliament which Respect Greenwich Hospital (that I Can a present Come at) I find nothing to accrue to that Hospital upon Prizes made either at Home or in the Plantations, Except where Persons have Deseerted His majestys Service or have not made Legal Demand off the Agents Impowerd to Sell Prizes for any Company of Captors, within three years, and in these two Cases the Right or Share of Such Person goes to the benefit of Greenwich Hosp<sup>l</sup> by Act of P. in y<sup>e</sup> 17<sup>th</sup> year of the Reign of G. y<sup>e</sup> 2<sup>d</sup>.

the Act pointed to by y<sup>or</sup> Hon<sup>r</sup> of the 7<sup>th</sup> & 8<sup>th</sup> of W<sup>m</sup> y<sup>e</sup> 3<sup>d</sup> I Can't get a Sight off; perhaps that may Intend Seizures & forfeitures in Cases of Illicit Traide; and not Captures from the Enemy, adjudg'd so by Court of Adm<sup>ty</sup> and Decree'd to Owners, & Captors as in y<sup>e</sup> Case aluded to.

Where His Majesty hath Erected a Custom House there y<sup>e</sup> Acts of Parliam<sup>t</sup> Require a N. BOSTON August 21. 1749

*Sir,*

Mr Moulton is a Messenger sent hither by his Excellency Gov<sup>r</sup> Wentworth, for the apprehending one Humphry Pooler of Dover in New Hampshire, who is suspected to be concerned in the Villanous Letters sent to Jotham Odiorne Esq<sup>r</sup> of that Province, demanding a Sum of Money, and threatening Destruction to his Person & Estate in Case of Refusal; Which Pooler has made his Escape out of that Province: And as I can get no Intelligence of him in this Province, and as he may be somewhere in your Government, I do hereby at the desire of Gov<sup>r</sup> Wentworth request your Honour to assist the s<sup>d</sup> Moulton or other Person that may be sent on this Affair that every thing may be done for discovering & apprehending the said Pooler, if he may be found within your Colony. It will be of singular Advantage to all the Colonies, now this kind of enormous Wickedness is broke out among us, to have some of the Actors made a publick Example for the deterring of others.

NEW HAVEN Oct<sup>r</sup> 27 1749

Sir

On the Malancholy News of the Death of our very worthy Friend, & late Agent Eliakim Palmer Esq The Governour and Company of the Colony of Connecticutt, in the present General Assembly, have unanimously made choice of Yourself to be Agent for this Colony in his room: Which trust we encourage ourselves you will Accept, from the friendly disposition & readiness you have always expressed to serve our Interest & to afford your assistance to M<sup>r</sup> Palmer in our affairs, which we very gratefully Ac-

knowledge, and especially *you will find by an Act of This Assembly enclosed*, We acknowledge The Care you expressed for This & other Colonys in America *by the concern you have shown for our religious Interest* in an affair so Important as that of putting a stop to The Sending a Bishop among us.

I have inclosed the Acts of the Assembly of this Colony appointing you to the General Agency, & special Appointments to receive the Allowances of money granted for reimbursing the expences of this Colony in taking & Securing Cape Breton; & what may be made for our expences in the late intended expedition against Canada: with proper Instruments of Procuration made out accordingly, & I have enclosed duplicates of the two last agreeable to intimations from Mr Palmer, that they might be needed.

The Allowances of Money that are or may be granted for the reimbursments aforesaid you will find fully Appropriated for the calling in & Sinking the now outstanding bills of Credit of this Colony; & The Act for that purpose made & past in May last, with the Additional Act of this Assembly is inclosed: And now I am on the Head of our paper currency, would observe to you that his Grace The Duke of Bedford hath Signified his Majesty's pleasure, That this Colony should order Accounts to be Sent him of The tenour and Amount of all the bills of Credit which have been Created & issued by this Colony; with the times fixed for the calling in, & sinking them & the funds appropriated for that purpose; and Accordingly a Comittee is appointed to prepare the same, & I am desired to inform his Grace thereof, & that with all convenient speed it will be prepared & Sent; but in the mean time we hope that the method proposed in the last mentioned Act will Sink & discharge our now outstanding bills of Credit much sooner than the times fixed for that purpose & the funds before laid will do it; & Accordingly have enclosed a Letter to his Grace to that purpose, which you will please to deliver. I have likewise enclosed the order of this Assembly to the Executors of Elikiam Palmer Esq. to deliver into your

hands all the papers and, Letters &c belonging to the Colony now in their Hands: by which you will be informed in the general State of our Affairs. The Accounts of the expences of this Colony in the taking & Securing Cape Breton; & in the intended expedition against Canada you will find in the hands of M<sup>r</sup> Palmer's Executors; & by my Letters of the 10<sup>th</sup> of July 1749 to M<sup>r</sup> Palmer, which I presume are come to said Executors hands, you will find what information was given him with respect to Several Affairs then lying before him; & You will therein find the Directions given him respecting the Regiment raised in this Colony in the late intended expedition against Canada, whose Interest we are desirous to have promoted. And in my Letter of The 21<sup>st</sup> of July 1749 You'll see what difficulty hath arisen between this Colony & The Province of the Massachusetts-Bay respecting the Inhabitants of Woodstock Suffield, Enfield & Summers who claim to be within this Colony; and you will please to pursue the Directions given in that Letter, and prevent any proceedings of the Province of The Massachusetts-Bay to get the Establishment of any former Agreements that have been made, without our being Noticed & heard thereon.

Mr Sharp hath been improved in the business of this Colony, and hath Served us to Acceptance, & you will probably improve him further, & from him you will get information of some of our Affairs, & find some of our papers in his hands.

which may ly in your way to do to y<sup>r</sup> Advantage

I have heretofore desired Esq<sup>r</sup> Palmer to return my hearty thanks for your good Advice to Moderation when Difficulties were among us ab<sup>t</sup> our Religious Affairs and never having any hint from him of his receiving it I suspect it miscarryd by the way as many other things did in the time of Warr I now make mention of it and pray you to accept it from your humble obedient Servant

BOSTON NOVEM<sup>R</sup> 3. 1749.

Sir,

I am informed that his Excellency Govern<sup>r</sup> Shirley had settled an Agreement with the Governor of Canada (so far as related to this Governm<sup>t</sup>) That the Charge of transporting English Prisoners should be defrayed by the English Governm<sup>t</sup> and the Charge of transporting French Prisoners by their Government; And that upon his Excellencys informing the Goverenors of the Neighbouring Colonies, the most of them had signified their Approbation of this Method; I am likewise informed That in the Year 1746, there were brought into this Province in a Flag of Truce, sent by the Governor of Canada, called Le Vierge de Grace a great Number of English Captives, some of them being Europeans, but the most of them belonging to the English

Provinces & Colonies in America; & that about the same time his Excellency had sent a Flag of Truce to Canada with French Prisoners at the Expence of this Governmt. And that his Excellency sent circular Letters to the Governors of the English Colonies afore mentioned (with Lists of the several Prisoners belonging to their respective Governmts) wherein he informed them that as soon as the Accompts of the Charges of the Flags of Truce, & the proportions of the several English Governments thereunto were adjusted, he would send them to the said Governrs that so they might reimburse the Governor of Canada what Charges he had been at for transporting the English Prisoners belonging to their Governmts. Soon after this, the Court House in Boston was burnt, & therein all the Papers relating to the Fitting out of the French Flag of Truce, Which made it necessary that those Accompts should be had from Canada in Order to state the particular Part each of the English Governmts ought to bear to the Charge of transporting their Prisoners; And I find the said Accompts were sent here a little before Governr Shirleys Departure; And an Accompt has been stated between Governor Shirley & the Governor of Canada, & sent to Quebeck by a Person now there sent for the Redemption of Captives; And the Governr of Canada has been assured that all possible Care should be taken for recovering from each Governmt their Proportion of the Charge. I shall now send your Honour a Copy of the Accompts; By which you will perceive that the Number of Persons belonging to your Governmt is Two and the Proportion of the Charge is Fifty Eight Pounds two Shillings & nine pence Which I must pray your Honour would cause to be paid into my Hands as soon as may be; And the same shall be remitted to the Governr of Canada: And I doubt not of your more ready Compliance when you consider (as appears by the Accompt) that this Province will be obliged to pay in proportion beyond any other Governmt as the greatest Part of the Charge of the Europeans & other uncertain Persons both in this Vessel & an other sent to Louisbourg will fall upon them

JONATHAN LAW TO SPENCER PHIPS.

MILFORD Nov<sup>r</sup> 14 1749

S<sup>r</sup>

Yours of the 3<sup>d</sup> Instant I rec<sup>d</sup> on the 10<sup>th</sup> That you may have a clear view of the State of the Affair you wrote of I have inclosed a Copy of mine to Gov<sup>r</sup> Shirley on the 26<sup>th</sup> of

August 1747. I never having received any thing from him concerning that matter I concluded the Ballance was in our favour thô he mistook y<sup>e</sup> number of Prisoners belonging to us which would have made our part of y<sup>e</sup> charge one third more than it really was. I informd the Gentlemen of our northern Council of Warr and as I remember they told me that on y<sup>e</sup> Request of Gov<sup>r</sup> Shirley they lodged a considerable Quantity of Provisions in your Nor Western Frontiers on the promise of Gov<sup>r</sup> Shirley to pay for it. I do not remember the amount of it. shall take the first Opportunity to learn the certainty of it, and shall then take speedy Care to send you the money if the Ballance shall turn out in your favour and shall expect you will do me the same Justice in Case your Gov<sup>t</sup> shall appear to be in Arrears with ours

The Answer of our last Assembly to yours about the four contending Towns I presume will reach your hands before these Lines and since one ancient way of deciding Titles of land of later times is become obsolete I would hope every ones prudence will direct to a forbearance of reviving an antiquated Customary way of tryal and as for any other method It seems to me your Loss of them will be less than your Expençe in retaining them neither shall we see our Acct in recovering them but the giving so clear Demonstrations of y<sup>r</sup> Situation being Southward of your Charter Line and that ours is bounded North on yours we would not expose our selves by denying them the Justice to them belonging and althô the lower House did admitt Deputies from Woodstock yet the upper House did not think it a proper Season for them to concur in appointing Justices and thôt it enough to limit or rather extend Hartford and Windham Counties to the Colony Line and now in Assurance of my hearty desire of a good Harmony between the Gov<sup>ts</sup> I take leave to Subscribe

NEWBURY Jan<sup>y</sup> 8<sup>th</sup> 1749/50

*Very Dear & Hon<sup>d</sup> Sir*

The News of your being Ship'd & gone for England was quite Unexpected & very Surprising to me, (tho' I heard three or four Months agoe you talk'd of Such an Undertaking) Because I had Enquired of Justice Griswold who was at my House not long since, & he told me that he thought there was nothing at all in it, I wish God may Give you a prosperous Voyage & Favour in ye Sight of Our Rightful & Gracious Sovereign King George, in all matters that you Shall Spread before him agreeable to Righteousness; & I have no Jealousie that you will ask for any things in your Own or others behalf bnt what you think so.

\* This word has been crossed out.

† Jonathan Parsons, born in 1705, was graduated at Yale in 1729 and soon after began preaching in the First Church in Lyme, Conn., (now Old Lyme). He was ordained over that church in March, 1731, on which occasion he formally renounced the "Saybrook platform" of church government. He became much interested in the preaching of Whitefield and in a revival movement through which many were added to his church. These views led to a disagreement with some of his congregation, and he being of a quick temper asked for his dismissal, which was granted in October, 1745. He removed to Newbury, Mass., where in the following January he organized a Presbyterian church within the limits of other parishes. He became its pastor and remained in that capacity until his death in 1776. *Dexter's Yale Annals*.

As soon as I thought of Writing I long'd to hear of y<sup>e</sup> particular Circumstances of your Family & friends, that I might Write to you of them, tho' you so lately took your Leave of them, but I could hear nothing in particular tho' Capt. Sheldon of Lyme wrote me a Letter y<sup>e</sup> 28<sup>th</sup> of Decr Wherein he Signifies y<sup>t</sup> it is a General time of Health in those parts.

What Affairs you are Entrusted with to take up your time & Employ your Great Abilities I know not, but I can't think you would so Embarras yourself with Business as to take you quite off from Speaking a Word in y<sup>e</sup> Dear Cause of Liberty of Conscience if a fair Opportunity presented, You have often Espoused it in Connecticut Assemblies, as well as more privately, with Arguments y<sup>t</sup> can never be answered any other way than by a Majority of Hands. And if need be I persuade my Self y<sup>t</sup> you will not be Silent upon y<sup>t</sup> Head now you are on y<sup>e</sup> Other Side of y<sup>e</sup> Water.

With these Hopes Hon<sup>rd</sup> Sr I am encouraged & beg leave to lay before you Some few hints of y<sup>e</sup> Circumstances of a considerable Congregation of Presbyterians in Newbury with whom I am Setled as their Pastor by y<sup>e</sup> Concurrence of y<sup>e</sup> Presbytery at Boston, they are a People constantly Harrast by y<sup>e</sup> Parishes wherein they Dwell on Accompt of Taxes towards y<sup>e</sup> Support of those Ministers in y<sup>e</sup> Independent Churches on whose Ministry they cannot attend; & can't get any relief from y<sup>e</sup> General Court of this Province, tho' they have frequently sought for y<sup>e</sup> Same, they seem'd very loath to Expose the Conduct of y<sup>e</sup> Province in Such an Affair, & therefore waited with long Patience & Went often with prayers to y<sup>e</sup> Assembly; But Since they find no Intreaties will prevail, they have, after seeking to y<sup>e</sup> Father of Lights for Direction, Unanimously Agreed that Duty to God, themselves & their fellow Sufferers obliged them to prefer an Humble Address to Our Gracious Sovereign imploring y<sup>e</sup> Interposition of His Wisdom & Authority & to leave the Event with God.

I am Sure you'l allow me to Speak a word or two about y<sup>e</sup> People Since it is on Such an Occasion, and I have had

more than four years Opportunity to Observe them, They appear, upon this long Acquaintance, to be a kind, well Disposed, peacable people in General, & a great Number of them are in a Judgment of Charity, Solid & Excellent Christians. Some of them are esteem'd y<sup>e</sup> most capable Men for Publick Buisness of any in this Great Town, & even their Adversaries thro' Necessity are Glad to make Use of them in y<sup>e</sup> most Difficult affairs of a Temporall Nature which they meet with; and as to their Religion, they are not among y<sup>e</sup> Number of those wild frickish People y<sup>t</sup> are Scatter'd about in some parts of y<sup>e</sup> Country, but Seem to be as careful to avoid an Apish Sort of Religion as any Congregation that I know. their Withdrawall from y<sup>e</sup> former places of Publick Worship was more than Seaven Years agoe, & was then & is Still look'd upon Warrantable by Some of y<sup>e</sup> most Substantial Ministers in Town & Country, as I could easily make appear were it needful. And as to their Temporal Circumstances Some of them are I Suppose as Wealthy as any in Newbury Except Some of y<sup>e</sup> Church of England: Others are Honest, Industrious People; but Some are poor, & particularly we have many Poor Widows, left so by y<sup>e</sup> Death of their Husbands in Cape Breton Expedition, perhaps we have more poor Widows than there is in Several of y<sup>e</sup> Other Congregations in Town put together; for y<sup>e</sup> People tell me it appears by y<sup>e</sup> List that more went from Our Congregation upon that Expedition than from all y<sup>e</sup> Congregations besides altho' there are Seaven Worshiping Assemblies in all besides Our Church.

These things in General I think represent y<sup>e</sup> Disposition, Conduct & Temporal Circumstances of y<sup>e</sup> People. And these People are drest up in Bear Skins & worried by their fellow Creatures, their money is taken from them, Some have their Goods Sold for a Song; their Bodies Drag'd thro' y<sup>e</sup> Streets & Imprison'd with a "Lie you there 'till you have paid y<sup>e</sup> uttermost farthing". I don't remember to have met with any instances in y<sup>e</sup> History of New England Equal to what I have Seen of this nature with my Eyes, Except y<sup>e</sup> Strange treatment of y<sup>e</sup> Quakers: And it all

arises from no other Cause than y<sup>e</sup> Lusts of Men; Unless the Conscientious Scruples of our people (all things Considered) refusing to help their Neighbours Support those Ministers on whose Ministry they never attend may be called a Cause. 'Tis enough to move an heart of Stone to see ones Neighbours, but especially to see Sober, honest & pious friends, Drag'd about upon y<sup>e</sup> Ground, thrown into Carts or upon Sleds, & hall'd to Prison by fellow Protestants who have no better Claim to Liberty of Conscience than their Oppressed Brethren, If I understand Our Charter! the Usage that I have Seen & y<sup>e</sup> Language that I have heard at Such Seasons are not fit to be Named among a professing People! my Heart Dreads y<sup>e</sup> Doleful Consequences that must follow Such things unless God in Mercy prevent.

And can you Hon<sup>d</sup> S<sup>r</sup> hear a Sketch of these things & not Exert your Self in favour of y<sup>e</sup> Oppressed to y<sup>e</sup> Utmost of your power, if God Should Give you an opportunity? I am Sure you cannot: I know your Attachment to Liberty too well to think you would not do every thing that appear'd proper to be done by you, upon all Seasonable Opportunities & before all men. I have Stil a greatful Remembrance of your Indefatigable efforts with y<sup>e</sup> Court in Connecticut for the Libertys of y<sup>e</sup> People, & Remember y<sup>e</sup> Thanks which y<sup>e</sup> Government gave you for y<sup>e</sup> Same. Had Some Gentlemen laid by all prejudice, a great deal of y<sup>e</sup> Confusions that have arisen about Religion had never been known: they had their Rise from the Unhappy Violences in C—t, & So have Spread into other parts. Will you Dear S<sup>r</sup>; nay, can you forget y<sup>e</sup> Miserable State that your Mother Country is coming into thro' Oppression meerly from Violences used for Conscientious Scruples in Matters of Religion? Now you have Cros'd y<sup>e</sup> Ocean & are at an higher Board than any here, only look back upon us, & think how many, directly against Charter Priviledges, are Rending their fellow Servants to pieces because they dont see with their Eyes. Have you y<sup>e</sup> Bowels of a Father & y<sup>e</sup> Abilities of a Master? Surely y<sup>e</sup> One will be turned within you, & y<sup>e</sup> Other you will Make Use of, for y<sup>e</sup> Relief of Distressed Children! I am per-

suaded that Our Gracious 'Sovereign y<sup>e</sup> King has not any Subjects more Dutiful, nor more Strictly Attached to y<sup>e</sup> House of Hannover than those that are trampled upon in y<sup>e</sup> Manner that I have related: And if you Should Exert your self in Some proper way for their help, I think, it will be a Clear Evidence of your Approving the Happy Establishment in that Illustrious Family; & Besides there is Reason to hope that you will do more Service for God & your Country by using your Interest & Influence for y<sup>e</sup> redress of this Evil, while you are Waiting His Majestys pleasure, than you can possibly do in a Neglect. I believe you think that aboundance of that wildness which has prevailed in C——t & Spread from thence has been very much owing to y<sup>e</sup> Strange proceedings of Some Courts with y<sup>e</sup> People that were called N: Lights, And there is Danger in this Province, not only on y<sup>e</sup> one hand, of an Increase of y<sup>e</sup> like Evils, but on y<sup>e</sup> other of y<sup>e</sup> most open & Growing Contempt of all Religion by Multitudes, unless the Lord should help us Respecting y<sup>e</sup> Article of Liberty, & y<sup>e</sup> Kings most Excellent Majesty Should be most Graciously pleased to Discharge us from Supporting a Ministry which we think is not Safe, & which we cant in Conscience attend upon.

Therefore I beseech you once more, Hon<sup>rd</sup> Sr for Gods Sake, for Religions Sake, & for y<sup>e</sup> Sake of y<sup>e</sup> Peace & happiness of y<sup>e</sup> People, that you would (as need may call for it) kindly interpose & help us in these Matters, Our Committee have Mentioned you to Mr Partridge who is Agent for Us before the King in Council; & Probably he will Shew you their Letter if you Should have an Inclination to See it.

I Wrote to Dr Avery in y<sup>e</sup> fall of y<sup>e</sup> Year & if he Should think it worth while to take notice of us, you will be able to let him know who I am, & what you Apprehend of me, if you think proper, I ask no favour but y<sup>e</sup> Naked Truth, & that you will Speak if you Say any thing. Herewith I Send you a true Copy of y<sup>e</sup> Recommendation which Mr Beckwith drew up, & both y<sup>e</sup> Ministers of Lyme Sign'd it just as I was taking my Leave of those parts & Expected

to go & Preach at Newbury where I am Since Setled. You'l See that ye Recommendation refers to a Council which gave me my Liberation. Perhaps you may See Some Occasion to Improve it, & if not it may lie with other wast paper.

That you may be Continued for a Blessing to ye World, May be Aboundantly Succeeded at ye Court of Great Brittain, find much favour in ye Sight of our Gracious King, & be Returned Safely to your Native Country for a Greater Blessing than ever, Is ye Prayer of Hon<sup>rd</sup> S<sup>r</sup> your most Obedient Son & Serv<sup>t</sup>

JONATH<sup>TH</sup> PARSONS

Mr Wyllys has sent me Mr Willards Letter to give the oportunity to send my Thoughts upon it When the Letter goes forward to you. Your Hon<sup>rs</sup> Thoughts are Abundantly suficient that he might well have spared Himself and mee the trouble but Judged Mr Wyllys Opinion alwaies has a Weight with mee and having this oportunity Given mee by him you will pardon my giving you the Trouble of this Letter in the Afair

If upon the uncertennty to Which of the Govern<sup>ts</sup> Springfield will belong it may be lookt upon at present a Neuterall Town I think there is no objection ag<sup>t</sup> that being a suteable place for the Com<sup>rs</sup> to meet

As I Remember our Act apoints our Comissioners to meet with theirs Agree upon and run the line and we sent

it them the act did not specially I[ ]lower them to meet and Adjorn the Meeting

They have not sent in their Act Impowering their Comissioners Mr Willards Letter Informs us that they are to Treat with our Comissioners upon the subject matter of the Controversie and agree upon after Meetings. it also Intimates that this meeting of the Com<sup>rs</sup> is apointed to be the way for Bringing on a settlement by the Com<sup>rs</sup> instead of a Latterall Corispondence between the two Govern<sup>ts</sup> And that they have not the same opinion of the Great thing that was done upon the fifth of Sep<sup>r</sup> as they have of the Great things that have been done on the fifth of Nov<sup>r</sup>

I Could be very glad if this Controversie Could be well settled between the two Govern<sup>ts</sup> without Carrying the Controversie hence to Great Britain and Comissioners apointed to meet and treat about it may be a Good Leading step to a peaceable settlement if Com<sup>rs</sup> were apointed on each side with Equall powers and Instructions and the present Difficulty appears to mee our Com<sup>rs</sup> are apointed to meet agree upon and run the line according to the Charters theirs only to Treat upon the subject matter of the Controversie if ours Cant stop short of the bussiness to which they are apointed and theirs Cant step into it the meeting must be of little service

but here I must refer my self to your Hon<sup>rs</sup> superior Thoughts if you find this objection is of no weight tis no matter how soon the Com<sup>rs</sup> meet if otherwise I submit it to mention it to them and to desire a Copy of their act Impowering their Comissioners that so we may see whither they have the like powers with the Com<sup>rs</sup> on our part if not that measures may be taken on both sides to Give their Com<sup>rs</sup> powers alike and signify to them that we have no Indisposition to treat with them by Com<sup>rs</sup> on the subject matter of the Controversie

I have this winter suffered much by a painfull Dis-temper but seem now to be Growing better the Lord prepare mee to do or suffer as he shall he shall think best

WILLIAM SHIRLEY TO ELISHA WILLIAMS.

St James's Street Febr<sup>y</sup> 12<sup>th</sup> 1749.

*Sir,*

I am favour'd with your letter of the 8<sup>th</sup> Instant, & have as you desire, recommended Mr Kellog for the Pilot's Pay, wh<sup>ch</sup> your Government contracted with him for, & the Lords of Trade &c will report in favour of it.

As to the Case of your late Regiment's Pay, I must observe to you. That the Trust of adjusting & liquidating the Accompts of the American Expences incurr'd on Acct of the late intended Expedition ag<sup>t</sup> Canada, was committed to Mr Knowles & me jointly; that he was of Opinion it was our Duty to state the particular case of your late Regiment, as to the Pay of it, from the time of the whole Corps being dismiss'd to their respective homes, "untill they should have his Majesty's Orders for mustering again", for his Majesty's own Determination; & a concealment of the special Circumstances of it by me would have been a Breach of 'Trust, & was absolutely out of my Option & Power. that the case was stated by me in the most favourable light for the Officers and Soldiers, the former of w<sup>ch</sup> I recommended in the strongest manner I could for whole Pay to 31<sup>st</sup> of October 1747, & the latter to some Pay at least to the same time; thô: I was under no Necessity of giving my Opinion either way: That I have endeavour'd in my Attendance upon the Lords Commissioners of Trade, Paymaster General, & Secretary at Warr to promote at the

Board what I recommended in my State of the Case from Boston; & their Lordships had, before your Arrival here, in their Report rested the Matter for the Consideration of the Lords of Treasury upon that State of it, with my Opinion set forth at large in favour of the Allowance of Pay recommended by me to 'em: That upon hearing of your Arrival & Design to put in a Memorial to the Lords of Trade &c upon the case of your Regiment, I sent for you, inform'd you of what I apprehended were the essential Circumstances for you to urge in favour of it, & offer'd to prepare & settle your Memorial in the most advantageous Manner for the Officers & Soldiers: That you did not think fit to let me have the Inspection of your Memorial, but drew it up as you judg'd most proper, & therein stated the case of your Regiment in your own Manner; that their Lordships have thereupon reconsider'd their Report, & will, I believe, alter it; & their present Report will be form'd intirely upon your own State of the case, & not mine; That you are under a Mistake in imagining that they will now govern themselves by my opinion or Recommendation in the Affair; For as they have the Case lay'd before 'em by yourself, they have judg'd for themselves upon that, without Regard to my Representation of it, w<sup>ch</sup> they will not now adopt: That you have had from the Beginning my best Offices in favour of your Regiment's Pay, particularly when they consider'd your own State of it, & shall, as far as you have left it in my Power to exert 'em, continue to have 'em to the End: That if I had acted solely upon the Motive of making Savings for the Crown in the case of your Regiment, as you seem to insinuate in your letter, I should not have given my Opinion in favour of Pay's being allow'd it, & urg'd it with the strongest Reasons I could think of; & if I have err'd on either Side, it is in favour of the Regiment. I am, Sir,

Your Humble Servant

W SHIRLEY

Colonel WILLIAMS.

WILLIAM SHIRLEY TO ELISHA WILLIAMS WITH  
WILLIAMS' OBSERVATIONS.

St James's Street Feb. 12<sup>th</sup> 1749.

Sr

I am favoured with your Letter of y<sup>e</sup> 8<sup>th</sup> Instant, & have as you desire, recommended M<sup>r</sup> Kellogg for the Pilots Pay, which y<sup>r</sup> Government contracted with him for, & the Lords of Trade &c will report in favour of it.

as to y<sup>e</sup> Case of y<sup>r</sup> late Regiments Pay I must observe to you—That y<sup>e</sup> Trust of Adjusting & Liquidating the accounts of the American Expences incurred on accot of y<sup>e</sup> late intended Expedition ag<sup>t</sup> Canada was committed to M<sup>r</sup> Knowles & me Jointly; that he was of opinion, it was our Duty to State y<sup>e</sup> particular Case of y<sup>r</sup> late Regiment as to y<sup>e</sup> Pay of it, from the Time the whole Corps was Dismissed, to y<sup>r</sup> Respective Homes, entill they Should have his Majestys orders for Mustering again, for his Majestys own Determination & a Concealment of y<sup>e</sup> Special Circumstances of it by me would have been a breach of Trust, and was absolutely out of my option & Power. That the Case was Stated by me in y<sup>e</sup> most favourable Light for the Officers & Soldiers; the former of w<sup>ch</sup> I recommended in the Strongest Manner I could for whole Pay, to 31<sup>st</sup> of Octobr 1747, and the latter to Some Pay, at least, to y<sup>e</sup> Same Time; tho I was under no Necessity of giving my opinion Either Way. That I have Endeavoured in my attendance upon the Lords Commis<sup>rs</sup> of Trade Paymaster General & Secret<sup>ry</sup> at War, to promote at the Board, what I recommended in my State of the Case from Boston; and their Lordships had before your arrival here, in their Report, rested the Matter for the Consideration of the Lords of Treasury, upon that State of it, with my opinion Set forth at Large in favour of the allowance of Pay recommended by Me to êm. That upon hearing of y<sup>r</sup> arrival & Design to put in a Memorial to the Lords of Trade &c, upon the Case of y<sup>r</sup> Regiment, I Sent for you, informed you of what I apprehended were the Essential Circumstances, for you to urge in favour of it\*, and offered to prepare & Settle Your Memorial in the most

advantageous Manner for the officers & Soldiers. That you did not think fit to Let me have the Inspection of y<sup>r</sup> Memorial, but drew it up, as you judg'd most proper, & therein Stated the Case of y<sup>r</sup> Regiment in your own Manner. That their Lordships have thereupon reconsidered their Report, & will I believe alter it; and their present report will be formed Entirely upon y<sup>r</sup> Own State of y<sup>r</sup> Case & not Mine.

That you are Under a Mistake, in Imagining that they will now govern themselves by my opinion or recommendation in the aff<sup>r</sup>; For as they have the Case laid before 'em by y<sup>r</sup> Self they have Judged for themselves upon that, without Regard to my representation of it, which they will not now adopt.

That you have had from the Beginning my best offices in favour of your Regiments Pay, particularly when they considered y<sup>r</sup> own State of it, and Shall as far as you have left it in my Power to Exert 'em continue to have 'em to the End. That if I had acted† Solely upon the Motive of making Savings for the Crown in the Case of y<sup>r</sup> Regiment, as you Seem to Insinuate in y<sup>r</sup> Letter, I should not have given my opinion in favour of Pay's being allowed it, & urged it w<sup>th</sup> the Strongest reasons I could think of; and if I have Erred either side it is in favour of y<sup>e</sup> Regiment.

I am Sir y<sup>r</sup> Humble Servant

W SHIRLEY

Coppy of G<sup>r</sup> Shirleys Letter to E. Williams

\*Not True, as he represents it. When I had told Him, I should give in an answer to y<sup>e</sup> Board of Trade to his observations. He desired Me to let him See it. I told Him I had it not with me, that a Clerk was drawing it out fair. He said he w<sup>d</sup> advise me to Set the Necessity of the Sold<sup>rs</sup> going Home after y<sup>e</sup> resolve of y<sup>e</sup> assembly in the Strongest Light, as what would best Serve them. I told him I had done So. and also That as they did not think y<sup>m</sup>selves dismissed from the Kings Service So Neither did he himself, for that after that resolve in the Winter Season He had wrote to me to have y<sup>m</sup> in a readiness to go upon y<sup>e</sup>

Expedition agt Crown point &c and that I waited upon Him soon after at Boston, & told Him we were ready & He Said He did not Know of that resolve of or assembly then. I told him he Did, for that He mentioned it as being Informed of it by Gr Law in ye beginning of his Letter. on w<sup>ch</sup> he was silent.

I believe he was willing to have had ye ordering of my answer, (tho he Said no Such thing to me) but I did not think it best, to trust Him in ye affair, who had done us So great an Injury.

†Alass, I never thought he acted upon Such Motive, but to Serve himself, under So fair a Show of Saving Money to ye Crown. and that if really he acted under So fair a Notion, why y<sup>n</sup> did he not act impartially, & Save Money to ye Crown, from ye Pay of those Officers Whose Commis<sup>s</sup> he had Antedated, in w<sup>ch</sup> Case he had Himself made ye King Liable to pay Money, where he had never promised it. & Save Money also to ye King from those Sold<sup>rs</sup> in his own Regiments who were at Home as o<sup>rs</sup> were—but He touches not on this part of my Letter—I forbear making any more remarks upon it—having Scarce Patience to read it—am Glad I have at least Saved or prevented ye Mischief I know he had designed Cap<sup>tt</sup> Kelloggs Pay— while he was in N England—for there he always Said ye King ought not & nev<sup>r</sup> w<sup>d</sup> pay it. & had he found it presented to ye Board before I came, I doubt not, his making objections to it. He Had Said to me a few Days before, that in his Judgment, we ought to have full Pay, till Discharged oct. 31. 1747— Even as I intimate to Him tow<sup>ds</sup> ye Close of my Lett<sup>r</sup>— How reconcilable that is with some things in this Letter I Leave you to Judge

## RICHARD PARTRIDGE TO JONATHAN LAW.

LONDON 12 m<sup>o</sup> or febr<sup>y</sup> the 16<sup>th</sup> 1749/50*Gov<sup>r</sup> Law*

I take the Liberty with the leave of Doct Avery lately appointed Agent for the Colony for Connecticut, to address thee on the Transactions of the Affairs relating to the said Colony at the Court of this Kingdom in as much as althô he is willing to be servisable in Sollicit<sup>s</sup> for, and receiving your Cape Breton Money & Signing some Memorials yet declines to continue your Agent in the other future necessary Affairs & was pleased to recommend Col<sup>o</sup> Williams to me for advice & Assistance, which accordingly I have undertaken at both their Requests & have hitherto Exerted myself for the Colonys Interest according to the best of my Capacity & should be glad my Endeavours might be attended with Success to the Satisfaction of the Gentlemen immediat<sup>ly</sup> concerned.

The arrival of Col<sup>o</sup> Williams here, was in time, before the Lords of Trade, Pay Mas<sup>r</sup> Gen<sup>l</sup>, and Secretary at War, had concluded their Report on the Several Colonys Accot<sup>s</sup> for the Expence incurr<sup>d</sup> on the designed Expedition ag<sup>st</sup> Canada to whom they were referr<sup>d</sup> by the Lords of the Treasury to be liquidated & Adjusted: whereupon we quickly applied to the E[ ] of Eliakim Palmer Esq<sup>r</sup> your former Agent for some necessary Papers but they absolut<sup>ly</sup> refused to deliver any of them (except y<sup>e</sup> papers relating to Col<sup>o</sup> Williams Regiment) without Some Security for the paym<sup>t</sup> of the Ballance of accot<sup>t</sup> due to the Estate of the said Palmer, which they Say is about £227 Sterl: whereupon considering any further delay might be attended with very fatal Consequences, & the absolute necessity there was of complying, I ventured to give my note of hand for paying the Ball: due, rather than the Colonys Cause should Suffer & then we obtained what papers we wanted both for the Colonys imēdiate concern as also what Related to the Regiment for Col<sup>o</sup> Williams: in the mean time applying to the Lords of Trade for Copys of Gov<sup>r</sup> Shirleys Observations both on the Colonys accot<sup>t</sup>: of Arms & Cloathing and what

related to his Regiment which we quickly obtained, & there-upon drew up answer for Doct Avery to Sign respecting the Colonys said acct & a suitable affidavit, made by Colo Williams & Lieut Colo Talcott annexed thereto and delivered in to the Said Board, with Colo Williams answer to the sd Governors Objections to the pay of his Regiment: the latter drawn up by a Solliciter recom<sup>d</sup> by Ju<sup>r</sup> Sharpe to whom we applied by direction of Dr Avery & then we drew up a Memorial to the Lords of the Treasury signed by Dr Avery praying paym<sup>t</sup> of the £66,189 19 5 Curr<sup>y</sup> for Bounty, Billitting, and provis<sup>ns</sup> for the Soldiers which we reduced at the rate of 750 for £100 Ster: amount<sup>g</sup> to £8,825 6 6 Ster: which being exhibited to the Treasury they of Course referred the same to the Lords of Trade &<sup>a</sup> to receive an Examination as afores<sup>d</sup> but we have little Encouragm<sup>t</sup> hitherto of this latter Sum being paid, but it is likely to have the Same fate as the other Colonys for that kind of Expence to be thrown on those who advanced the money, to make a Saving to the Crown; which I think is hard & unreason<sup>ble</sup> except abt 7 or 800£ Curr<sup>y</sup> charged in the Accot to certain Articles which they allow off. And as to the Accot of Arms & Cloath<sup>g</sup> which had been exhibited by your former Agent that was laying before them but as yet there's no getting any certain knowledge whether any and what abatem<sup>t</sup> will be made thereon till their Report is made to the Treasury which we are assured will now be done (with what relates to the other Colonys also) Some time next week, & then its expected the Several Sums agreed on will be laid before the Parliam<sup>t</sup> in order for passing an Act for Paym<sup>t</sup> of the Money, but when it will be ready for receiv<sup>g</sup> is altogether uncertain, against which time I apprehend it will be necessary for thee as Governor of the Colony, to make out an other proper Power of Attorney under the Colony's Seal to authorize Some Person here to receive their Canada Expedition Money of the Treasury, Something Agreeable to that already sent to Doct: Avery. Inclosed I Send Copys of all the Memorials & papers before mentioned relating to the Transactions Since Colo Williams's arrival here for the Sat-

isfaction of your Gen<sup>l</sup> Assembly except of the Colo<sup>s</sup> Memorial relating to the pay of his Regim<sup>t</sup> which was drawn up by the Sollicitor & is very long; To do the Colo<sup>s</sup> Justice, he has laboured in these affairs with me indifaticably, both respect<sup>s</sup> the Colonys acco<sup>ts</sup> of the Charge exhibited, as in that for the Pay of his Regim<sup>t</sup>, & with a great deal of prudence & Solid Judgm<sup>t</sup>, without whose assistance I am Satisfied in the intricacy of Affairs the Cause could not have been so well managed.

One thing further, I think it necessary to mention, which is, that in the Course of these Transactions, they were unavoidably attended with Expen<sup>ce</sup>, which I have hitherto paid out of my pocket & Shall for the Service of the Interest of the Colony advance more, besides what I stand engaged for as to the Ball: of Palmers acco<sup>t</sup> which I gave my note for to the Execut<sup>rs</sup> as afores<sup>d</sup>, & which I assure myself care will be taken to give me an order on Dr Avery for the paym<sup>t</sup> off, for at present he don't Seem to apprehend he has any Authority to pay it out of the Cape Breton money when he receives it.

Nothing is done in this Session of Parliam<sup>t</sup> yet about Paper Curr<sup>y</sup> neither do I think there will be now, as time is so far Spent; and besides, the State of Paper Money is not yet returned from the Several Colonys, which was required last year by the House of Com<sup>ons</sup> except from Pensylvania & New Jersey that I hear of.

There has been a Bill lately Bro<sup>t</sup> into the House for taking off the duty on the Importation of Pig & Bar Iron from our Plantations, but its thought it will hardly pass as there is likely to be a Strong Opposition to it.

As for the Affair of your Boundarys with the Massachusetts I find no Steps have yet been taken about it here, neither do I think there will be till further Instructions come over abo<sup>t</sup> it Dr Avery seeming inclinable not to meddle with it.

I am w<sup>th</sup> due respects to the Gentlemen of the Council & House of Representatives

Thy and their assured Friend

I send thee to my Correspon<sup>ts</sup> Andrew Oliver & Co. a Magazine & some other News Papers by this Conveyance of which I desire thy acceptance to be sent thee by a private hand

Respecting a Solicitor to be employd in ye Affair of the Boundary above mentioned, I am apt to think John Sharpe will hardly undertake it for Connect, because I know he was engaged for [ ]ssachusetts in their Boundaries w<sup>th</sup> Rhode Island and also ag<sup>st</sup> New Hampsh<sup>r</sup>

#### BENJAMIN AVERY TO JONATHAN LAW.

*Sir*

I received the Papers which you sent me by Coll<sup>o</sup> Williams; & the Duplicates which were forwarded to me by Capt<sup>n</sup> Spendor: by which I was made acquainted with the Favor which your Honour & the Assembly had done me in appointing me your Agent. Had I known your intention I would have prevented that Appointment: because I fear the Affairs of the Colony will suffer by the Nomination of a person to this Office, whose stated Business lays him under an absolute Necessity of refusing to accept of it. In my Judgment, as you could never have fix'd on a more proper Person than my late worthy Friend, Mr Palmer, so not could you easily have thought of a Person less able to serve you in this Capacity than myself. I want indeed no good Will to the Colony: & any Interest I may have in this Countrey, or with any Persons of Weight & Figure in it, I will readily & faithfully use in the Service of Connecticut. But there are Attendances required of your Agent, necessarily required, from the very nature of his Business, which my Situation in Life render me quite incapable of giving.

But least the Affairs of the Colony should irretrievably suffer, by my absolutely declining to act at all in this Office, I did, at the Request of Several Gentlemen of Connecticut & the Massachusetts, who are at present in this City, resolve to act so far, as to present a Memorial to y<sup>e</sup> Lords of the Treasury, requesting, they would pay me the 28,863:19:1. due to the Colony on Account of the Reduction of Louisb. & Cape Breton. This was very civilly received; & Mr Pelham has encouraged me to expect, that there shall be no unnecessary delay in the paying it. When it is paid, I shall acquaint your Honour with it: and I shall deposit it in y<sup>e</sup> Bank of England, till I receive your Honour's Draughts on me for it. Lieutenant Coll<sup>o</sup> Talcot says he has bills drawn on me by your Honour for 400<sup>li</sup> Sterling, part of that Money; which the Post script to your Honours Letter will, I imagine, warrant me to pay him out of that Money as soon as I receive it.

But as to the projected Expedition against Canada, & any Money due to the Colony on that account, I cannot think of interesting myself at all in this Matter any other wise than by my good Offices. I have indeed presented a Memorial for y<sup>e</sup> Money due for Bounty Billetting & Transports; but I am frankly told that little, if any, of that Money is likely to be paid. Mr Palmer had presented a Memorial, near a 12 M<sup>o</sup> since, for Money due on the Canada Acct for the Clothing, Arms & pay; & for these last mentioned Articles, I believe, it will be recommended to the House of Cms to make some Provision: But I much fear that the Whole of the Pay due to either the Officers or Soldiers will hardly be order'd; on Acct of some Objections, raised by the Govern<sup>r</sup> of a Neighboring Province, founded on a Resolve of your Assembly, in Oct<sup>r</sup> or Nov<sup>r</sup> 1746, to send the Men home to their respective Habitations: This is understood, or pretended to be understood, as dismissing them from his Majesty's Service. I have endeavored, & shall endeavor, to represent y<sup>e</sup> unreasonableness of any Abatement of their pay on this Pretense; but with what success I am not able to say. Our great Men, in this Affair

are for laying hold on every handle to Save Expences to the Crown: But if they do save the Crown any Money by such a Deduction from y<sup>e</sup> Pay of these Officers or Soldiers, I shall not be able to think that they act honourably; & they will, in my Judgment, Saddle the Colony & many particular persons in it, with a disproportionate & very unreasonable Expence.

But however this may turn out, I shall beg to be excus'd from meddling with any of the Money that may be granted for the reimbursing the Colony the Expences incurr'd or Debts contracted on that Occasion. I have a great Regard for y<sup>e</sup> Colony; & a just Sense of the Obligation they have laid me under by y<sup>e</sup> unexpected Confidence they have plac'd in me: and both from the Recommendations I have had of him, & the Conversation I have had with him, I cannot but have a particular & very great Concern for Coll<sup>o</sup> Williams, as a Gentleman of eminent & distinguish'd Merit: but my Affairs are so circumstanced, that I did not dare, nor upon any Consideration can I, or will I, undertake y<sup>e</sup> Solliciting the Cause of y<sup>e</sup> Regiment; & therefore at his first coming I recommended y<sup>e</sup> Collonel, & his particular Business about the Regiment, to Mr Richard Partridge, as one who has been conversant in these Things many years; has Sollicated the like affairs on behalf of Rhode Island & New Jersey; & as a Gentleman of whose integrity & Capacity for Managing Things of this Nature, I had a very good Opinion. He has done, & will do all that he can to Serve y<sup>e</sup> Coll<sup>o</sup> & y<sup>e</sup> Colony in this Respect; & I doubt not will deserve their gratefull Acknowledgements on this Account.

Mr Palmer's Exec<sup>rs</sup> are not free to deliver up the Papers relating to the Colony's affairs till his Accounts with the Colony are adjusted & Clear'd. They say he had a considerable Demand on the Colony: to the discharge of which I did not apprehend my self warranted to apply any part of the Money which I might receive on the Louisb. Account: because I perceive all that Money except Lient C<sup>ll</sup> Talcot's 400<sup>li</sup> is applied by order of y<sup>e</sup> Assembly, & appropriated to the Single Use of calling in your Paper

Currency. However, I believe, I shall soon have those Writings from the Execrs; Mr Partridge having given his Note to satisfy them as to any reasonable Demands they may have on ye Colony for business done, or Money laid out, by Mr Palmer in their Service. I mention this, that your Honour may See ye Reason why I take no Notice of that Paragraph in your Letter, in which you recomēd to my Care the disputs between Massachusetts & Connecticut with respect to the Boundaries, & some particular Towns over which each of the Provinces claim Jurisdiction. I can say nothing certain or Satisfactory about it till I have perus'd those papers: but by what I can gather from a short conversation with Coll<sup>o</sup> Williams on that Subject, That is a Dispute which can only be Ended by the King & Council; & I fear will take up some years, & cost a great deal of Money, before it can be brought to a Decision.

I am a Sincere well-Wisher to your Honour, & to your Colony; & shall not cease heartily to pray for your, & it's, growing & lasting Prosperity & Happiness.

I am, with great Respect,

Your Honours

most obed<sup>t</sup> faithfull humble Serv<sup>t</sup>.

*Sir*

Upon my arrival in this City, I immediately [de]livered your Hon<sup>rs</sup> Packet to Dr Avery, who declind [acc]epting the Trust of agency for the Colony. I told him I had

[un]derstood, that Mr Shirley had laid in Objections to the Colonys [ac]cots of their Expences in the Canada Expedition and the Colony would suffer unless he appeared for them. He Said he had a great regard for the Colony, and Should be always ready to Serve it wherein he could, but that this Service was utterly Inconsistent with his other Business, which he was obliged to attend. and Should be very Sorry, the Colony Should Suffer any thing in the present Case. and therefore, (Said he) do you who understand the Colonys affairs, draw up proper answers to Mr Shirleys objections, and I will Sign them. I told him I was a Stranger to Every Body, & Manner of proceeding necessary to be Known in every Step. He Said take Mr Richard Partridge with you, who is thoroughly acquainted at all the Offices, and with the Management of Such affairs, & is an active faithful Man. I have accordingly done So and find him to answer Dr Avery's Character of him. When Mr Partridge had got the Coppys of Mr Shirleys Objections, to the Colonys accots. I found they related only to the arms & Cloathing, and therefore concluded the other accots relating to the Bounty Transports &c had never been exhibited, & must therefore lye in the hands of Mr Palmers Executrs. I therefore waited on Dr Avery & acquainted him with it, & prayed him to get the Colony's Papers from those Executrs He desired Me to attend him on that affair the next Day, which I did. The Executrs refused to Deliver the Papers except the Money due from the Colony to Mr Palmer was first paid or at least Security given for it, which they Said was upwards of 220£ Sterling. Dr Avery refused to do it, as not intending to accept the Agency. I asked, what the Money was due for? They Said it was for Money he had been advancing for y<sup>e</sup> Colony at Times ever since he had been in the Agency, and represented y<sup>e</sup> Matter as if y<sup>e</sup> Colony had not treated Mr Palmer handsomely, in Suffering a Burden of Expence to lye upon Him, without furnishing him with any Stock for [tha]t Purpose, or paying him for So long a Time. I found my Self affected for the Colony Set in So disadvantageous a Light, as to their Treatment of their late

Worthy Agent before Dr Avery, whom the Colony was now desiring to Serve them in that Capacity. and to vindicate the Colony as far as I was able Told them, I Knew the Colonys honourable regard for Mr Palmer, That as they well accepted his Services So they would not Knowingly be Wanting, in reimbursing his Expences. That I had Seen Some Time Since a Letter drawn up for Mr Palmer, Wherein he was desired to Send an accot of his Expences in behalf of the Colony, and was assured the Same should be honourably discharged. Which I was Satisfied was Sent Him, and if Mr Palmer had not Sent his account, as I believed he never had, I concluded they would not cast blame on the Colony. and told them if they had Sent the accot since Mr Palmers Death, the Colony would undoubtedly have paid the Ballance and asked, if they had done it, they Said, they had not. they had So many other accot<sup>s</sup> to Look into and that they had but lately got part of y<sup>e</sup> accot<sup>s</sup> from Mr Sharp. I desired them to prepare and Send it and assured them it would be honourably discharged. Which they Said they did not doubt of. but would not after all I could Say deliver the Colonys Papers, Except on the above Condition. I desired to look among the Papers which they granted and finding the accot<sup>s</sup> aforementioned, which had not been Exhibited; I urged the immediate Necessity, of that One Paper but could not obtain it. I asked Dr Avery if I should desire Mr Partridge to give the Security desired. He advised me to do so. Next Morning I applied to Mr Partridge for that Purpose, he consented, and gave a Promissory Note to the Executr for the payment of the Ballance due from the Colony. Thus the Papers were obtained. and what has been done to get those accot<sup>s</sup> allowed, Mr Partridge I conclude will give particular Information of. and So much I thought needful for me to acquaint y<sup>r</sup> Hon<sup>r</sup> with that you might Know the absolute Necessity there was of giving Security in behalf of y<sup>e</sup> Colony. as to the Fate of the last accot My Lord Dupplin (one of the Board) told me yesterday, that they had picked out of it as many Articles as would amount, he thought to about an 150<sup>£</sup> Sterling

which they had agreed to allow, but that as to all the rest, they should Serve Connecticut, as they intended to do, the other Governments, on the like articles of Charge—allow none of it. It is a very Unhappy Season for the getting any Accots allowed. The Ministry being resolved to make all possible Savings to y<sup>e</sup> Crown. and with respect to y<sup>e</sup> Colonys as well as that of Connecticut regiment Mr Shirley has been an Useful Instrument. He Expects to go in a Month to Paris as one of the Commissi<sup>rs</sup> to Settle the Bound Line between us & France, in North America, which is thought will take Him up no Small Time.

I am Your Hon<sup>rs</sup>

most Obedient

and very humble Servant

ELISHA WILLIAMS TO JONATHAN TRUMBLE.

LONDON Febr<sup>y</sup> 21<sup>st</sup> 1749/50

*Sir*

I wrote you viâ N. York 25<sup>th</sup> Ult: enclosed to my Son, and on y<sup>e</sup> 1<sup>st</sup> of y<sup>s</sup> Month, enclosed to Mr Miller of N. London. I now write by Lt Whiting returning Home, a summary of w<sup>t</sup> I wrote before least y<sup>y</sup> fail, and carry on my acc<sup>t</sup> of o<sup>r</sup> aff<sup>rs</sup> to the present Day. After a rough Passage, I arrived safely at Dartmo<sup>th</sup> y<sup>e</sup> 7<sup>th</sup> of Jan<sup>ry</sup>, and on y<sup>e</sup> 19<sup>th</sup> at London. I immediately repaired to Dr Avery, who absolutely declines the Agency, p<sup>r</sup> req<sup>t</sup> or Colony, as being utterly inconsistent w<sup>th</sup> his other Business. I urged among other things y<sup>e</sup> Necessity of our aff<sup>rs</sup>, That I had understood from Mr Partridge, (whom I had accidentally seen that morning) That G<sup>n</sup> Shirly had not only laid in objections to the pay of the regiment, but also against y<sup>e</sup> Colonys acc<sup>pts</sup> of arms & Cloath<sup>g</sup> &c., and that the Colony must suffer Unless He appeared for them. He replied you understand fully y<sup>e</sup> Colonys aff<sup>rs</sup> and must draw up proper

answer to Mr Shirleys representations, and said He would Sign them. I told Him I was a Stranger to Every Body & particular Manner of procedure & prayed y<sup>r</sup>fore his advice. He said Mr Partridge is well acquainted w<sup>th</sup> those aff<sup>rs</sup>, take Him with you. I have done so, and find he is well acquainted w<sup>th</sup> Men & Things, active & Indefatigable. I immediately got Coppys of his objections. His objections to y<sup>e</sup> Pay of y<sup>t</sup> Regiment are founded upon that unhappy resolve of o<sup>r</sup> Assembly, Oct. 1746. w<sup>ch</sup> you are well acquainted with. To y<sup>e</sup> acc<sup>ts</sup> of Arms & Cloathing, He sais y<sup>e</sup> same is too high 20 & 25. per Cent. That you may y<sup>e</sup> better understand, the unhappy Situation of our aff<sup>rs</sup>, I must go so far back as to tell you, That the Complaints ag<sup>t</sup> That Gentleman had Issued not a Little in his Favour. Sev<sup>l</sup> of his Louisbourg officers had complained of his getting Money out of them for y<sup>ir</sup> Commissions, viz such a part of y<sup>ir</sup> pay as was Due from y<sup>e</sup> Date of y<sup>ir</sup> Comisōns to y<sup>e</sup> Time of y<sup>ir</sup> receiving y<sup>m</sup> w<sup>ch</sup> he had also kept some Time in his hand for y<sup>e</sup> sake of increasing that Sum, but it seems he has y<sup>e</sup> Cunning to tell y<sup>e</sup> Ministry, That That Money did not belong to y<sup>e</sup> Officers, and if it was not his perquisite it belonged to y<sup>e</sup> Crown, and so a designed piece of F——d was converted into a piece of Merit to himself, and so Let who will have y<sup>e</sup> Benefit of y<sup>e</sup> Money y<sup>e</sup> Poor Officers lose it. This it seems is one Thing that has rendered him a very useful Instrument, to The Ministry, who want to make as many Savings as possible to y<sup>e</sup> Crown, and as y<sup>e</sup> Lords of the Treasury had referred all accōpts of y<sup>e</sup> Sev<sup>l</sup> Governments Expences in y<sup>e</sup> Canada Expedition to y<sup>e</sup> Board of Trade, so that Board put y<sup>m</sup> all into y<sup>e</sup> Hand of Gov<sup>r</sup> Shirley, for him to make his observations upon. In this He had been employed some Weeks before my arrival. and had it not been by an Intrugue (I need not now Mention), That N. York accounts were delayed, he had doubtless finished all his Work, & The Lords of Trade would have made y<sup>ir</sup> report accordingly, in a Manner fatal to us, but as he was employed about N. York accounts, We had in Consequence a Little Time to Speak for o<sup>r</sup> selves. to return then to my

story, finding no objections to our last acct of Bounty, Billitting & Transports, I concluded, they had never been given in. I repaired y<sup>r</sup>fore to Dr Avery & prayed him, to receive all Papers belonging to y<sup>e</sup> Colony in y<sup>e</sup> Hands of Mr Palmers Execot<sup>rs</sup>. He consented, & appointed me a Time with him to attend y<sup>t</sup> aff<sup>r</sup> w<sup>th</sup> y<sup>e</sup> Execut<sup>rs</sup>. I did so, but they refused to Deliver any of y<sup>e</sup> Colonys Papers, Except y<sup>e</sup> Money Due from y<sup>e</sup> Colony to Mr Palmer was first paid, or at Least Security given for y<sup>e</sup> Payment y<sup>r</sup>of, w<sup>ch</sup> they said was upwards of 220£. Sterling, & Dr Avery refused to do it, not intending to accept y<sup>e</sup> Agency. What concerned y<sup>e</sup> aff<sup>r</sup> of my late regiment, they readily Delivered me, but no arguments I could use could get one of the other. I desired Liberty to Look among y<sup>e</sup> Papers, which y<sup>r</sup> granted, and I found, The above mentioned Colony's acct of Transports &c. I urged for that one Paper it being absolutely necessary to be immediately laid before the L<sup>s</sup> of the Treasury, but to no purpose. I asked Dr Avery if I should Desire That Fav<sup>r</sup> of Mr Partridge, to give Security for the Money due from y<sup>e</sup> Colony. He said yes. next morning I applied to Mr Partridge for That Purpose. He consented y<sup>r</sup>to. So we went to y<sup>e</sup> Execut<sup>rs</sup> and he Gave them a Promissory Note, for the Payment of y<sup>e</sup> Ballance due from y<sup>e</sup> Colony. Thus having obtained those accounts, The same with a Memorial signed by Dr Avery, was laid before y<sup>e</sup> Lords of y<sup>e</sup> Treasury, w<sup>ch</sup> they soon refered to y<sup>e</sup> Board, and they to Mr Shirley for his observations. How much will be obtained y<sup>r</sup>of is very uncertain, thô I think part of it will be allowed, but they Intend to serve all y<sup>e</sup> Colonys alike, with respect to those articles, and among other things Mr Shirley tells them the Colonys never expected any reimbursement for Bounty Billetting or Transports, but were to do it as y<sup>ir</sup> part of y<sup>e</sup> Burden in that Expedition. W<sup>th</sup> all Dispatch We prepared answers to Mr Shirley's objections to y<sup>e</sup> Colonys accounts, and also to y<sup>e</sup> Pay of the regiment. The Board as yet, have not made up y<sup>ir</sup> report at least it is not given in to y<sup>e</sup> Lords of Treasury Copys of w<sup>t</sup> relates to y<sup>e</sup> Colony aff<sup>rs</sup>, Mr Partridge I sup-

pose will send to y<sup>e</sup> Gov<sup>r</sup>, and Coppys of w<sup>t</sup> relate to y<sup>e</sup> regiment, I purpose to enclose w<sup>th</sup> y<sup>s</sup>, if I can find Time to prepare them. The Grand obstruction to our obtaining Justice, Lies w<sup>th</sup> y<sup>e</sup> Ministry. Tho' y<sup>y</sup> have had immense Sums of Money, Yet t<sup>e</sup> Great Business they now mind, is *To Save Money to y<sup>e</sup> Crown*. M<sup>r</sup> Sharp, who is Sollicitor to the Treasury, Franckly said to Me, The King was bound in Hon<sup>r</sup> & Justice, to give us full pay, till Discharged by his order, and had it been at any other Time not y<sup>e</sup> Lest Scruple could have arisen in y<sup>e</sup> Case, but sais he it happens at a Juncture when y<sup>e</sup> Ministry want to save Money, &c. I had found M<sup>r</sup> Kilby had a good Interest in Lord Halifax, who is at y<sup>e</sup> Head of y<sup>e</sup> Board of Trade, & L<sup>d</sup> Duplin who is a Chief Man, among them. I engaged his Friendship in y<sup>e</sup> Case. I shewed him y<sup>e</sup> Coppy of my answer to M<sup>r</sup> Shirley's Objections. He said it was too Long for y<sup>m</sup> to attend to it. I told Him I would prepare a Brief State of y<sup>e</sup> Case, & put it into his Hand, to emprove w<sup>th</sup> those Lords. I prepared Duplicates, for y<sup>t</sup> purpose, w<sup>ch</sup> He put into y<sup>ir</sup> hands. L<sup>d</sup> Halifax he sais favours o<sup>r</sup> Cause. On y<sup>e</sup> 9<sup>th</sup> Inst<sup>t</sup>, I learned from Him, That y<sup>e</sup> report w<sup>d</sup> be drawn up probably, for y<sup>e</sup> cutting off the officers (if not Soldiers), y<sup>e</sup> Last y<sup>rs</sup> pay, and that because they Joined w<sup>th</sup> y<sup>e</sup> Assembly in w<sup>t</sup> was done, For they view it in this Light (& I suppose from w<sup>t</sup> M<sup>r</sup> Shirley has said), That y<sup>e</sup> Colony ought to have found y<sup>e</sup> regim<sup>ts</sup> bread, and y<sup>e</sup> Assembly to ease y<sup>m</sup>selves of y<sup>t</sup> Burden contrived that Act & y<sup>e</sup> officers joined in with y<sup>m</sup> to get y<sup>e</sup> Soldiers Home, out of any Service, and y<sup>r</sup>fore ought to be answered for their roguery. (Note. this was yet a Secret not to be known till y<sup>e</sup> report sh<sup>d</sup> be made). I instantly repaired to D<sup>r</sup> Avery, opened it to Him, & prayed Him to wait on M<sup>r</sup> Pelham the Chancell<sup>r</sup> of y<sup>e</sup> Exchequer, & Desire, That if the Report from y<sup>e</sup> Board of Trade, should be any Ways prejudicial to y<sup>e</sup> Regim<sup>t</sup>, That before they should Lay y<sup>ir</sup> Estimate before the House of Commons, I might be Heard at y<sup>e</sup> Treasury Board He promised to write to M<sup>r</sup> Pelham y<sup>e</sup> next morning (it being then in y<sup>e</sup> Night), and y<sup>t</sup> on Monday (w<sup>ch</sup> was y<sup>e</sup> 12<sup>th</sup>) He would see

L<sup>d</sup> Duplin. He has done both, & to furnish Him y<sup>e</sup> more fully, I put in to his Hand my Brief State of y<sup>e</sup> Case before mentioned, & Coppy of y<sup>e</sup> Letter I had sent to G<sup>n</sup> Shirley on y<sup>e</sup> 8<sup>th</sup>. He tells me, he supposes y<sup>r</sup> will draw up no opinion upon y<sup>e</sup> Case, But report the Facts as I have stated them, & Leave y<sup>e</sup> Matter to y<sup>e</sup> Lords of y<sup>e</sup> Treasury. But sais That L<sup>d</sup> Duplin, has an unhappy Notion of y<sup>e</sup> Matter. (agreeable to what I have just hinted), and blames y<sup>e</sup> officers for letting y<sup>e</sup> Soldiers go Home, and sais *If Gen<sup>l</sup> St Clair had come I might have been tried for my Life*, for it. The Dr told Him That y<sup>e</sup> officers were so far from joining with y<sup>e</sup> assembly in y<sup>t</sup> resolve &c, That they had prayed y<sup>e</sup> assembly against it, (or y<sup>ir</sup> Com<sup>te</sup> when y<sup>r</sup> were preparing y<sup>e</sup> resolve as I had Informed them, and that it was Impossible for me to do otherwise than I did, seeing y<sup>e</sup> King had put no Money into my hand, or put it into my power to keep y<sup>m</sup> together by providing y<sup>m</sup> Bread. yet that did not signify. He persisted in it, That I ought not to have Let y<sup>m</sup> gone Home, without y<sup>e</sup> Kings order, and might have lost my Life for it. He farther pressed on y<sup>t</sup> Lord, The farther Injustice y<sup>t</sup> would be done Those Persons, who pursuant to y<sup>e</sup> Duke of N. Castles Letter to Mr Shirley & Mr Knowles, & y<sup>ir</sup> recommendation of y<sup>e</sup> Matter to or Gov<sup>r</sup> &c that y<sup>e</sup> Soldiers might be paid &c and in Confidence of y<sup>e</sup> Publick Faith, had advanced y<sup>e</sup> Pay for some officers & many of y<sup>e</sup> Men, (as I had informed y<sup>e</sup> Dr). This Consideration y<sup>e</sup> Dr said, impressed them, and seemed to be of weight with Him.

But on the whole, y<sup>e</sup> Dr expects y<sup>ir</sup> report will be drawn up as I have above hinted. W<sup>ch</sup> L<sup>d</sup> Duplin told Him would be in 10 days Time given in to y<sup>e</sup> Treasury Board, where I shall insist upon being heard (if it be found needful), and if it be there Determined to our prejudice, I will follow it to y<sup>e</sup> House of Commons — where I doubt not of a Hearing, and of having *Friends not a few*. But I have a hope, y<sup>re</sup> will be no occasion, For thô it be True, That y<sup>e</sup> Ministry can Carry any Vote y<sup>r</sup> have a Mind to — yet y<sup>r</sup> are unwilling that any thing of y<sup>ir</sup> doings, relating to y<sup>e</sup> Canada Affair should be

canvassed y<sup>e</sup>, and would use all Means to prevent it, and y<sup>s</sup> will give the Anti Court Party, both a notable occasion, to harangue on y<sup>r</sup> Breach of Publick Faith, & sacrificing y<sup>e</sup> King's Hon<sup>r</sup>, and a handle for farther Enquiries, which rather y<sup>n</sup> be exposed to, I am in some Hope The Lords of y<sup>e</sup> Treasury, will determine favourably for us, *I. E.* Mr *Pelham*, who is att y<sup>r</sup> Head and *The all* (as it were) in y<sup>e</sup> administration. and if it must come into Parliament, We should have some Chance, for Carrying y<sup>e</sup> Point. But having wrote y<sup>e</sup> preceding on y<sup>e</sup> 15<sup>th</sup> on y<sup>e</sup> 16<sup>th</sup> Inst. as I was musing on y<sup>e</sup> Scituation of aff<sup>rs</sup>, It occurred, That in Case a report should go from y<sup>e</sup> Lords of Trade in or Prejudice and I should meet it, at y<sup>e</sup> Treasury Board w<sup>th</sup> any thing farther, they might be displeased, that I had not said all I could have said, at y<sup>e</sup> Board of Trade, or send me back y<sup>e</sup> again, I thought I would draw up a 2<sup>d</sup> Memorial, & get it into y<sup>e</sup> Board of Trade, and if it did not answer my purpose there, I trusted it would of Course go up to y<sup>e</sup> Treasury Board, Where I might be heard on the whole if y<sup>e</sup> should be need, & in this Method Mr Kilby (with w<sup>m</sup> I advised confirming me,) and perceiving, by w<sup>t</sup> I had learned (as before hinted) where L<sup>d</sup> Dupplins Difficulty lay, or rather prejudice, and what might serve us to urge, I drew up a 2<sup>d</sup> Memorial accordingly (Copy of which I enclose), and repaired to Dr Avery, y<sup>e</sup> 19<sup>th</sup> Instant, and laid y<sup>e</sup> Case before Him, w<sup>ch</sup> he approved of; I then desired Him to Introduce Me y<sup>e</sup> next Day to L<sup>d</sup> Dupplin. This I supposed better y<sup>n</sup> to repair to L<sup>d</sup> Fairfax, who is friendly to us, and thô at y<sup>e</sup> Head of y<sup>e</sup> Board, yet L<sup>d</sup> Dupplin is y<sup>e</sup> principal y<sup>e</sup>, and whose prejudices against us I wanted to remove. The Dr said it was difficult for Him to leave some aff<sup>rs</sup> y<sup>e</sup> next Day but to serve me He would. We waited on that Lord Yesterday. He read y<sup>e</sup> Memorial, when he had done, said, *These things are to the purpose*, I said some things, farther to clear us from any Charge of Blame, for I found my self under no manner of Difficulty (Thô it be not what we are used to, in N England to talk before Lords). He did not care to hear a Word said in behalf of y<sup>e</sup> Colonys

passing that resolve, under a Notion of saving some Expence to y<sup>e</sup> Crown, and was possessed w<sup>th</sup> y<sup>e</sup> belief that they did it only to save it to themselves, and how much Mr Shirley has done to perswade them into a Belief of it, and that the assembly would never have thought of asking pay for billeting if Mr Partridge had not gott it for Rhoad Island I must leave. Thô (by y<sup>e</sup> Way) in y<sup>e</sup> making up of accounts they will certainly make y<sup>t</sup> draw back upon them, as Mr Partridge Expects. and he looks upon y<sup>t</sup> resolve of or assembly a most unjustifiable Thing. I could not forbear asking Leave of his Lordship to say a Word in Defence of my Country. I assured him of y<sup>ir</sup> Loyalty and readiness always to do what his Majesty had recommended to Them, That with all Cheerfulness y<sup>s</sup> had prepared Transports & Provisions for y<sup>ir</sup> Troops, and had billeted the Soldiers till y<sup>e</sup> Season required y<sup>ir</sup> going into Winter Quarters, That receiving no farther Directions from his Majesty, y<sup>n</sup> what was in y<sup>e</sup> Dukes Letter of 9<sup>th</sup> of April, & finding no express Desire to Billett the regiment there, w<sup>ch</sup> If y<sup>re</sup> had been, I doubted not they would have complied with it, they really thought, they were serving his Majesty, when they contrived y<sup>e</sup> Matter so, as that y<sup>e</sup> Expence of their billeting was saved (as they supposed) to his Majesty, and yet the Soldiers kept in as good a Condition for y<sup>e</sup> Kings Service, as if y<sup>s</sup> had billeted them, and were really in as good a Readiness for his Service as any other of The Forces raised for y<sup>t</sup> purpose, and that y<sup>r</sup>fore If they were mistaken, yet the resolve being well meant, I hoped his Lordship would not blame them, and that w<sup>th</sup> regard to the regiment, I beleived his Lordship too just, to construe it to y<sup>ir</sup> Prejudice when y<sup>e</sup> officers had earnestly solicited against it, and that in Consequence of y<sup>t</sup> resolve they could not possibly do otherwise than they Did, &c &c. When the talk was over, Instead of giving me the Memorial in order to my Laying it before y<sup>e</sup> Board as I expected, He put it into his Pocket & said, (w<sup>ch</sup> I took for a favourable omen) He would lay it before the Board, and thô they had drawn up a report upon y<sup>e</sup> Facts as I had stated them in my

former Memorial, & as he said Gov<sup>r</sup> Shirley had, Yet they could annex this to it, and directed me to attend the Board at 12 Clock this Day. I did so. He happened to see me as he was going up into y<sup>e</sup> Chamber where they sit, and called me to Him and directed a Waiter, to Lead me into an opposite room, where after I had waited some Time, He came to me and told me he had laid it before y<sup>e</sup> Board, and they would annex it to y<sup>r</sup> report, (as he had intimated yesterday) thus I have brought my Story down to y<sup>e</sup> Present Time, and shall not be able to tell you any more till y<sup>e</sup> next Conveyance. Mr Kilby thinks y<sup>e</sup> affair Lyes as well now as we could Expect, since Shirley has done as he has, and no Body out of Doors perhaps can judge upon it better than he. L<sup>d</sup> Dupplin said yesterday, they intended to make y<sup>r</sup> report to y<sup>e</sup> Treasury next Tuesday, after w<sup>ch</sup> I shall know farther, and acquaint you w<sup>th</sup> w<sup>t</sup> occurs as I shall have Opportunity. You may be sure I shall rejoyce to get well thro<sup>u</sup> such a Difficult perplexed affair, which I evidently see would have had a Determination very unhappy to some, If I had not come hither, and after all possible Effort, may yet for ought I know, be somewhat so. This is my Consolation,—*That God Governs*, to whom I would always repair, & with whom I would leave it, whilst I am doing all I can. I have not Time to write particularly to Col. Pitkin to whom w<sup>th</sup> y<sup>r</sup> self I send Hearty Regards, and must y<sup>r</sup>fore desire you to communicate this, with y<sup>e</sup> other Papers to Him, and to my Son,

Who am S<sup>r</sup> Your and his  
Faithful Friend  
and humble Serv<sup>t</sup>

## BENJAMIN AVERÝ TO JONATHAN LAW.

*Sir*

I hope My Letter of the last Month by Capt<sup>n</sup> Trail came safe to your Honours Hands, by y<sup>e</sup> way of Boston. I therein gave you my Reasons for not accepting of the Office with which the Colony has honoured me; & told you that I would so far act under the Powers you had Sent me, as to receive the 28,863<sup>ll</sup>-19<sup>s</sup>-1<sup>d</sup> due to y<sup>e</sup> Colony on the Louisburg Account; & when I had it, I would pay L<sup>t</sup> Coll<sup>o</sup> Talcot 400<sup>ll</sup> according to your order; & keep the rest in the Bank of England, till I received your Draughts for it. As the Money is not paid; tho' I am encouraged to expect it very Soon: Nor indeed has there been any alteration in the affairs of the Colony depending here Since my last; except that Coll<sup>o</sup> Williams has met with some unexpected, as well as undeserv'd, Difficulties in the Business of his Regiment; which I wish We may be able to assist him in Surmounting. So that I should hardly so soon have troubled your Honor afresh, had not Coll<sup>o</sup> W<sup>ms</sup> L<sup>t</sup> Coll<sup>o</sup> Talcot & Mr Whiting & others represented to me the necessity of Speed in giving your Honour my Sentiments about a Person proper to be employd as your Agent here. When I recommended our deceased Friend Mr Palmer, I did it because I knew he was a Person proper to be intrusted with the Care of the Religious as well as civil, Concerns of y<sup>e</sup> Colony: & likely to premote & cultivate an amicable Correspondence between y<sup>e</sup> Inhabitants of Connecticutt & y<sup>e</sup> Protestant Dissenters in London; which I apprehended would be to their mutual Advantage. The same Consideration, I imagine, directed your Thoughts to me, on Mr Palmers Death. and as I think this a reasonable Measure, for both for you there & us here, Still to keep in our Eye & pursue, I was not willing to suggest any Thing to you in my last relating to the Person most proper to be employ'd by you as your Agent; because then I had not had any Opportunity of consulting my Friends about this Matter, which appears to me of some Importance. We have since that, had a Meeting of the Committee of the Deputies who take care of y<sup>e</sup> Civil affairs

of the Dissenters, & I mention'd this Matter to them; Who seem'd unanimously of Opinion, that Mr Samuel Storke Merchant, would be a proper Person to be imployd in Solliciting the Several Affairs which the Colony of Connecticut now has, or soon may have depending here in England.

We regard this Gentleman as a Steady Dissenter, a Dissenter upon Principle; His Father was & was long engag'd in the New England Trade; & we imagine left this his Son a good Fortune; which he has, doubtless, since had opportunities O'considera[bly] to improve. He is well known in the Massachusetts; & I am told not wholly unknown in Connecticut.

Your Honour will, I flatter my self, excuse my giving you these Hints; which proceed from no private Selfish Views, or any particular Connexion which I have with Mr Storke or any partial attachment to him; but meerly from my Regard to the Interest of the Colony, & my Concern for the Support & Encouragement of the Cause of Religious as well as Civil Liberty.

I am, with great Respect  
your Honour's  
most Obedient faithfull  
humble Serv<sup>t</sup>

*Sir,*

I am directed by the Lieutenant Governor and Council of this Province, to inform your Honour, That one Jonathan Briant stands indicted at the Court of Assize now held at Boston, for concealing 95 Counterfeit Bills, made in imitation of the true Bills of Credit emitted by the Colony of Connecticut in 1746, of the Denomination of three Pounds

ten shillings, with an Intept to utter the same, as also for uttering several of the like Counterfeit Bills; and his Trial is to come on the first Tuesday in April next: And in order to his Conviction it is apprehended necessary, that a Copy of the Act of your Colony for emitting those Bills (duly certified) should be had upon the Trial, and that two of the Signers of the true Bills be also present there; the Signers are Messrs Stanly, Willis & Buckingham, And therefore I must earnestly intreat your Honour, that you would give effectual Orders, that the said Signers attend the Trial, and that a Copy of the Act be sent accordingly.

I am with due Respect Sir,

This Comes upon the Motion of Majr Lyman who Expresseth himself much Concerned at the report of the Comittee Given in to the Assembly at Boston and by them Excepted that it is Necessary to them to aply to the Throne for a Confirmation of the line already run between the Province and this Collony if not already Confirmed. It is Grievous to the Major that after they have tasted the Clusters of Canaan to fall into an Amush and be chased back again I have Discoursed with some Gentlemen here who are of opinion that this step taken by the Masachusetts Gives a Just suspicion that their Apointing Comrs was but for an Amusement and that it is best to prevent a surprize

And now this may further advise thee, That the Board of Trade before whom the Sev<sup>l</sup> Colonys Accot<sup>s</sup> of the Expen<sup>c</sup>e incurred in the Canada Expedition which have been long depend<sup>g</sup> have made their Report to the Lords of the Treasury after they had made very large abatem<sup>ts</sup> therein notwithstanding all the Strug<sup>'</sup>ling & Endeavours used to the Contrary, & not Long since the Sum<sup>s</sup> as they had fixed them were carried into the House of Com<sup>ons</sup> where they were agreed to accordingly; a Copy whereof I have obtained and send thee inclosed, whereby thou wilt see what the Sum<sup>s</sup> are which are allowed for yo<sup>r</sup> Colony, (viz<sup>t</sup>) for Arms & Cloathing £5045.19.10½ & for the Pay of the Officers & Soldiers of Colo Williams<sup>s</sup> Regiment £5291.15.3 & also £6594.3.1¼ besides the Money allowed for the Pilots Wages; making in the whole together £17191.15.8½ & no more: The Lords who had the liquidating & adjusting the Accot<sup>s</sup> seemed to be bent upon Savings to the Crown & to be almost Deaf to intreatys to the Contrary wherein Colo Williams has laboured indefatigably: whether there will be any probability of Success, in the next Sessions of Parliam<sup>t</sup> or not (if we should Essay for any further augmentations) is uncertain though it may possibly become our Consideration in the mean time.

ELISHA WILLIAMS LETTER.

WESTMINSTER, Welbeck Street May 15<sup>th</sup> 1750

*Gentlemen*

My Packet by the Friendship Capt<sup>n</sup> Sear Via New-Port of the 29<sup>th</sup> of March, with the Goods on o<sup>r</sup> Joint Acco<sup>ts</sup> I hope have safely reached you, and another since

Via Boston per Capt<sup>n</sup> Spēnder. Having agreed on a Partnership in Trade and Settled a Correspondence w<sup>th</sup> Mr Sparrow, (w<sup>ch</sup> I trust is agreeable to you), and as We are all of y<sup>e</sup> Mind, that it is best to make our returns as much as may be in what our own Country will produce, my Thoughts have run a little farther on y<sup>e</sup> Subject. Tho' I hope not beyond what you will approve of. That it is best also to have o<sup>r</sup> Merchandize carried in a Bottom of our own, & not have a double freight to pay, as We must while We are forced to send to Boston, or &c. first, & w<sup>th</sup>all to make o<sup>r</sup> Correspondents Interest Joint w<sup>th</sup> our own, as to making returns from our own Country. I have y<sup>r</sup>fore thought it would be best to be concerned w<sup>th</sup> Him in owning a Vessel, that shall sail between this Place & N England, and whatever may hereafter be done by us in building in N England for such a purpose it is not now to be done. And He has now the principal Concern in a Snow of an 100 Tons Burthen (British built), w<sup>ch</sup> I suppose is suitable for our Purpose. The Price of it is something under 600 Sterling, as he has lately purchased  $\frac{3}{4}$  of it, and presuming it will not be disagreeable to you, will take one half of it for us Jointly for y<sup>e</sup> Sum of 283 17 2. She is now on her Voyage to Seville Laden w<sup>th</sup> Wheat & Bale Goods, and Expected Back y<sup>e</sup> latter End of June or beginning of July, and on her return, I propose to put on Board y<sup>e</sup> Same, the Main of w<sup>t</sup> I shall have to take Care of for the regiment, and get the rest of her Lading for N England on Freight, and go Home my self in her y<sup>e</sup> latter End of July or beginning of Aug<sup>t</sup> unless you Insist on my staying to Petition the Parliament, for y<sup>e</sup> residue of o<sup>r</sup> Pay. Tho' I would fain hope, that if o<sup>r</sup> Friends here shall think it worth while to Petition, that I might return, & leave it with them to pursue it. For I sincerely wish to be at Home, and never more to have any concern with such, as either know not, or care not, for the Publick Good, or doing common Justice to Particulars, and really deserve not so good a Character as that of Deists. but to return, Mr Sparrow is willing to be concerned with us in y<sup>e</sup> Vessel and as he is a hearty Friend to N England, &

w<sup>d</sup> gladly promote its trading Interest, I am willing to make an Essay, and tell Him I believe you will be of y<sup>e</sup> same opinion. as his Concern will be to get her Loaded here, and make y<sup>e</sup> best of what We shall send in her, so it will be ours to Load her in N England, Either directly for y<sup>s</sup> place, Ireland, or some other Port & so here. With this View y<sup>r</sup>fore I tell Him I shall now acquaint you w<sup>th</sup> the Proposal, and that you may have Time for preparing her Lading for this Port if it may be. I enclose an account of particulars more or less of w<sup>ch</sup> may be w<sup>th</sup>in y<sup>r</sup> Reach, to procure, together with the Prices, they may be expected to sell at, here, that you may govern y<sup>r</sup> selves, as you shall Judge best. The Article of Tobacco, I Imagine w<sup>d</sup> turn to account, If the whole Charge upon it to its being shipped, should be 12<sup>s</sup> per lb. (thô I suppose it will not cost that) if it will Clear us 2<sup>d</sup> per lb. (as probably it will more,) it will do. I have endeavoured to Inform my self from an Honest Tobacco Trader, & am satisfied, that such Tobacco as We call Good, will answer as above, as well as the Virginia. It must be of a good Colour, & pressed in a suitable Temper, not too moist, so as that it does not come out Black, (as what we send to the West Indies does.) Care must be taken in y<sup>e</sup> buying & packing of it, which must be done under your own Eyes, or by one whom you can Trust of Sterling Honesty. The Merchant tells me, He chooses it should not be tied up in Hands, but laid in single Leaves, & if it be bought tied up in hands, as our People are wont to do it, It is best to open the hands, and so let the Tobacco be put into the Cask in handfuls untied up, and by that Means the Packer may separate all that is bad. It is easy at first, to get our Wares a good repute. Care & Honesty will do it, but the Want y<sup>r</sup>of prevents or Destroys y<sup>e</sup> Same, as has been y<sup>e</sup> Case with our Tarr & Turpentine. If 30 or 40 thousand w<sup>t</sup> of such as I have described, should be procured, I hope it would be better for us than purchasing Bills of Exchange.

W<sup>t</sup> such Staves as Described in y<sup>e</sup> List w<sup>d</sup> Cost I know not, but as some Staves are always useful for filling up, &c.

in a Ship's Lading, I should think it worth while, to get some such at Least. If they are faithfully got as described, they will fetch more y<sup>n</sup> y<sup>e</sup> Price Mentioned, as will y<sup>e</sup> ash or Rafter. If y<sup>e</sup> Main of y<sup>e</sup> residue of y<sup>e</sup> Lading be made up of Rice or Logwood, to be procured at any other than our own Markets, you will have Time I suppose to Inform y<sup>r</sup> selves about it, and secure y<sup>e</sup> same, if you Judge such articles will do, or if Rice can be purchased at Carolina w<sup>th</sup> what you can Command in N England you will Judge whether, it may be best to send a Vessel thither on such a De-sign, to bring it to you for lading y<sup>s</sup> Vessel, or to send her there on a previous Certainty of such a Lading, & so sail from thence for y<sup>s</sup> Port. I wish o<sup>r</sup> Friends at Middleton (w<sup>th</sup> w<sup>m</sup> Col. Pitkin as well as my self have been concerned) would make a Ton of Potash as good as they can, that it may be proved here. (Bristol w<sup>re</sup> y<sup>e</sup> former small Quantity was sent, was y<sup>e</sup> wrong Place for y<sup>e</sup> Purpose) for if it be good I have no doubt by w<sup>t</sup> I can learn, but that the Duty of what shall be made in the Plantations may be got off the next Parliament, which would surely prove of Future Benefit. If you cant make a Loading for this Port so as you shall Judge to be saving to us, you will then Think of procuring flax seed for Ireland (in w<sup>ch</sup> Mr Cooke I believe could be serviceable) or Fish for y<sup>e</sup> Streights, or Wheat for Lisbon, or Loading the Vessel for y<sup>e</sup> West Indies, & so hither.

I know not but you may fault my Conduct in doing this, without y<sup>r</sup> particular Direction, but the Consideration of carrying on a Trade here, and if Possible w<sup>th</sup> w<sup>t</sup> we can Command in N England sent either directly here, or first Exchanged at some other Port, The advantage I supposed must accrue to us (or at least probably so) from our Correspondent being Joint owner w<sup>th</sup> us in y<sup>e</sup> Vessel, so much Money going out for freight if o<sup>r</sup> Goods go in another Bottom, y<sup>e</sup> saving some Charge, if I go Home in y<sup>e</sup> same Vessel as I would willingly do, made me think on the whole it was best not to let y<sup>e</sup> opportunity slip, of taking Part of y<sup>e</sup> Vessel after Mr Sparrow had bought it, thô when He

bought, we neither of us had any thought of y<sup>e</sup> matter, and had he not Judged it a pennyworth, you may conclude he w<sup>d</sup> not have purchased it. The Master of it, he esteems an honest sober Man from y<sup>e</sup> Experience he has had of him and unless I receive Counter orders from you, shall Endeavr to put in Execution w<sup>t</sup> I have proposed, & so shall hope to see you (God willing in Septembr

I must desire Col. Trumble to Inform Col. Huntington or y<sup>e</sup> Widow Smith who gave me a Power of attorney, That she is entered in y<sup>e</sup> War office & is entituld so long as she remains a Widow, to 16 $\text{£}$  Sterling per a<sup>n</sup>. and y<sup>t</sup> they always keep back 4 Months Pay in y<sup>e</sup> office. The Time of y<sup>e</sup> Entry on y<sup>e</sup> Books is Decembr 25<sup>th</sup> 1748. y<sup>e</sup> Date of her Evidence to her Being Ensign Smiths Widow is Octobr 1749, so that the Pay of but 8 Months could be received for her. y<sup>e</sup> Charges & Fees I have paid Set  $\text{£}$ 3.4 so that I have in my Hand for her  $\text{£}$ 7.9. w<sup>ch</sup> I purpose to lay out for her as well as I can, & carry over w<sup>th</sup> me. In y<sup>e</sup> Mean-Time, she must send over (as before) Evidences of her being Living & s<sup>d</sup> Smiths Widow, and a Power of attorney to some other Person that may from Time to Time receive for her, (& I would advise to M<sup>r</sup> Sam<sup>l</sup> Sparrow) and such Evidence should be sent every 4 Months, or she is in Danger of suffering Loss finally. as to y<sup>e</sup> aff<sup>r</sup> of Spencer, I can now only farther Inform Col. Pitkin, That I have had y<sup>e</sup> Books &c. searched in y<sup>e</sup> Diocese of Winchester, w<sup>thin</sup> w<sup>ch</sup> Charles Spencer Died, and no Will nor administration given to any one, on his Estate is to be found y<sup>re</sup>. The occasion of my sending there, being y<sup>e</sup> Entry found in M. Reynolds's Book who received the Money here & paid it out, (Now Dead, as I wrote before) "That Charles Spencer of y<sup>e</sup> Centurion, made a Will to one Richard Knapp at Havant near Portsmouth," That being y<sup>e</sup> proper office at Winchester, for y<sup>e</sup> Probate of y<sup>e</sup> Will. I y<sup>r</sup>fore got it done, & had y<sup>e</sup> return last Week as I have said, but as it is possible it may be registered in Doctors Commons, I shall w<sup>th</sup>out delay, search y<sup>t</sup> office, and if I find nothing there w<sup>ch</sup> I suspect is y<sup>e</sup> Case, I hope something may be got.

I wish I could tell you I had received y<sup>e</sup> Money for the regiment, my memorial for y<sup>t</sup> Purpose Lies before y<sup>e</sup> L<sup>ds</sup> of y<sup>e</sup> Treasury, as do also Memorials for y<sup>e</sup> Pay of y<sup>e</sup> other Colonys & y<sup>ir</sup> forces, of the Money granted at y<sup>e</sup> same Time. We Live in hope of getting an Order for it, in a Little Time, but from w<sup>t</sup> Fund y<sup>s</sup> will order the pay We know not; & so as yet, are at all Uncertainties when We shall receive it. I have enclosed the Rolls of Sev<sup>l</sup> of the Companys (the Desert<sup>rs</sup> Excepted) w<sup>th</sup> y<sup>e</sup> Number of Days they are to have pay for, Set from the Time of their Enlistment to y<sup>e</sup> 31<sup>t</sup> of Octobr<sup>e</sup> following, and half of the remaining time to y<sup>ir</sup> Discharge or Death. the allowance is 1<sup>s</sup>/ for a Serjt 8<sup>d</sup> for a Corporal & Drummer & 6<sup>d</sup> per Diem for a Private Man. From w<sup>ch</sup> a Deduction must be made of 12<sup>d</sup> on y<sup>e</sup> pound for Poundage, one Days Pay in y<sup>e</sup> Year for Chelsea Hospital, & 2<sup>d</sup> per pound, for agency w<sup>ch</sup> on the whole will make Nearest y<sup>e</sup> deduction of a half penny on Every Eight pence, but as y<sup>rs</sup> is & will be more Necessary Charge upon it before We can get the Money, and how much that will be is Impossible for me to tell, until I shall have got the Money. y<sup>r</sup>fore I could not make up a Pay roll Exactly, but suppose that a Deduction of one Penny on the shilling, may answer for y<sup>e</sup> whole of all stoppages at y<sup>e</sup> Pay office, & other Charges above mentioned, and then there must be y<sup>e</sup> Deduction from such Mens particular Accts as have retained y<sup>ir</sup> Arms, viz. for a Cartridge Box, 1<sup>s</sup> 10<sup>d</sup> 2, for a Cutlas 5<sup>s</sup>, for a Gun, £1.5.0. Sterling w<sup>ch</sup> is y<sup>e</sup> rate of Exch: y<sup>s</sup> have set them, viz. 8 for one, and then the remainder will be the Soldiers Due, Sterling, but then at what rate you will pay them is beyond me to say. I understand the Kings soldiers, at Louisbourg & now at Chebucta, are paid a Dollar, (w<sup>ch</sup> at y<sup>e</sup> height goes not beyond 4/6 in Value) for five shillings sterling, or in other Words, there is 2<sup>s</sup>/ in y<sup>e</sup> Pound, deducted for answering the Charge of getting it there. and if that be Just, We surely may conclude, That if over & above y<sup>e</sup> penny on y<sup>e</sup> shilling before mentioned, (together w<sup>th</sup> y<sup>e</sup> before mentioned sums fr arms where they have been w<sup>th</sup>held), 2<sup>s</sup>/ in

y<sup>e</sup> pound be deducted, for all other Necessary Charges Insurance of y<sup>e</sup> Money over freight &. (w<sup>ch</sup> is agreeable to y<sup>e</sup> Kings pay at Jebucto,) wont be thought unreasonable. and then y<sup>e</sup> remainder, I am willing to pay them according, to y<sup>e</sup> Exchange; (w<sup>ch</sup> w<sup>t</sup> it is whether 9 or 10 for one I know not.) In w<sup>ch</sup> Case y<sup>ir</sup> Pay (I mean as to Time for w<sup>ch</sup> y<sup>s</sup> are paid) will be better than y<sup>e</sup> best of the Massachusetts was. I would give no occasion of offence, but do Justice as Near & as Well as I could, and am ready to Think, such as above proposed y<sup>e</sup> Men will be Content withal, Especially if you advance the pay for them Even before we receive the Money here. But as I doubt Not you will aim at doing what is right & Just, so I Leave it w<sup>th</sup> you to do the best you can. If Col. Talcot & Capt<sup>n</sup> Church who expect to pay their Men who have not sold, should be of y<sup>s</sup> opinion w<sup>th</sup> you (as I have proposed) it will facilitate y<sup>e</sup> affair, but if Either of them, (for any reasons) should make better pay to y<sup>ir</sup> Men, it may give uneasiness to others, so that you will doubtless think proper to Confer with them on y<sup>e</sup> subject. I would farther propose your sending to y<sup>e</sup> Capt<sup>ns</sup> of the Companys whose Men you will pay, to Inform you of any Demands they may have on those Soldiers, for any thing they have supplied them withall, or advanced to them as pay for Wages, that so you may do such officer Justice in stopping it from y<sup>e</sup> Soldiers Wages (w<sup>th</sup> his Consent) for such officer. Such a Method I think must be unexceptionable, and a desire also that the Capt<sup>ns</sup> w<sup>d</sup> Inform you y<sup>e</sup> Names of the Individuals, who have w<sup>th</sup>held their Arms or any p<sup>t</sup> of them. I have an Account under the Maj<sup>rs</sup> Hand as to his Company. Coppy of w<sup>ch</sup> I could give you, if he Cant supply it. as for Capt<sup>n</sup> Halls you want none from Him, for none of y<sup>t</sup> Company delivered up any. as to Capt<sup>n</sup> Starr's whose Brother I suppose may have paid off some Sold<sup>rs</sup> I would act as tenderly towards as may be, and hope it may be best to Let Him have the Paying of such as shall not have sold y<sup>ir</sup> Wages, before the Pay be received & Carried over, w<sup>ch</sup> probably may Leave not many. Let me Mention one Thing more, & so shall put a Period to this

Long Letter, & y<sup>t</sup> is, that you take a receipt from Every one you pay of in full of his Wages of what is already Granted by Parliament. Perhaps you will think best to keep a Book for y<sup>t</sup> Purpose, & keep Each Companys receipts by y<sup>m</sup>selves, for I know not, but I shall be Liable to report for all, to Exhibit receipts as my Vouchers, for y<sup>e</sup> Pay of y<sup>t</sup> Money, &c.

I flattered my self you see in y<sup>e</sup> beginning of my Letter w<sup>th</sup> my getting Home in Septembr<sup>e</sup> but it was on supposition of getting y<sup>e</sup> Money before, w<sup>ch</sup> I hope for, but as I finished y<sup>e</sup> last Paragraph, Dr Avery came to see me who is just come home from Bath, w<sup>re</sup> he had been w<sup>th</sup> his Lady abt 6 Weeks. He came now from Mr Pelhams, w<sup>re</sup> he had been to see after y<sup>e</sup> Louisbourg Money, an order for the Payment of w<sup>ch</sup> y<sup>e</sup> King had signed, some time ago, but he can get none yet. Some of the Kings Ships are lately arrived from y<sup>e</sup> East Indies, who press hard for y<sup>ir</sup> Pay w<sup>ch</sup> is made a handle off, for Delay. Shifts of Various Kinds for Delay I expect. y<sup>e</sup> Dr tells me He had y<sup>re</sup> Information, That the Govern<sup>r</sup> of Jamaica, & assembly y<sup>re</sup> have Exhibited a Grievous Complaint ag<sup>t</sup> y<sup>e</sup> Plantations, but Especially against Connecticut, for an Illicit Trade y<sup>s</sup> carry on w<sup>th</sup> the French, to y<sup>e</sup> great Damage of y<sup>e</sup> English Islands. The best News I can now tell you is, That Mr Shirley begins to sink in y<sup>e</sup> Esteem of y<sup>e</sup> Ministry, *I. E.* to speak as near the Thing as one may, He has done a dirty Job for them, & so served y<sup>ir</sup> purpose, and now y<sup>s</sup> find twill not prove an Easy Matter to keep up his reputation, y<sup>s</sup> will let Him sink, whether they thought before he was a Man of Probity, I leave, but the Prime Minister has now said (*I. E.* Mr Pelham,) That he is not a *Man of Probity*. Col. Waldo's aff<sup>rs</sup> w<sup>th</sup> Him y<sup>t</sup> made so much Noise in N England, are now about to open, and Waldo, who is Indefatigable in his pursuit & fixed on his ruin, Sais to Me He shall surely do his Business, & Contribute not a Little He Thinks in helping us to our Money which they have cutt off, If we will Petition the Parliament for it. how that may be, Time will Discover. but as I mention<sup>d</sup> in my Last, to you, or assem-

bly's petitioning the Parliament in behalf of y<sup>e</sup> regiment, & declaring in y<sup>ir</sup> fav<sup>r</sup>, w<sup>th</sup> respect to y<sup>ir</sup> Act w<sup>ch</sup> has hurt us, w<sup>d</sup> have great weight, so I cant but speak it again, That I wish it might be done, thô perhaps y<sup>s</sup> may reach you w<sup>n</sup> it is too late y<sup>s</sup> Session if it be not done. as for y<sup>r</sup> getting Coppys from y<sup>e</sup> Massachusetts records of y<sup>ir</sup> putting an End to y<sup>e</sup> Pay for billeting y<sup>ir</sup> Sold<sup>rs</sup> w<sup>ch</sup> I mentioned in my last, y<sup>r</sup> Labour in y<sup>t</sup> respect may be saved, Mr Jer. Allen having brought over all y<sup>e</sup> Printed Votes of y<sup>ir</sup> assembly, & Shirleys speeches, for many years together, on purpose to lay open (as he thinks) some scenes of his Iniquity, w<sup>ch</sup> at least may serve my purpose, in y<sup>t</sup> particular. I wish to hear something from you, that may be refreshing, and Conclude this w<sup>th</sup> my Compliments to you & y<sup>r</sup> Ladies, & other Good Friends,

By yours of y<sup>e</sup> 28<sup>th</sup> of May 1749 I rec<sup>d</sup> the Melancholly Acct of y<sup>e</sup> death of our late worthy Agent Eliakim Palmer Esq<sup>r</sup> wherein you signifyd to me that you would send me an Acct of his disbursements for this Colony, which I have never yet received and am sorry the Affairs of this Gov<sup>t</sup> should have been in so much danger of suffering beyond what you represented to me, for want of the necessary papers in your hands had not a Samaritan put to his helping hand, and it was to our Disadvantage to doubt of our Ingenuity and represent us to have improved a Gentleman so long a time at his own Expence without making any Satisfaction for the Expences on our Acct when he had rec<sup>d</sup> 69<sup>lb</sup> of Mr Wilks's Ex<sup>rs</sup> our former Agent as you will see by a Copy of his Acct w<sup>ch</sup> he sent me with a Ballance in our favour and his Salery constantly paid to his Correspondents att Boston Mess<sup>rs</sup> Balston and Palmer according to his Order and 400<sup>lb</sup> our Currency granted after his death and by me sent Mess<sup>rs</sup> Balston and Palmer before y<sup>e</sup> Acct came of his Decease, Credit for which you should give us unless it appear for y<sup>e</sup> year preceeding of which I shall endeavor to know the Certainty, and now having directed

I am favoured with yours of the 26<sup>th</sup> of febr last Ex<sup>rs</sup> dont alwayes derive the good Nature and Ingenuity of their Testat<sup>rs</sup> Mr Palmer sent an Acct of his Disbursements with Mr Sharps Acct after Clark and Towsey's Case was finished with the Creditt of 69<sup>lb</sup> St. which he recd on the Colonies Acct of Mr Wilks's Ex<sup>rs</sup> and the Ballance in our favour was 4-15-9.

Since w<sup>ch</sup> the Warr Affair and the Merchants Bill in Parliament have happened but y<sup>e</sup> Encouragement given of a Reimbursement of the Cape Bretton Expences represented it not needfull to make Remittances to him seeing he sent no further Acct of his Imbursements and his Salery was steadily paid by his Order to Mess<sup>rs</sup> Balston and Palmer his Correspondents, when the true State of the Affair shall be understood (I would hope) the good Light we stood in (as Mr Bollen once our Antagonist and others have represented) will not be extinguished, thô Mr Shirley has given a handle

to curtail our Expences and your Wages a little yet I suppose it to fall heavier on his own Govt.

By Mr Partridge's of ye 3<sup>d</sup> of April I am Informd that £5045-19-10½ is allowd for cloathing and Arms 5291-15-3 for the Regiment and also 6594-3-1¼ beside Pilots Wages making in the whole 17191-15-8½ which he supposes will be ready to be paid in a little time and a Warrant was granted for the payment of the Cape Britton Expences.

I am also desird by the Assembly to signify to you the gratefull Sence they have of the good Services you have done for this Colony and granted a Bill of Exchange for 25<sup>th</sup> Sterling on Dr Avery and I have accordingly sign'd 3 Bills and deliverd y<sup>m</sup> to your Son.

Yours of ye 17<sup>th</sup> of Febr last I rec<sup>d</sup> which I comunicated to our Assembly whereupon they made choice of Mr Richard Partridge for y<sup>r</sup> Agent and did by a Resolve desire and direct me to draw a Sett of three Bills of Exchange for the Sum of three hundred pounds Sterling on Dr Benjamin Avery payable to Mr Richard Partridge and that should advise you of it, to enable the s<sup>d</sup> Mr Partridge to discharge his Obligation on our Behalf to the Executors of our late worthy Agent Mr Palmer and to transact the Affairs of this Colony at the Court of great Britain and that you would charge s<sup>d</sup> Bill to the Acc<sup>t</sup> of this Colony for the Sterling money in your hands allowed for reimbursing the Expences of s<sup>d</sup> Colony in the taking and securing Cape Britton and to inform you That the Silver is lodged in our Treasury for sinking and discharging so many of our outstanding Bills

of Creditt as amounts to that Sum<sup>m</sup> of 300<sup>lb</sup> Sterling And that I should signify to you, the gratefull sense the Government hath of your Willingness to advance our Interest and the Care you have taken of it, altho your stated business layeth you under a Necessity of refusing the Agency of this Colony, yet that they earnestly desire your kind Offices and favour on our behalf both in our Religious and civil Interests.

I am also to advise you of a Sett of three Bills of Exchange I have drawn on you payable to Coll<sup>l</sup> Williams for twenty five pounds Sterling by a Resolve of the Assembly to be paid out of the money afores<sup>d</sup> and to place it to ye Colonies Acc<sup>t</sup> and that there is a sufficiency of Silver lodg'd in the Treasury, for [ ] and dischargi[ng so]  
many of our Bill[s] of Cre[ ]  
[ ]

After which I received your Letter of wherein you informd of your having Opportunity to consider our Circumstances with the Gentlemen of your Com<sup>tee</sup> who advisd to one Mr Storks to be our Agent a very worthy Gentleman I doubt not but the business was done before it came on your Re<sup>m</sup>endation of Coll<sup>l</sup> Williams to Mr Partridge who in your Opinion was a man of Integrity and Capacity and of long Experience in things of this nature, whom Coll<sup>l</sup> Williams confirmed every way to answer the Carecter you had given of him.

By a Letter from Mr Partridge on the 3<sup>d</sup> of April I understand a Warrant was made out for they payment of the Cape Britton money to your self who happend then to be gone down to the Bath so am in continual Expectation of hearing from you That you have rec<sup>d</sup> it

I am sorry Mr Palmers Ex<sup>rs</sup> did not know of the 60<sup>lb</sup> rec<sup>d</sup> of Mr Wilks's Ex<sup>rs</sup> and that by my last Acc<sup>t</sup> from Mr Palmer the ballance was 4-15-9 in our favour and that had he sent an Acc<sup>t</sup> of his Expences bringing us into Arrears with him, we should have made Remittances tho the constant Expectation of moneys coming into his hands for the Cape Britton Reimbursements might make him and us less

thôtfull about it I hope our Reputation will be repaired when Circumstances are known and rightly considered, his Salery was constantly paid according to his Direction and tho it were small yet it was pretty near equal to y<sup>e</sup> Gov<sup>rs</sup> Allowance\* to Mess<sup>rs</sup> Balston and Palmer att Boston.

willing to omit writing thee a few lines to let thee know that the Lords of the Treasury have not yet begun to pay any of the Canada Exped<sup>n</sup> Money since the rising of the Parliam<sup>t</sup> (which was upwards of 2 mōs since & Soon after that the King set out for Hannover) but we are in hopes the Paym<sup>t</sup> of the Money will be ordered shortly as the Lords of the Regency have Signed a Warrant for it.

I Suppose Dr Avery has rec<sup>d</sup> your Cape Breton money being £28863:19:1. I having carried him the Order for it on the Excheq<sup>r</sup> from the Treasury about a month since but the Fees & civil list money to be deducted thereout amounts to upwards of Eight hundred Pounds, & as for the £5045.19.10½ allowed for Arms & Cloathing of the Connect Regm<sup>t</sup> he refuses to concern himself about it and therefore it must remain till further Orders from Your Colony for the receiving that money. as before advised thee, & as for the money granted for the Pay of Colo Williamss Regim<sup>t</sup> (as has been also already wrote thee) we are in hopes the Treasury will not Scruple the Col<sup>os</sup> Authority for receiving & giving a Discharge for it, but yet we are not certain how that will be till the time of Paym<sup>t</sup> comes on. *Sir*

I herewith inclose to you the Act of our Assembly appointing You to be their Agent as also a Letter of Procuration.

And an Act appointing you to be their Agent or Attorney for Supplicating for and Recieving their Mony for the Reimbursment of their Expences on the proposed Expedition against Canada, and a power of Attorney for Asking recieving and Discharging the Same

Also a Copy of a Resolve of our Assembly desiring me to draw a Sett of three Bills of Exchange on Doctr Benjamin Avery for three hundred pounds Sterling payable to your Self, together with a Bill of Exchange for it, to enable you to discharge Your Obligation to Esqr Palmers Executors and to Transact the affairs of this Colony

Also a Resolve Signifying the Grateful Sense they have of Your Readiness to Assist Coll<sup>d</sup> Williams, and Undertake in behalf of the Colony, desiring Your Acceptance of the Agency and Continuance of Your care and Vigilance in the Affairs of the Colony, and that You would adjust and Settle the Colonys Acc<sup>ts</sup> with Mr Palmers Executors, Observing the Information I shall Give You relating thereto; and in order to it, I inclose a Copy of Mr Palmers Acc<sup>tt</sup> bearing date August 1<sup>st</sup> 1745 which Acknowledges the Receipt of 69£ of the Exec<sup>trs</sup> of Mr Wilks which Mony lay in their hands also a Copy of Mr Sharps Acc<sup>tt</sup> the one half of which he Charg'd on the Colony there then Remaining in his hands of the 69£ but £4.15.9 in our favour and More Mony Would have been remitted to him had it not been for the Continual Expectation of a Reimbursment of our Cape Breton Expences; And Since Clark & Towseys Case was over, I dont Remember any other Business has happened besides the Warr affair and the Bill in Parliament Set forward by the Merchants against paper Currency, his Salery was paid by his Order to Mess<sup>rs</sup> Balston & Palmer att Boston as <sup>tho</sup> their Rect<sup>s</sup> may appear, and last may was twelve Month, after his Decease a Salery of £400 Currency was Granted and paid as <sup>tho</sup> Mr Balstons Letter of July 22<sup>d</sup> 1749 will appear, for which I Suppose we ought to have Credit, Seeing he was dead before it was Granted, and was paid to his Correspondents, whom he made his Execut<sup>rs</sup>.

Mr Palmers Executors (who had Signified to me they would Send a Copy of the Acc<sup>tt</sup> but never Came to my hand) did not observe any Credit Given to the Colony when they oblig'd You to give Your note for the Ballance in order to obtain the Necessary papers of them, as has been hinted to me by Coll<sup>d</sup> Williams, it Contain'd the whole Expen<sup>ce</sup> he had been at from the beginning of his Agency which You will enquire into and the Just ballance Credit being Given for the 69£ receiv'd of Mr Wilks Execut<sup>rs</sup> &c, and what may be reasonable, You will pay out of the 300£ You Shall recieve of the Dr and place it to the Colonys Acc<sup>t</sup> as also the Mony you have Advan'd on the Affairs of the

Colony, and you will Send me a Copy of the Whole Acct that I may Make Some Judgment, where to Stop in Sign<sup>g</sup> Bills of Exchange. Twenty five pounds Sterling is Given to Coll<sup>l</sup> Williams for which I have drawn three Bills of Exchange on Dr Avery in Lieu Whereof we have appropriated So much Silver in our Treasury for Sinking as much of our Outstanding Bills.

I have also to Communicate to You a Difficulty which has happen'd between this Colony and the Province of the Massachusetts Bay about the Divisional Line; as I understand it the Massachusetts being bounded on the South with a due West line to be drawn three miles South of the most Southern part of Charles's River, and ours bounded North on the Massachusetts, that Govern<sup>t</sup> did ex parte improve one Woodward & Saffery to run their line on the South who erected a Station three miles South of a Pond which Sometimes buseth(?) over and emptyeth into Charles River, which Pond lyeth three or four Miles South of any part of S<sup>d</sup> River, which line being as Afores<sup>d</sup> left Some part of the Townshipp of Windsor one of our most Antient Townships Granted and Settled by the Government of Connecticutt to the Northward of S<sup>d</sup> Line, whereupon Quarrills and Contentions arose between the Borderers of each Government.

Upon which in 1713 Commis<sup>rs</sup> were appointed by both Government to run & Ascertain the Line who did agree to run the line from Woodward's and Saffery's Station and in Case any Lands were Granted by Either Government beyond their Line an Equivalent Should be Given for it, but if any Town were Settled by Either Govern<sup>t</sup> beyond their Line that it Should remain in the Jurisdiction of the Government which Settled them and on running this Line it was found that Woodstock, Infield, Suffield, and part of Springfield and Westfield were South of S<sup>d</sup> Line which agreement was Accepted by both Govern<sup>ts</sup> but when the Inhabitants found it was never Confirm'd by the Royal Authority, depended upon it that no Authority Could be Given by this Government to that to Govern them they laid

Claim to the Priviledges of this Government and prefered their Memorial to this Government as you will find a Copy of it inclos'd, and at length obtain'd an Act which they Esteem'd in their Favour, a Copy whereof is inclos'd, pursuant whereunto the Assembly att Boston refused to Joyn us with Commis<sup>rs</sup> as <sup>2</sup> Copy of their Act inclosed.

Yet hav<sup>g</sup> Since appointed Comm<sup>srs</sup> to treat about the four Towns in Controversy and propos'd time and place for their Meeting as you may See by a Copy of their Act inclosed, on which any further Motion was delayed; I observ'd the Difficulty to them desir'd their Compliance in Giving equal powers with ours to which I have had no Answer, whereupon our Assembly have desir'd & directed me to proceed to State the Case and desire you to petition his Majesty to appoint Com<sup>srs</sup> to run and Ascertain the Line Accord<sup>g</sup> to the Charters as you may See by a Copy of the Act of Assembly in May herewith inclos'd together with the case Stated and the Evidences to Support it. I have also received a Letter from Gov<sup>r</sup> Green\* Accompanying an Act of their Assembly for running the Line ex parte on the Massachusetts Refusal to Joyn them, wherein he desires this Government to Joyn and Assist, of which I Suppose You will be advis'd from that Government and in Case the Massachusetts have Gotten further Southard from Charles's River than they ought, it will carry the Massachusetts further Northward than a Line drawn as Afores<sup>d</sup> Called Woodward & Safferys, which will enure to a little Enlargement of both Governments to the Gratification of the Borderers Who are So fond of the Priviledges of these two Southern Governments.

I had the Fav<sup>r</sup> of yours of the 16<sup>th</sup> of Febr<sup>y</sup> last and Your Duplicate of the 3<sup>d</sup> of April with the Magazines and Newspapers for which I give you hearty thanks as also my Lord of Londons Letter and Since Your Paquett by way of Rhoad island

As to a Solicitor it has been always at the Discretion of our Agent, only M<sup>r</sup> Sharpe (I think) was recommended to

\*William Greene, governor of Rhode Island.

Dr Avery as a Gentleman whose Services had been to Good Satisfaction who Signified to me that as he Always had been So he Always would be in the Interest of this Colony.

I also inclose an Order to Esqr Palmers Executors desiring them to deliver to You as our Agent all the Letters and papers which Concern this Government and were lodged in the hands of Esqr Palmer.

Least I Should Fail of Stating the Case and Sending the Evidence relating to it by Means of the Sickness of the Gentlemen appointed to Assist me in it, I would repeat the Caution, I Sent Mr Palmer & Dr Avery to delay the Confirmation of the Agreement in 1713 made by the Comrs and approved by the two Governments, 'till we may be heard upon it if the Massachusetts Should make any Motion for it.

And least part of my Letters (as is reported) Should be Sent Home to Shew no Disposition in us to the Contrary, I Send Copys of them at large.

As for the Bill intituled an Act for the Encouraging the importation of Pigg & Barr Iron &c. to remove one Difficulty by Introducing a Greater in the Room of it Gives no Great Encouragment, and it Seems that for the Same reason, that one mill or Engine for the better improvement of the Countrys produce may be putt down, another may also All mines mineralls &c are Granted to us Excepts one fifth part of the Oar of Gold and Silver a like attempt was made in the Reign of King George the first, by the Disposition of a Gentleman in London to engross the whole Manufacts of Iron and putting the Plantations under the Circumstances of the Children of Israel when They had no Smiths but it was happily put by as too Great a Burden for a Free people to Sustain. An Encouragement for the raising of Silk in the Plantations is that which I have labour'd Much, as You May See in my Letters to Esqr Palmer if Yon have the opportunity, and will take the Trouble, and would hope it may not be put into the Same Predicament, with the Iron Works or any other Discouragment.

I observe in the Acc<sup>t</sup> of the Expences incurr'd in the intended Expedition an Allowance to the Pilott and Nothing

to any Transports to be Pilotted, the Colonys Expenses Exceedingly Curtail'd, & no Allowance made for Transports Ministers Doctr<sup>s</sup> or Commissary or one to take Care of the Regiments Stores.

The pay to the Regiment as Computed by Mr Palmer was £23449 Sterling Now abated to £11885 18 4½ the Cloathing Arms Ammunition & Stores were also Computed at £6746 13 4 & our Acct of about 66000£ Currency Annexed thereto, Reduced to 5045 19 10½ Sterling, So that £30195 13 4 Sterling & about £66000 Currency was abated to 17191 15 8½ Sterling.

By the Furlow we happily cas'd the Crown on the Acct of the Wages to 5943 1[ ] and we only Saved to ourselves the Charge of Billeting a 1000 Men one Year.

It therefore Seems Something hard for this Government who only have taken Such Measures as So much abate the National Debt Should have Greater abatements Made on their Expences than their Neighbours not more Loyal than they; And Notwithstanding their Noble Lordships were So Strongly bent on Savings to the Crown Yet a little Respect methinks ought to be had to those that were Carefull of Enhancing the National Debt and by that Means Sav'd the Crown more Mony than was Granted them and not make a Saving out of those only, who only had Sav'd the Crown and here observe that all other Governments have their Wage for their Forces allow'd 'till October 1747 ours only Excepted, who were under as Good Circumstances for his Majesties Service as they were, Yet a Fair opportunity is Given for ours being reduced to half pay during the Furlow as Officers are at home when the Warrs are over

but that we who were bound in obedience to his Majesties Command to raise the Men Should loose the bounty Given, (without which it would not Answer) to encourage it, as his Majesty Always do's when ever he has Occasion to Raise Volunteers Which here was 4£ Sterling a man and be at the charge of Transports Provisions, and other Necessaries Seems very hard, and no Staff officers allow'd for,

when Such Allowance is Made to a Pilott I Cant Account for, as they were all of them Actually in the Service & Improvment of his Majesty.

Indeed when I look back on former proceedings it Seems Evident, that our Country has never been putt upon assisting the Crown on any Expedition that has not by Some Means or Other been defeated to our Impoverishment and the Great abatement of the Growth of our Country: And when any Expedition has been Undertaken at the Meer Instance of our own Government, we find by unhappy Experience tho attended with Success, that it hath turn'd out Much to our Disadvantage, Yet I would not despair of Success in an Essay for an Augmentation, and leave it wholly to the Probabil[ ] You who are on the Spott may have of Succeeding therein, & in Relyance on Your Care & Prud[ ]

I Assure You I am Your Faithful

P: S: I have not as Yet been Able to State the Case about the Divisional Line and procure the Evidence to Establish it, the Controversy Subsisting about fourty Years before the partial incompleat & Mistaken Agreement in 1713 & must delay it 'til after the Sessions in October. however I have Sent You a Duplicate of What I sent <sup>Dr</sup> Cap<sup>t</sup> Talcott, which hope May have arriv'd Safe to Your hand by this time, I have also inclos'd to You a Second Bill of Exchange on Dr Avery for the £300 to You granted for the purposes before Mentioned.

I have Sent again to our Secretary, who being Much indispos'd recieived Nothing in Writing from him; but by what I can learn the Case was thus Mr Palmer being appointed in October 1742, in October 1743 his Salary was Granted for the Year past, and Always after it was Granted for the Currant Year (i e) beginning in October preceeding, then it will follow that the last Grant of 400£ Compre-

hended half a Year after his Death and Should be Considered accordingly.

Yet notwithstanding I have Reciev'd from Mr Balston a Petition, Sign'd by Mr Palmer of Boston to our Assembly for a Gratuity for Agent Palmer Good Services which I Shall lay before them.

Yours of the 11<sup>th</sup> & 17<sup>th</sup> May I Recd and give You thanks, but dont find the Acts of Parliament abt Iron, nor that abt Silk which You Signify'd You had inclos'd but the Iron act, I have rec'd from the D: Bedford I have also rec'd a Letter from Coll<sup>d</sup> Talcott by which he informs me that on the 27<sup>th</sup> of May his Friend Mr Lane of London told him that D Avery inform'd him, he had rec'd the Mony granted on the Acct of C: Breton

Concerng ye Iron act two Constructions are putt upon it, one is that its levell'd against all Engines their Enumerated, the other is that its only against Such as Should be erected after the 24<sup>th</sup> of June, one Exposeth me to the Informer the other to the Proprietor, Some Say the word (or) is Disjunctive, and then they read it Shall Either Erect or Continue Such Engine & the word (Such) has reference to the Engine and not to the time of its Erection, and it had been Easy to have Excepted those which were Erected before 24<sup>th</sup> of June & in the Margin, its Said, no Mill &c to be erected or Continued in America. Others Say the Word (or) is Copulative and taken for (and) and the Relative (Such) refers to the time of Erection, and not to the kind of Engine and then they read it thus that no Mill & so forth Shall be Erected after the 24<sup>th</sup> of June 1750 & Continued & the obligation of the Gov<sup>r</sup> &c to Give a Particular acct of Every Mill &c at the time of the Commencement of this Act erected in his Colony Expressing also Such of them as are Used and the names of the Proprietors of Each Such Mill &c & the Place where Such Mill &c is Erected & the Number of Engines, Forges & Furnaces in S<sup>a</sup> Colony Could be to no purpose if they were to be demolished, as well as those which Should be erected after 24<sup>th</sup> of June as the Sign upon the Door posts of the Children of

Israel. Whereupon I crave Your Advice for "Incidet in Scyllam Qui Vult Vitare Charybdim" The Addition or Omission of a word or two Would have made it intelligible to me in Either Constructions design'd

The Acts of the last Parliament are highly applauded, & I am well Perswaded That the Iron act is well Calculated for the Present Benefitt of London and the Plantat[ ] in as much as the Former may want Emp[ ]ment when the latter wants hands & Ski[ ] So that the Charge of Transportation will be abundantly recompenced by the More Expedition & better Manufacturing that Usefull Mettal at Home than can be here in many Generations.

As I find by the little Quantity of Silk raisd in my own Family and Sent home to be Manufactured Yet we dont affect old Master C[ ]vers Charge to his School boys never to go into Water 'till they had learnt to Swim

My Indisposition for near a fortnight has been such, that I have hardly been able to do any kind of Business, nor can I yett write but a few Lines at a Time, The Matters Your Hon<sup>r</sup> refers to, seem to require more application than I can well bear, while this Messenger will Tarry, and see not, but that they must be omitted to another Opportunity, Yett I have enclosed, a Number of Papers (most of them Originals,) relating to the Controversy about the divisional Line, between this Colony and the Massachusetts Bay, by which I conceive Y<sup>r</sup> Hon<sup>r</sup> will have Means, expresly, to direct me, to what may be necessary to state or [ ]pport the Case. I have been carefull especially to send the Survey of the famous Woodward and Saffery, (which I understand the Province insists upon, and which Gov<sup>r</sup> Shirley & Mr

Bollan assure them will be established & confirmed) together with a Memorial of the Transactions of that Governmt and this, from a little Time after the Charter, to a few Years before the Agreement in 1713, and when Y<sup>r</sup> Hon<sup>r</sup> has perused these Papers, what are Originals and Copys thereof may be needed, be pleased to Transmitt them by the Messenger by whom I may receive Your Hon<sup>rs</sup> further Com<sup>ms</sup>ands. As I understand by Cap<sup>t</sup> Talcott himself, (since my last) that he purposes speedily to sail for London, I have sent to Your Hon<sup>r</sup> as many of the Copys and Papers men-

tioned, as I found the shortness of the Time, and my health (which is yet very indifferent) would allow of, and hope they, with those before receiv<sup>d</sup> will be sufficient at least to ground a True State of the Case upon, and which are all (I know of) relating to the Business of the Line, save, the Mapp thereof, under the Hands of the Co<sup>m</sup>issioners mentioned in the Act of our Assembly in May 1713, And the Actual Survey or Run of it, from the Station at Wrentham to the west Bounds of Westfield, which I have never yet seen tho a good deal of Time has been spent in searching for them, I beleve they are not in my office, but am ready to think Gov<sup>r</sup> Saltonstall upon some Occasion or other took the Care of them, and if I am not much mistaken there are some Conclusions of the Co<sup>m</sup>issioners which I have seen in Copys from Boston, that are not to be found here, There is also the Appointment of certain Co<sup>m</sup>issioners some Years ago to perambulate the Line, and a Report (I conclude) of some doings of theirs in that Matter, which I could not now look up, The Gov<sup>r</sup> and Council (I perceive) transacted a considerable part in this Affair, as appointing the Commissioners &c the Records of which are with Your Hon<sup>r</sup>, And the Roll of Papers referred to in the Memorial (which accompanied my last) I should think might yett be obtained as it actually came to the Hands of Sr Henry Ashurst, and very probably from him (with the Governm<sup>ts</sup> other papers) to the succeeding Agents, it may be difficult if these, Matters should again be needed to collect them at this Day.

I have enclosed a short Certificate & a Copy relating to Agent Palmers Salary &c which I hope may answer the Purpose. Mr Baldwin is charged with a Letter from Capt Talcott which I desired him to write, wherein I conclude he setts the Time of proceeding on his Voyage to England

It being in general necessary for His Majesty's Service and for the Benefit of the Plantations, that the Limits or Boundaries of the British Colonies on the Continent of America should be distinctly known, more particularly so far as they border on the Settlements made by the French or any Foreign Nation in America; We desire you to send us with all possible dispatch the best Account you can, of the Boundaries of his Majesty's Colony of Connecticut under your Government, together with a Chart or Map thereof, all the best Accounts and Vouchers you can obtain to support the same, and more particularly with relation to any Settlements that may have been made by the English on the Frontiers towards the Lakes & Mountains. We at the same time recommend it to you to inform Us whether the Subjects of any Foreign Prince, have made any & what Encroachments on the Colony of Connecticut under your Government, and at what Period; nor can you be too Exact in Stating every particular in the History of whatever Encroachments have been made, which may serve to place the Proceedings in a true light, & confute any Right which may at any time be founded upon them. *Gov<sup>r</sup> Law*

The last I wrote thee was of the 4<sup>th</sup> Inst: via N: York being still without any of thy favours: yet I judg'd it not amiss to send thee a few lines as I have hitherto had some share in assisting Col<sup>o</sup> Williams in his Affairs who was very well when I saw him last which was a few days since at Whitehall. As to the money due to your Colony on accot

of the Canada Expedition granted by Parliament as heretofore advised thee it remains unpaid yet as well as does the Pay of Colo Williams's Regiment, the Treasury not having begun since the rising of Parliament to pay any money on that acct but they have of late referd that Affair to W<sup>m</sup> Pitt Esqr the Pay Master General to examine into the several Claimers Authority for receiving & giving discharges respectively & take an acct thereof which when done he is to report to the Lords of the Treasury & apply to them for the money to answer the demands & on the 10<sup>th</sup> Instant I attended for New Jersey & Colo Williams with other Agents & gave in then the Claimes I was to make accordingly—but the Treasury Board having adjourned their s[essions] till the beginning of next month, the said Pay Master can make no Report nor Application during the Interval.

As for News the King continues at Hannover Still & will scarce as its thought return till some time in November. We have had little Alteration in the Ministry of late only the Duke of Richmond is deceased a few days since who was Master of the Horse to the King & sustained under him diverse other considerable postes—for the rest I refer to the publick prints herewith sent of which I desire thy acceptance.

The several

Letters of procuration I think are Sufficiently Expressed & Authentick. I note the Directions in relation to settling the acct with the Extors: of Eliak<sup>m</sup> Palmer dec<sup>d</sup> your late Agent which I shall observe Accordingly — & shall duly consider the Case respecting the Affair of the Boundary with the Massachusets & proceed therein according to advisement with a good Sol<sup>r</sup> I shall employ, but I have yet rec<sup>d</sup> nothing from the Colony of Rhode Island relating thereto hinted at in thy Letter but probably I shall in a little time. ## RICHARD PARTRIDGE TO JONATHAN LAW.

LONDON 7<sup>ber</sup> the 19<sup>th</sup> 1750*Gov<sup>r</sup> Law*

I wrote thee last of the 13 & 14<sup>th</sup> Ult via New York & Boston to which I refer acknowledging the rec<sup>d</sup> of thine dated 25<sup>th</sup> June & 5<sup>th</sup> July with the several papers & powers of Agency conferr'd on me by your Colony & in my said Letter expressed the grateful Sense I had of their favour.

As to the Money granted for your Expende in the Canada Expedition, that affair has been referrd by the Treasury (as I wrote thee before) to the Pay Master Gen<sup>l</sup> for him to examine into the respective Agents Authority for receiving it, & now he has made his Report thereon, & Since that we have been directed to attend the Lords of the Treasury which accordingly we did about a week Since—& were then given to expect that the Warrant woud in a little time be made out for payment to most of Us accordingly, & no Objection having been made to my Authority I hope in about 3 weeks time to be able to advise thee of the receipt of the money

And as to the Matter of the Boundaries with the Massachusetts I shall be waiting for the Papers wrote for in my last & when they come to hand pursue my Instructions with what exped<sup>n</sup> shall be judged requisite.

Col<sup>o</sup> Williams has of late taken a Journey into the Country but I dayley expect his return, So that I believe he Scarcely writes any letter by this Ship, I know nothing but he is well.

I have at length rec<sup>d</sup> an accot from the Extors of Eliakim Palmer a Copy of w<sup>ch</sup> comes inclosed—the Ball. appears thereby to be £283 16 3 w<sup>ch</sup> is considerably more due to them than at first we were acquainted with but before I settle with them I shall duly consult Col<sup>o</sup> Williams—if he returns pretty soon.

As for Publick News I refer thee to the prints herewith sent of which I desire thy acceptance the King is expected to return from his Germain Dominions some time

next month—

I am w<sup>th</sup> due respects

ELISHA WILLIAMS TO JONATHAN LAW.

LONDON Welbeck Street Octobr 3<sup>d</sup> 1750

*Sir*

My being unexpectedly out of Town when Capt<sup>n</sup> Talcott Sailed, prevented my acknowledging by Him the Honour of your Favour of June 19<sup>th</sup>. I now take the first Opportunity that Since offers, to make my Dutiful and most grateful Acknowledgments to Your Honour and the Gen<sup>l</sup> Assembly, for their acceptance and kind Notice of any Endeavours of Mine, to Serve the Colony. I Shall Esteem it as an additional Obligation on Me, to do any Thing which may be in my Power, for the future Service of it. Its great Priviledges I have always Prized, and am Taught, by what has fallen under my Observation here, to Set a higher Value upon them, if possible. There are Some who begrutch them to us and Love us not I dont Say, Tho<sup>o</sup> Such a Man as Dr Avery may Say, *Treat us hardly* because we have them. May God grant Wisdom to the Government at all Times, to conduct all their Affairs So, as never to give any Handle, to Such to do injury to it, that may be Watching for it. An Evil is now Threatening it, as well as all New England &c — viz — That of a Bishop's being Sent over, to the Brittish Colony's. The Arch-Bishop of Canterbury as well as y<sup>e</sup> Bishop of London, with Several other active Bishops,

are not a Little Engaged in it. and tis much to be feared will Accomplish it. They are not my Fears alone, but of many of our good Friends here. Dr Doddridge, from whose House I came Two Days Since told me, he had lately had free Discourse, with the Archbishop of Canterbury on y<sup>e</sup> Subject, & nothing he could Say, was of any Avail to Divert Him from the Purpose. What our Friends can Do to prevent it, I hope will be Done. That God Governs, has always been, & is Still, the great Consolation, of his Church. What advantage may be taken against us from the present Dispute between us & the Massachusetts Province about the Dividing Line, if it comes before the King and Council I know not, but heartily Wish, The Governments could Settle it, without bringing it here. I have lately been Apprized of one Thing, that will prove of no Disservice to us, in the Case That the Account of what y<sup>e</sup> Commissioners did in that affair in y<sup>e</sup> Year 1713, was probably never Sent over by the Massachusetts, as Some of their principal Gentlemen, flattered themselves it was, and from which they expected to receive Benefit. For Mr Bollon their Agent, has Searched their Several offices, where Such Papers might possibly be Lodged, and can find Nothing about it, as I have accidentally Learned from Him

If your Honour Should furnish Mr Partridge, with the Papers relating to that Case, w<sup>ch</sup> you Mention in Your Letter to Him, before I Leave London (which I hope may be in the Spring) shall cheerfully afford my assistance, in leading Him as particularly as I can into the Knowledge of it. The Money granted to the Colony, & the Regiment I hope will be paid before the End of this Month, The next Session of Parliament drawing Near, it is probable it will not any Longer be Deferred.

I am S<sup>r</sup> with all Dutiful regards,

Your Hon<sup>rs</sup> most Obedient

and very Humble Servant

## RICHARD PARTRIDGE TO JONATHAN LAW.

LONDON 8<sup>ber</sup> the 18<sup>th</sup> 1750*Governr Law*

I wrote thee last of the 17<sup>th</sup> Ult Since which I have had none of thy favours. This now comes chiefly to acquaint thee that hearing by Col<sup>o</sup> Williams Sam<sup>l</sup> Mason was still pursuing his Affairs in behalf of the Claim of the Mohegan Indians & was in expectation of obtaining some more money of the Governmt here for prosecuting his Appeal against the Colony which has been so long depending — I thereupon made diligent enquiry concerning it at the proper Offices & find the Case Stands thus; That for want of money he cant go on with the Appeal but in as much as by his Insinuations he had some years since obtained an order from the Privy Council dated 29<sup>th</sup> January 1740 whereby his Expence was to be born by the Crown — he got a considerable Sum which in the carrying on of the 2 Commissions that were issued & in other Charges it is all expended & now he has some time since exhibited his Petition to the King in Council for more money out of the 4½ <sup>p</sup> Ct West India duty — & when he has gained that point he intends to proceed to a hearing on the said Appeal — But by what I can learn there is not much encouragmt for him at present respecting the money altho: the Council have been often put in mind of it, & that however he may Succeed in getting a Supply at last, it is not likely to be, till some time after the King comes over from his Germain Dominions which may probably be in a months time: I enquired particularly about this affair at the Treasury & dont understand there is much encouragmt for him from thence. — & I have also put our Solr Sharpe in mind of it that he may be on the watch as I shall also & take the necessary measures in behalf of the Colony to prevent any Injury being done by Surprise — but it will be attended with Expence.

I have this day obtained a rough Copy of his last Petition & of the King in Councils Order hinted at above with an account of his Charges which I send thee inclosed just as I could have it (there not being time to get it transcribed

fair) for thy further Information, but I dont know whether it was not sent thee before by your late Agent, however lest that was not done I was not willing to omit it now — I think there is not any thing of them to be found among the papers — I have paid the Extors of said Palmer in full of your Colonys Accot & taken a Rec<sup>t</sup> for the same being £283 16 3 agreable to that acct I sent thee; I did insist for abatement on Some of the Article<sup>s</sup> particularly the last years Agents Salary paid to Balston & Palmer which to be sure was over paid, but on the Extors beginning to talk of Some further Consideration or gratuity for Extra Trouble & Service done in Soliciting the large Sums of money due from the Government here I thought it best to close with them without any further ado lest we should fare worse by a delay — but they seemed willing that Balston & Palmer might refund it in New England, as the £400 Currency was paid for the Agency of the Current Year he dying at about the Comencem<sup>t</sup> of that Year, but I hardly dared ask for an order for it —

The Ministry here have not yet began to pay the Canada Expence money but are Still in expectation of it Shortly — which is the present needful from

Thy assured Friend

RICH<sup>d</sup> PARTRIDGE

I think it is very happy for y<sup>e</sup> Colony that Col<sup>o</sup> Williams happen<sup>d</sup> to be here & so luckily getting Intelligence of Masons affair that we might be on our Guard & prepared in time for our defence, the knowledge whereof to be sure I sh<sup>d</sup> not have obtained otherwise so easily, as being ignorant before of y<sup>e</sup> Case.

## SAMUEL MASON'S PETITION TO THE KING.

To the Kings Most Excellent Majesty

The humble Petition of Saml Mason Trustee for the  
Tribe of Mohegan Indians in America.

Most Humbly Sheweth

THAT the said Tribe of Indians having been very faithful to the English & of great Service to the English Settlements in America hath always been protected by the Crown, but the Colony of Connecticut having in a most Shameful Manner abused that Tribe & taken from them the small Tract of Land reserved for themselves out of the Vast Territories they have freely given up to the English. Your Majesty in the Year 1737 was graciously pleased to Issue a comission of Review at your Majesty's Expense for doing Justice to said Indians.

But the Assistants of Rhode Island the Judges appointed in that Comission being in the like case wth. those in Connecticut, made a Handle of that Comission & without hearing the Indians gave away the Lands to the people of Connecticut.

That thereupon your Petitr. as Trustee and Guardian of the sd. Tribes of Indians came over to Engld to sollicit your Majestys Justice in their Favour who was graciously pleased to reverse all that the Rhode Islanders had done and to order a new Comissn. to Issue to other Comissrs., and in regard to the great Poverty and Inability of the said Tribe your Majesty was pleased by your Order in Council of the 29th day of Jany. 1740. (a copy of which is Annex'd) to direct that the charges attending the passing the said new Comissn. and all other Despatches relating thereto shd. be Defrayd at the Expense of the Crown.

That yr. Petitr. laying before the Lds. of the Treasury an Estimate of the charges of Suing out & prosecuting the sd. new Comission amounting as was then computed to £531 : 12 : 7.1/2 a copy of wc. Estimate is annexed No. 1. their Lordships were pleased to Issue that Sum to your Petitr together with the Charges of Receiving the same out

of the Duty of 4. 1 2 per Ct. then remaining in the Exchequer & thereupon the said new Comission on the 8th day of Jany. 1741 pass'd the great Seal and yr Petir soon afterwds. carried the same to Connecticutts.

That the Comissrs several of whom came from Nw. Jersey upwds. of 300 miles to Norwich where the sd. Comission was executed and sat in Executn. thereof from the 4th. of May to the 26th. day of Octobr. 1743 and your Petitr. necessarily paid to the Comissrs. & to the Council & Clerke who attended the Execution of the sd. Comission on behalf of the sd. Indians, and after necessary Dispatches relating thereto the several Sums of Money mentd. in the Annex'd Accot. No. 2, wch. exceeded wt. the same was estimated at by the sum of £216 : 4 : 1. 1 2.

That the Major pt. of sd. Comissrs. have given a very partial Judgmt. in favour of the people of Connecticut, contrary to Evidence & appart. Justice of the case, & to the Opinion of several others of the Comissrs. Yr. Petitr. on behalf of the sd. Oppress'd Indians, appeal'd therefrom to yr. Maj'y in Council and your Petitr. immediately afterwards came over to Engld. where he hath ever since continued on purpose to prosecute the sd. Appeal for Them, we. having been presented to yr. Majesty stands, referrd by yr. Majesty to be heard before the Committee of yr. Majesty's most honorable privy council and is now ready for Hearing.

That yr. Petitr. (almost to the Ruin of his own private Affairs) has for near three Years attended this Matter in Great Brittain and the sd. Tribe of Indians until Justice be done on the said Appeal are disposs'd & kept out of Possion of their Lands and are thereby reduced to the utmost want & distress & can't bring on their Appeal to a hearing for want of Mony necessary to defray the Expence thereof.

That yr. Petitr. hath humbly annex'd an Acct. & Estimate No. 3, of the charges yr. Petitr. is already in disburse and the lowest Computation of wt. will be further wanting in Order to bring the sd. Appeal to a final Hearing amountg. to £747 : 4 : 6.

That as this will be the last time any such charge can be repeated on to the Crown there being in the present Comission (wch. was not in any of the former) a Reservation of a Final Appeal to either party from the Comissrs. Judgmt. to your Majesty in Council.

And in Regard to your Majesty's said Order in Council of the 29th. of Janry. 1740 and to the notorious poverty of the sd. faithful Indians. Yor. Petitr. humbly prays yor. Majesty to order the sd. Honble. the Lords of The Treasury to Issue to yor. Petitr. Saml. Mason the amount of the sd. Charges out of the 4 & 1/2 pr. ct. (there being (as yor. Petitr. is inform'd) a considerable Sum arising from that Duty now in your Majesty's Exchequer, or to make such further Order for giving Relief to the sd. Indians & Enabling them to bring their sd. Cause to a final Hearing as yor. Majesty in yor. great Goodness shall think Just.

And the said Poor Tribe of Distress'd Indians shall be ever bound to pray.

SAMUEL MASON.

#### SKETCH OF JONATHAN LAW.\*

Milford Nov. 7 1750 Yesterday Morning, after a Short Illness of the Strangury, Died, the Hon<sup>ble</sup> Jonathan Law Esqr Governor of the Colony of Connecticut in the 77<sup>th</sup> Year of his age. He was Educated at Harvard College in Cambridge and Graduated in the Year 1695; and being well Accomplished with Academical Learning for those times, Preached the Gospel a little while and then betook himself to the Study and Practice of the Law. In the Year 1716, he was Constituted one of the Judges of the Superior Court, In 1717 he was Elected one of the Council. In 1724, he was chosen Deputy Governor and Chief Judge of the Superior Court. In 1741, he was Chosen Governor. All which Posts he filled up and Discharged with great Integrity Fidelity and Honour. He was a Gentleman of Critical understanding in the Law: And tho not an Eloquent Orator Yet he was a Wise Councillor, and very Judicious Wary and Steady in all his Conduct. As a Judge he Knew no man, but was altogether Disinterested and Unbiast, and always formed his Judgment upon the general Abstract Reason of things without Regard to any man. As a Governor, he was a hearty Friend to the Rights and Privileges of the Community and always steadily pursued that which appeared to him to be in self right and most conducive to the Public Good. He was always open and free to ask Council of

others; and would maturely weigh the Reasons offered but in the midst of a variety of Sentiments, which frequently happen, he generally pursued his own Judgment. He was little moved by any Popular Noise made by a Party. Yet he readily Conceded to that which evidently appeared to be the universal Current and Fixed Sense of the Community. So that in this Popular Government he kept a Happy Medium between the two Hurtful Extreams of being toss't about with every Breath of Popularity on the one side, and ever Tenaciousness to his own Judgment, on the other. He always kept in his own Mind a most clear, distinct and Steady view of the public Affairs and his own Scheme of Conduct, and never Inconsiderately involved himself or others into any Precipitant Measures. He was naturally not very forward to Start any new Scheme or Rejection; yet when any was Proposed, he had, upon mature deliberation, an uncommon Sagacity in penetrating into the nature, and foreseeing the Consequences of it; and events generally proved according his Expectation; so that he was generally Esteemed one of the best and most Judicious Statesmen in the Country. He was always forward to Promote the Interests of Religion & Learning in the Colony. And was a Steady & Hearty Friend to our Ecclesiastical Constitution in Doctrine & Discipline with a proper Indulgence to all [ ] persons of other Denominations. In his more private Conduct [ ] very exemplary, never practising or Tolerating any of the modish Vices of the World, but setting a Pattern of those Virtues which are most conducive to the Common good of mankind. He was careful to maintain Religion and good Order in his Family, and was a most Kind Husband & Tender Father. He was naturally of a very Calm and Serene Temper of Mind, in all Affairs; which, tis supposed contributed very much to that Health of Body and Vigor of Mind, which he enjoyed to the last Stage of Life. He Moderated with his usual Wisdom and Steadiness, in the last Session of the General Assembly, which ended but the Day before he was taken Ill, and after about three Days Illness of the Strangury Resigned his

Mortal Breath, to the great Grief and Sorrow of those who had Enjoyed the Happy Influences of his Wise Government. He was this Evening decently Interred, in the Midst of a Crowd of Mournful Spectators: His Pall was supported by Six Councillors and two Ministers, and Minute Guns were Fired by the Cannon of the Town during the Procession and Interment.

JEAN PAUL MASCARENE TO WILLIAM SHIRLEY.

Sr,

I have receiv'd by Mr Bastide the Honour of yours of the 8<sup>th</sup> instant and had the pleasure to see soon after Capt<sup>n</sup> Tyng in the Province Snow. the Countenance she affords us here is of no small Consequence to the Publick service Especially at this Juncture We had notice a few Days ago by a passenger that came to some of the Settlements at the upper End of Our Bay from Lewisburg that they had an Account at that place of the War being Declared between Great Britain and France which has Caused no small uneasiness to a number of People who live out of Our Fort and the Day before the Snow came a rumour being Spread that a French Officer with a Great number of Indians and People from Cape Breton were up our River at a small distance from this Place the Panick Seized the Women & Children whom I was Obliged to receive into the Garrison. this report however proved without Foundation. there is another more Probable that at Lewisbourg they are fitting out seven Privateers two already out to Cruise on the Eastern Coast of this Government in Order to draw Provisions from our settlements of French Inhabitants at the Upper End of Our Bay and Secure them from the Sloop the man of War left at Canso which I am Afraid will prove too weak to resist the French.

The St Johns River Indians sent four Delagates here about a fortnight ago I Inclose the purport of the Conference I had with them could I keep them in peace the French in Cape Breton would have much less Influence on Our Inhabitants. It is probable that if they have any Design on us they will Visit us soon whilst they knew Our works are in bad repair and Our Garrison weak. I hope however they will not forget us at home and that the province of the massachusetts being so much interested in the preservation of this Countrey your Excellency will give us the Countenance & assistance we may at this Time require

Captain Tyng making but a short stay I am obliged to Write in haste which I hope you will Excuse. I am with great Esteem and respect.

Indians in their turns danced, but said thus will we carry the Heads of the Flatt Heads, which made the French look very down, as they undoubtedly hoped to have been Joyned.

We hear a large body of French Indians are to pass this place next Spring, it's said they are going to War against the flatt heads. this small Army was to have gone the Last Summer, the noyse of which it seems frightened away too many of our Traders

If they come this Way shall watch them narrowly, as I can put no faith in those Directed by a Romish Priest, we have often Some or other of the five Nations here, who declares that no french shall distress this place.

*May it Please Your Excellency*

Yesterday about 12 o Clock the Garrison at the Great Meadow was Attack'd by an Army of French & Indians & fought briskly for the Space of an hour & half, but thrō divine Goodness were not able to take the Fort, but Mr Nehemiah How being about 80 Rods from the Fort, when the Enemy made their Appearance, was taken by them before he could get to the Fort. and David Rugg & Robert Baker being up the River in a Canoe & coming down the River were Shot upon & Rugg was killed but Baker made his escape. The most of the Cattle belonging to the People there are killed. I fear the Enemy have Attackt the Garrison at N<sup>o</sup> 4., & think tis likely may be Scattered to other Places about these Parts. The men that were in the Fort at the Great Meadow are very Confident that they have killed several of the Enemy, which men fought valiantly & courageously. I think 'tis necessary that we should have more men in these parts for a while seeing the Enemy come in large Bodies, and we have no Reason to think this the only Attempt they will make this Fall, and the Connecticut Forces having been drawn off for a Fortnight or three

DUKE OF NEWCASTLE TO JONATHAN LAW.

WHITEHALL. March 14<sup>th</sup> 1745/6.

*Sir,*

His Majesty having determined to omit Nothing, that might be necessary for the Security, and Defence, of Louisburg; And there having been great Reason to apprehend, That an Attempt might be made upon it, by the French, early in the Spring; The King was pleased to order Two Regiments to be sent thither from Gibraltar; which, It is hoped, may be arrived there, before this Time. His Majesty has also ordered another Regiment to be sent from hence to Louisburg; Part of which are now going on board Two Sixty Gun Ships, that are ready to sail; And the Remainder will proceed to Louisburg, with the Convoy, that will go from hence in about a Fortnight.

Rear Admiral Warren having desired His Majesty's Leave to resign the Government of Louisburg, on Account of the ill State of his Health; His Majesty has been pleased to appoint Commodore Knowles to succeed Him: And I am commanded by His Majesty, to recommend it to You, in the strongest Manner, That, in case Mr Knowles should have Occasion to apply to You for Assistance, for the better Maintenance, and Support, of the Garrison at Louisburg; either by Raising any Number of Men, to reinforce That Garrison; or in any other Manner, that shall be thought proper; You should use Your utmost Endeavours to furnish Him with it.

And as Mr Warren will have the Command of a Squadron of His Majesty's Ships, in North America; And will have received His Majesty's Orders, to concert with Gov-

ernor Shirley, whether It may be practicable, to make an Attempt upon any other of the French Settlements in North America; His Maj<sup>ty</sup> has commanded me to signify to You His Pleasure, That, in case It shall be judged advisable to undertake any Such Attempt; And, in order thereto, to raise a Body of Land Forces in North America; You should, in that Case, take the proper Measures for Raising Such a Body of Men, within the Colony, of which You are Governor, as may be practicable, to make Part of Such Force; And to act in Such Manner, as shall be agreed on.

I need say nothing to persuade You, to exert Your utmost Endeavours in the Performance of a Service, which may be of Such great Importance to the Security of His Majesty's Dominions in North America; The Safety, and Protection of which, His Majesty has so much at Heart.

I am, Sir,

Your most obedient

humble Servant

## THOMAS PALMER TO COLONY OF CONNECTICUT.

Colony of Connecticut, ss.

To the Honourable Jonathan Law Esq<sup>r</sup> Governour and Commander in Chief in and over said Colony, the Hon<sup>ble</sup> the Assistants and Representatives in General Court Assembled

1750.

The Memorial of Thomas Palmer of Boston in the Province of the Massachusetts Bay Esq<sup>r</sup> One of the Executors of the last Will & Testament of Eliakim Palmer late of London Esq<sup>r</sup> deceased.

Humbly Sheweth,

That the Said Eliakim had the Honour for several years before his death to Act as Agent for this Colony at the Court of Great Britain, and with great Zeal & Fidelity discharged this important Trust that your Honours were pleas'd to repose in him, having (as your Memorialist apprehends,) always steadily pursued such Measures as he Judged would be most for the Interest of this Colony, and it was a great Satisfaction to him that his Conduct and Services had your Honours Approbation.

That the said Eliakim for sometime before his death was almost constantly Employed in Applying to the Parliament of Great Britain for a Grant to be made the Colony for reimbursing them the Expences they were at in the Reduction of the Island of Cape Breton to the Obedience of His Majesty, and as this was an Affair of great Consequence to the Colony, he was indefatigable in the Prosecution of it, and so closely Engaged himself herein both before and after the Grant was made, that it was generally thought by his Friends, in London (as appears by Letters) that it brought on him the Illness of which he dyed, to the inexpressible Loss of his Family & Friends.

That for this extraordinary Service your Memorialist humbly Apprehends, his Testator never received from the Colony any Consideration or Allowance, tho' indeed there has been no Application as yet made to your Honours therefor.

Your Memorialist would therefore now humbly pray that your Honours will be pleased to take the premisses into Consideration, and make such an Allowance to your Memorialist in his Capacity aforesaid, for the extraordinary Pains, Care & Trouble his Testator was at in managing and transacting the Buisness aforesaid as to your known Justice and Equity shall seem reasonable.

And your Memorialist as in Duty bound, shall pray &c.

[Indorsed] Memorial of Thos Palmer Esqr 1750

BENJAMIN AVERY TO JONATHAN LAW.

*Honoured Sr*

I hope the Letters I wrote your Honour in Febr'y & March last have, before this Time, reach'd your Hands: in which, among other Things, I returnd you, Sir, & y<sup>e</sup> Colony my sincere Thanks for y<sup>e</sup> Favour you & they had done me, in appointing me your Agent in the Room of my worthy de<sup>d</sup> Friend El<sup>m</sup> Palmer Esqr: & acquainted you how absolutely inconsistent I found it w<sup>th</sup> my other Engagements to accept of this important Trust; desiring you, Sr, & the Assembly would be pleas'd to appoint some more proper Person to this Office: & this I hope was done in May last; when, as Coll<sup>o</sup> Williams informs me, your Assembly uses to meet.

I therein farther sent you word that I had presented a Memorial to the Lords of the Treasury, requesting, that they would pay me the 28,863<sup>11</sup>: 19<sup>s</sup>: 1<sup>d</sup>, due to the Colony, on the Account of the Louisburg Expedition; for the receiving of which you had sent me Sufficient & full Powers. And now I am to acquaint you, that, after some Months Delay, I have received that Sum at the Exchequer; & have paid it into the Bank of England: where it will lie to answer any Bills which your Honour has drawn, or may draw, on me, pursuant to the orders of the Assembly of which you favored me with Copies.

Out of the 28,863<sup>ll</sup>: 19<sup>s</sup>: 1<sup>d</sup>, I have paid for Fees at the Treasury & Exchequer, of which I keep, & Shall send you, a particular Account 144<sup>ll</sup>: 4<sup>s</sup>: 1<sup>d</sup>, & since I reced it, I have paid M<sup>r</sup> Thomas Lane 400<sup>ll</sup>; & took up the Bill which your Honour had advised me that you had drawn on me, in favor of Lientent<sup>t</sup> Coll<sup>o</sup> Talcott; & which M<sup>r</sup> Talcot himself told me he had left with M<sup>r</sup> Lane, when he took his leave of me, on his Return to Connecticut. So that the Sum remaining in my hands is 28,322<sup>ll</sup>: 15<sup>sh</sup>: of which I send you this Notice, that your Honour may draw on me for it as soon as it suits your Convenience.

When M<sup>r</sup> West, the Secretary to the Chancell<sup>r</sup> of the Excheq<sup>r</sup>, gave me the Warrant for y<sup>e</sup> Money, he desir'd me to acquaint my Constituents, that he had had a pretty deal of Trouble in expediting this Affair; & that the Province of y<sup>e</sup> Massachusetts had order'd him a Small Present as an Acknowledgment of his Civility. But what that was, & why given, the Gentlemen concern'd in managing the Massachusetts affairs will be better able to tell you than I am.

I hope Orders & Powers have been, or soon will be, sent to M<sup>r</sup> Storke, M<sup>r</sup> Partridge or some other proper Person, to Sollicit & receive what is due to the Colony, on Account of the design'd Expedition against Canada: for the Sollicitations & attendancy, that are quite necessary on occasions of this Nature, take up so much Time, that were I to undertake this Business, I must neglect other Matters, in which I have been preingag'd & to which I have been in a Manner train'd up, & for many years accustom'd. I think both the Colony & the Regiment have been very hardly used: I did what I could to procure both for the One & the Other more proper & Suitable Acknowledgments for their respective Services; & it would have given me great Pleasure had my Attempts been attended with more desirable Success.

Will you be so good, Sir, as to make my Compliments to the Assembly; & assure both your Self & them of my best Wishes & Endeavors for the Service of Connecticutt.

I am, with great Respect,

Your Honours most obliged  
& Obedient humble Servt

BENJ. AVERY.

## CONCLUDING NOTE.

---

The papers of Governor Jonathan Law are completed with the issue of this, their third volume. They cover the period of the Old French War, including the capture of the important fortresses at Louisburg; the raising of a regiment for an intended expedition against Canada; deal with the troubles and delay over the reimbursement of the expenses of these actual and intended expeditions; the frequent alarms caused by the Indians and the sending out of garrisons to protect the frontiers; the issue and redemption of bills of credit; the attempted revival of the intestate estates law; the still unsettled Mohegan Indians case; the boundary troubles with Massachusetts; show the exchange of numerous letters upon many subjects of mutual interest with the authorities of the adjacent colonies; and most important of all, in a political sense at least, the correspondence with the officials of the home government in England and with the agent who looked after the Colony's interests there.

The troublous times of the Colony are clearly shown, the sturdy character of the governor well brought out, and personal touches now and then enliven the official correspondence.

These papers, with the two volumes of Governor Joseph Talcott papers which have preceded them, form an unbroken series of official correspondence covering a quarter century up to 1750; a series which has not been and perhaps cannot be duplicated by any other of the American colonies for the same period. They show that it is not, although it has sometimes been so considered, a barren period of colonial history; but one that is full of interest, activity and important happenings.

These volumes also show the wealth of original manuscript material which the Connecticut Historical Society possesses; for only 89 out of the 881 letters and documents contained in the three volumes are taken from other sources than the Society's archives. Of these 38 are copied from originals among the State Archives in the Connecticut State Library, 37 from the Massachusetts Historical Society, four from the New York Public Library and one from the Public Record Office in London. From sources already in print nine documents have been reprinted. The transcript of the Muster Roll of Colonel Elisha Williams' regiment, from the original in the Public Record Office, was presented by our honorary member, the late Benjamin Franklin Stevens, F. S. A., of London.

To the Massachusetts Historical Society, the Connecticut State Library, the New York Public Library, and to their officials, the thanks of this Society are returned for the use of selections from their manuscripts and for courtesies extended in connection therewith.

Duplicates of nine letters printed from and credited to other libraries are in this Society's possession. They are:

Board of Trade to Colony of Connecticut, June 8, 1748.

Duke of Bedford to Colony of Connecticut, June 28, 1748.

Duke of Bedford to Colony of Connecticut, Aug. 9, 1748.

Eliakim Palmer to Jonathan Law, April 15, 1749.

Duke of Bedford to Colony of Connecticut, Aug. 4, 1749.

Thomas Hill to Colony of Connecticut, Aug. 28, 1749.

Lords Commissioners for Trade to Governor and Company of Connecticut, July 19, 1750.

Richard Partridge to Jonathan Law, Aug. 13, 14, 1750.

Richard Partridge to Jonathan Law, Oct. 18, 1750.

A greater number of documents therein is considered a sufficient reason for the slightly smaller type used in printing the third volume.

ALBERT C. BATES,

and Editor of the Law Papers.*
